Becoming Apart:

Becoming Apart Michael Lewis, 2020-03-23 Focusing on the marginal region of Toyama on the Sea of Japan the author explores the interplay of central and regional authorities local and national perceptions of rights and the emerging political practices in Toyama and Tokyo that became part of the new political culture that took shape in Japan following the Meiji Restoration Lewis argues that in response to the demands of the centralizing state local elites and leaders in Toyama developed a repertoire of supple responses that varied with the political or economic issue at stake *Being Apart from Reasons* Cláudio Jr. Michelin, 2006-03-09 Being Apart from Reasons deals with the question of how we should go about using reasons to decide what to do More particularly the book presents objections to the most common response given by contemporary legal and political theorists to the moral complexity of decision making in modern societies namely the attempt to release public agents from their argumentative burden by insulating a particular set of reasons from the general pool of reasons and assigning the former systematic priority over all other reasons That strategy is apparent both in Rawls claim that reasons concerning the right are systematically prior to reasons concerning the good and in Raz s claim that pre emptive reasons are systematically prior to first order reasons The same strategy is also instantiated by certain arguments for the procedural value of law such as Jeremy Waldron s In the book each of those arguments for the insulation of reasons is objected to in order to defend the thesis the reasoning by public agents must always be as comprehensive as possible The remaining chapters object to those arguments mentioned above which aim at justifying the exclusion of certain reasons from public agents decision making **Philosophy of Being** Gerard Smith, Lottie H. Kendzierski, 2020-04-08 **Frames and Concept Types** Thomas Gamerschlag, Doris Gerland, Rainer Osswald, Wiebke Petersen, 2013-11-26 This volume showcases the potential richness of frame representations The presentation includes introductory articles on the application of frames to linguistics and philosophy of science offering readers the tools to conduct the interdisciplinary investigation of concepts that frames allow Introductory articles on the application of frames to linguistics and philosophy of science Frame analysis of changes in scientific concepts Event frames and lexical decomposition Properties frame attributes and adjectives Frames in concept composition Nominal concept types and determination This volume deals with frame representations and their relations to concept types in linguistics and philosophy of science It aims at reviving concepts and frames as a common model across disciplines for representing semantic and conceptual knowledge Departing from the general assumption that frames are not just an arbitrary format of representation but essential to human cognition a number of case studies apply frames as an analytical tool to a wide range of phenomena from changes in scientific concepts to particular linguistic phenomena This provides new insights into long standing semantic issues such as the lexical representation of verbs as predicative frames specifying particular event descriptions or situation types and their participants adjectives and nominals as concept frames which provide attributes and properties of an entity as well as modification complementation possessive constructions

compounding nominal concept types determination or definiteness marking Bert Gehrke Pompeu Fabra University Barcelona Spain *The Wonder of Touch* William E. Dorman, 2021-04-19 The central message of this book is that the well being of body mind spirit and planet requires that we nurture our connections From our skin to the cosmic to sights and sounds to the Transcendent this book takes us by the hand to marvel at how life itself is a constellation of interrelationships of touch We cannot not touch and be touched Humans live in a biosphere of touch the touch thriving and bustling within our bodies the touch of our relationships with family and friends the touch between neighbors the touch with Mother Nature and the touch with the Transcendent Selfishness and self centeredness are the powers withering us and the planet In our confrontation with our anxiety at death guilt and meaningless we sever the very interrelations that nourish and enrich life It is imperative as perhaps never before that we restore our touch with our deepest selves others Mother Nature and the Transcendent

Metaphysics, Method and Politics James Connelly, 2015-10-19 This book argues that R G Collingwood developed a complete and coherent political philosophy of civilization In making this case it also demonstrates that Collingwood s philosophical work comprises a unity in which although there was development there is no fundamental discontinuity between his earlier and later writings A philosophy of civilization must situate its subject matter within the full context of human experience and therefore Collingwood s political philosophy of civilization must be situated within the context of his whole philosophy The book presents the case that Collingwood developed a coherent philosophy of politics and civilization that this had its roots in both the early and the later work and that his overall philosophical approach comprises a generally consistent and integrated whole Philosophy of Being Oliva Blanchette, 2003 This work aims to reopen the fundamental question of being It raises the question of being after the natural sciences and phenomenology have run their course and pursues it according to a method that is properly metaphysical as well as critical **The Message of the Upanishads**

