BOOK JACKET *The Making of Global Capitalism* Leo Panitch, Sam Gindin, 2013-10-08 The all encompassing embrace of world capitalism at the beginning of the twenty first century was generally attributed to the superiority of competitive markets Globalization had appeared to be the natural outcome of this unstoppable process But today with global markets roiling and increasingly reliant on state intervention to stay afloat it has become clear that markets and states aren't straightforwardly opposing forces In this groundbreaking work Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state *The Making of Global Capitalism* identifies the centrality of the social conflicts that occur within states rather than between them These emerging fault lines hold out the possibility of new political movements that might transcend global markets

Werner Sombart and the 'Spirit' of Modern Capitalism Christopher Adair-Totef, 2024-03-18 This book illuminates the work of Werner Sombart a key contemporary of Max Weber showing how his writing and thinking laid the groundwork for concepts of modern capitalism Although the notion of the spirit of modern capitalism is most associated with Weber it was Sombart who first used this phrase with Weber focusing mainly on socioeconomics while Sombart continued to develop his ideas around modern capitalism This book critically analyses Sombart's groundbreaking work *Der moderne Kapitalismus* among his other writings to demonstrate how they may be read as a complementary alternative to Weber providing a more detailed sustained and a comprehensive account of the genesis and nature of modern capitalism This book will be of interest to a scholarly audience including students and researchers of the history of economic thought as well as areas of sociology politics and political economy

Multicultural America Susan Mizruchi examines the convergence of these two extraordinary developments No issue was more salient in postbellum American capitalist society she argues than the country's bewilderingly diverse population This era marked the emergence of Americans self consciousness about what we today call multiculturalism Mizruchi approaches this complex development from the perspective of print culture demonstrating how both popular and elite writers played pivotal roles in articulating the stakes of this national metamorphosis In a period of widespread literacy writers assumed a remarkable cultural authority as best selling works of literature and periodicals reached vast readerships and immigrants could find newspapers and magazines in their native languages Mizruchi also looks at the work of journalists photographers social reformers intellectuals and advertisers Identifying the years between 1865 and 1915 as the founding era of American multiculturalism Mizruchi provides a historical context that has been overlooked in contemporary debates about race ethnicity immigration and the dynamics of modern capitalist society Her analysis recuperates a legacy with the potential to both invigorate current battle lines and highlight points of reconciliation

Entrepreneurship and Religion Léo-Paul Dana,2010-01-01 I wish this book had been around when I tried to teach about entrepreneurship in its social context life would have been much easier with these informed sources Alistair R Anderson Aberdeen Business School UK This rich and detailed book makes a very timely contribution to extending our understanding of entrepreneurship in its social context Using selected examples the respected contributors show how the values developed in religious beliefs and practices shape entrepreneurship For too long the entrepreneur has been characterized as an isolated economically driven individual thus ignoring how enterprise and entrepreneurs are products of their society their culture and their religion This innovative book discusses both entrepreneurship and religion as well as indicating how the synthesis of beliefs and practices combine in entrepreneurial endeavours It provides a conceptually useful way of framing the individualistic entrepreneur in his or her social and cultural context demonstrating how entrepreneurial agency operates within and through a variety of religious contexts Illustrated with original photographs this captivating book will be warmly welcomed by students and researchers with interests in entrepreneurship sociology religion and cultural studies Government policy makers in immigration will also find this book an invaluable read
