Kumar,2010-01-02 People who

worry and ruminate put excessive focus on the past and the future a tendency which left unchecked can lead to mental health problems such as depression and generalized anxiety disorder The Mindful Path Through Worry and Rumination offers proven strategies to help readers find contentment in the present moment Scorsese and Religion Christopher B. Barnett, Clark J. Elliston, 2019-09-16 Scorsese and Religion concerns the religious vision of the great American filmmaker Martin Scorsese Not only will this volume explore the foundation of Scorsese's interest in religion namely his relation to the Catholic Church but it will also highlight the religious breadth of Scorsese's corpus Ultimately this book demonstrates that Scorsese's cinematic representation of reality brings together various religious influences Catholicism existentialism Buddhism etc and topics such as violence morality nihilism and so on The overarching claim is that Scorsese who indeed once claimed that his whole life had been movies and religion cannot be properly understood without reflecting on the ways in which his religious interests are expressed in and through his art *Mystical Moments and Unitive Thinking* Dan Merkur, 1999-02-11 Merkur proposes an alternative to the traditional psychoanalytic explanation of mystical experiences as regression to the solipsism of earliest infancy He does this by viewing unitive thinking as a line of cognitive development and mystical moments as creative inspirations on unitive topics Utilizing classical self reports by Christian Jewish and Muslim mystics Patanjali's Yoga Sutras and modern Western peak experiences Merkur argues that experiences of mystical union are manifestations of a broader category of psychological processes that manifest in scientific and moral thought as well as in mysticism Unconscious as well as conscious unitive thinking is sometimes realistic and sometimes fantastic in patterns that are consistent with cognitive development in general Mystical moments of unitive thinking may be considered moments of creative inspiration that happen to make use of unitive ideas Building on the psychoanalytic object relations theory that the self is always in relationship with an object Merkur argues that the solipsism of some varieties of mystical union always implies unconscious ideas of a love object who is transcendent **Longing to Awaken** Holly Gayley, Dominique Townsend, 2024-08-19 An indispensable collection of Buddhist devotional poems and songs Longing to Awaken features twenty five translations of Buddhist devotional poems and songs composed by revered Tibetan masters from diverse traditions and time periods The anthology invites readers to experience a variety of poetic forms that embody a range of emotions from grief and longing to skepticism and humor demonstrating the ways that poetry can inspire faith as well as reflect the profundity and at times fraught nature of the teacher student relationship This collection gives weight to literary not simply literal translation as a crucial endeavor in the transmission of Buddhism today one with the potential to raise the profile of Tibetan poetry onto the stage of global literature Featuring a remarkable interview with esteemed Tibetan master Jets n Khandro Rinpoche to elucidate Buddhist devotion and a landmark essay by Lama Jabb articulating a Tibetan theory for translating poetry *The Oxford Handbook of Deification* Paul L. Gavrilyuk, Andrew P. Hofer, Matthew Levering, 2024-06-03 Modern theological engagements on deification have undergone two major paradigm shifts First the study of deification

shifted from the periphery of theological discourse to its center For Adolf von Harnack deification was a pagan import that fatally corrupted and distorted the Gospel message of salvation In response the positive retrieval of the concept of deification belongs to the early years of the twentieth century By the 1910s in Russian religious thought and by the 1930s in much Roman Catholic theology deification had become a magnet concept attracting attention from many different viewpoints The second important shift relates to how deification is characterized Recent studies question the exclusively Eastern character of deification and draw attention to the engagements of this theme in Latin patristic and later Western Christian sources Reassessing the evidence for these two major shifts The Oxford Handbook of Deification comprehensively explores the points of convergence and difference on the constitutive elements of deification in different traditions and offers a foundation for ecumenical and interreligious dialogues The Handbook s first part analyzes the cultural and scriptural roots of deification the second part explores the most significant historical contributions to the understanding of deification in the early medieval and modern periods the third part develops systematic connections Readers will discover a surprising breadth depth and diversity of theologies of deification in Christian traditions Throughout the Handbook leading scholars in the field of Deification Studies propose vital new insights from a variety of perspectives for this central mystery at the heart of the Christian faith