Swami Ranganathananda, The Message of the Upanishads is a study verse by verse of three of the principal Upanishads namely Isha Kena and Katha in the light of modern thought and modern needs Though constituting a small portion of the total Upanishadic literature they yet contain a lucid exposition of all the essential ideas of this immortal literature The spiritual insights of the Upanishads are an exception to the tyranny of time Subsequent scientific advances have not only affected their truth value but have on the contrary only helped to reveal the rational basis of their insights and enhanced their spiritual appeal This is no wonder because these insights are the products of an equally scientific investigation into a different field of experience namely the world of man s inner life Published by Advaita Ashrama a publication house of Ramakrishna Math Belur Math **Being Apart** LaRose T. Parris, 2015-07-07 In Being Apart LaRose Parris draws on traditional and radical Western theory to emphasize how nineteenth and twentieth century Africana thinkers explored the two principal existential themes of being and freedom prior to existentialism s rise to prominence in postwar European thought Emphasizing diasporic connections among the works of authors from the United States the Caribbean and the

African continent Parris argues that writers such as David Walker Frederick Douglass W E B Du Bois C L R James Frantz Fanon and Kamau Brathwaite refute what she has termed the tripartite crux of Western canonical discourse the erasure of ancient Africa from the narrative of Western civilization the dehumanization of the African and the creation of the Negro slave and the denial of chattel slavery's role in the growth of Western capitalism and empire These writers' ontological and phenomenological ruminations not only challenge the assigned historical and epistemological marginality of African people but also defy current canonical demarcations Charting the rise of Eurocentrism through a genealogy of eighteenth century Enlightenment racial science while foregrounding the lived African experience of racism in the late nineteenth and twentieth centuries Parris shows that racist ideology is intrinsic to modern Western thought rather than being an ideological aberration

Thinking Being: Introduction to Metaphysics in the Classical Tradition Eric Perl, 2014-02-06 In *Thinking Being* Eric Perl articulates central ideas and arguments regarding the nature of reality in Parmenides Plato Aristotle Plotinus and Aquinas He shows that throughout this tradition these ideas proceed from and return to the indissoluble togetherness of thought and being first clearly expressed by Parmenides The emphasis throughout is on continuity rather than opposition Aristotle appears as a follower of Plato in identifying being as intelligible form and Aquinas as a follower of Plotinus in locating the first principle beyond being Hence Neoplatonism itself a coherent development of Platonic thought comes to be seen as the mainstream of classical philosophy Perl's book thus contributes to a revisionist understanding of the fundamental outlines of the western tradition in metaphysics

Postcolonial Life Narratives Gillian Whitlock, 2015 The Oxford Studies in Postcolonial Literatures series offers stimulating and accessible introductions to definitive topics and key genres and regions within the rapidly diversifying field of postcolonial literary studies in English *Postcolonial Life Narrative* draws together two dynamic fields of contemporary literature and criticism postcolonialism and life narrative to create a new assemblage postcolonial life narrative Focusing in particular on testimonial narrative from slave narrative in the late eighteenth century to contemporary Anglophone life narrative from Africa Australia the Caribbean Palestine North America and India this study follows texts on the move through adaptation appropriation and remediation For postcolonial subjects life narrative offers extraordinary opportunities to present accounts of social injustice and oppression of violence and social suffering Testimonial narrative can reach across cultures to produce intimate attachments between those who testify and those who bear witness to legacies of apartheid slavery rape warfare genocide and dispossession Thresholds of testimony are subject to change and

for some for example refugees and asylum seekers opportunities to engage a witnessing public and inspire campaigns for social justice on their behalf are curtailed these are the ends of testimony The production circulation and reception of testimonial life narrative connects directly to the most fundamental questions of who counts as human what rights follow from this and what makes for grievable life Postcolonial life narrative is a dynamic field of literature and criticism and this book presents a series of proximate readings that outline its distinctive imaginative geographies

The Advent of Freedom John F. Hoffmeyer, 1994 These sections bring into play terms that have been widely used in Western philosophy but which in Hegel's discourse take on distinctive meanings actuality necessity freedom

The Tenseless Theory of Time W.L. Craig, William Lane Craig, 2000-11-30 The central question in the philosophy of time is whether time is tensed or tenseless viz whether the moments of time are objectively past present or future or whether they are ordered merely by the tenseless temporal relations earlier than simultaneous with and later than In this book and the companion volume *The Tensed Theory of Time A Critical Examination* Craig undertakes the first thorough appraisal of the arguments for and against the tensed and tenseless theories of time The discussions range widely over issues in the philosophy of language phenomenology relativity theory philosophy of space and time metaphysics and philosophy of religion The *Tenseless Theory of Time* sets out to discover whether the ineliminability of tense from language and our experience of tense warrants a belief in its objective ontological status or whether the defeaters raised by McTaggart's paradox and the Myth of Passage serve to undermine any warrant that the tensed theory of time may be supposed to enjoy

Living Apart Together Transnationally (LATT) Couples Rashmi Singla, 2024-05-18 This book provides deep insight into intimacy and distance in the complex globalised world through the newly coined concept of couples living apart together transnationally LATT Based on a review of the past four decades seminal studies and narratives from a qualitative empirical study including both heterosexual and same sex couples it shows intimacy can be maintained without geographical proximity The book has a rich layered and nuanced exploration of LATT couples experiences of relationship maintenance across distance and time through diverse ways such as digital emotions online sexual activity and meaning making through spirituality which challenge existing Eurocentric conceptualisations of intimacy

and relationships It also reveals an array of good practices for relationship maintenance across countries which can inspire other couples and practitioners Thus the book is an important resource not only for academics in the disciplines of psychology anthropology cultural studies family science sociology migration and communication but particularly useful for practitioners dealing with couple relationships such as counselors social workers and mental health advisors It is also relevant for international organizations and multinational corporations working with couples living apart together transnationally The implications of this book for how we live now are clear in a more closely connected and mobile world the possibility of living our most intimate relationships across distance will affect increasing numbers of us the book s informative theoretical and practical messages have valuable lessons for many of us now and in the future Dr Lucy Williams University of Kent the UK Living Apart Together Transnationally LATT Couples Promoting mental health and intimacy gives us insights into the everyday lives of couples living apart together LAT in a contemporary world characterized by globalisation and pandemics that have affected border controls and migration policies in different countries Rashmi Singla invites us to challenge the way we understand intimate relationships that are connected to physical proximity and provides us with innovative ways to maintain emotional and physical intimacy despite geographical separation Sayaka Osanami Trngren Associate Professor of International Migration and Ethnic Relations Malm University Sweden Dr Rashmi Singla s book Living Apart Together Transnationally addresses a very important problem many modern couples encounter living apart in different countries The increasing globalization of the job market and mass migration in the past four decades have made this topic more important than ever before However research about love and life in such conditions is still limited The research presented in this book reveals some new qualitative research findings about how partners maintain health and intimacy in such challenging conditions This book presents novel and invaluable research for scholars in the area of love and couple relationships Victor Karandashev Ph D Professor of Aquinas College Michigan The U S A Dr Rashmi Singla s work Living Apart Together Transnationally LATT stands as a profoundly empirical exploration of long distance couples spanning international borders The book provides captivating revelations into the lives intimacies and spiritual dimensions of such relationships Offering an interdisciplinary approach it establishes a robust groundwork for further investigations in this emerging field Lise Paulsen Galal PhD Associate Professor in Intercultural Studies Roskilde University Denmark How important is proximity in intimate relationships when partners live apart in different countries This question sits at the core of this timely book which offers new insights in part through the range of areas considered but also through its challenge to existing Eurocentric conceptualisations of intimacy and relationships Using narratives collected in in depth interviews including through the period of Covid 19 Dr Rashmi Singla provides rich accounts of living apart together LAT but vitally adding a transnational perspective LATT Dr Tina Miller Professor of Sociology Oxford Brookes University UK Author of Motherhood Contemporary Experiences and Generational Change Cambridge University Press 2023 The book Living Apart

Together Transnationally LATT Couples Promoting Mental Health and Intimacy is based on an empirical study on couples living apart transnationally. Collecting data on couples is difficult and for that alone I appreciate the work done by the author. Given that migration and mobility of families and couples is not likely to come to an end with the pandemic, a study that brings together experiences of couples compelled to live apart would be illustrative. The book refers to using social media for couples to connect with each other. This is useful information in the social and digital worlds that we live in. The phenomenon of migration and couples having to live apart is an ongoing one which is likely to be of interest to many academics and practitioners from host and receiving countries. Professor Sujata Sriram, Dean School of Human Ecology, Tata Institute of Social Sciences, Mumbai, India. This ground-breaking book provides new knowledge of how the increasing number of couples living apart together in different countries, the so-called LATT couples, cope with their situation and how they can maintain intimate relationships despite the distance. Based on in-depth interviews with heterosexual and same-sex couples spread all over the world and including the author's own lived experiences, the book convincingly challenges the conventional wisdom that cohabitation is a necessary condition for intimacy. Through a novel theoretical framework, Rashmi Singla highlights changing gendered orders and the challenges that meet long-distance relationships crossing the Global North/Global South divide. Drude Dahlerup, Professor of Political Science, Stockholm and Roskilde Universities, Sweden and Denmark. *Living Apart Together* is a timely book that addresses the complexities of love, sex, marriage, intimacy, and transnational distancing. Through qualitative research, this excellent book offers answers to current and enduring questions of immigration, migration, and border crossings. Dr. Rashmi Singla's research and scholarship open new ways of understanding how intimate relationships are governed by post-modern capitalism, which challenges socio-economic, geo-political, and cultural forms of being intimate. The book takes us on a journey of intimate discoveries which unfold through its various chapters on how people can nurture desire, intimacy, and love even while living apart, either as a matter of personal choice or out of professional necessity. In essence, *Living Apart Together* is a critical text in answering the larger question of what it is to be human in today's digital world. Political Authority and Provincial Identity in Thailand Yoshinori Nishizaki, 2018-08-06 The powerful Thai politician Banharn Silpa archa has been disparaged as a corrupt operator who for years channeled excessive state funds into developing his own rural province This book reinterprets Banharn's career and offers a detailed portrait of the voters who support him Relying on extensive interviews the author shows how Banharn's constituents have developed a strong provincial identity based on their pride in his advancement of their province Suphanburi which many now call Banharn buri the place of Banharn Yoshinori Nishizaki's analysis challenges simplistic perceptions of rural Thai voters and raises vital questions about contemporary democracy in Thailand Yoshinori Nishizaki's close and thorough examination of the numerous public construction projects sponsored and even personally funded by Banharn clearly illustrates this politician's canny abilities and tireless meticulous oversight of his domain Banharn's constituents are aware that Suphanburi was long considered a backward province by other Thais notably the Bangkok elite Suphanburians hold the neglectful central government responsible for their province's former sorry condition and humiliating reputation Banharn has successfully identified himself as the antithesis to the inefficient central state by promoting rapid development and advertising his own role in that development through well publicized donations public ceremonies and visits to the sites of new buildings and highways Much standard literature on rural politics and society in Thailand and other democratizing countries in Southeast Asia would categorize this politician as a typical strongman the boss of a semiviolent patronage network that squeezes votes out of the people That standard analysis would utterly fail to recognize and understand the grassroots realities of Suphanburi that Nishizaki has captured in his study This compassionate well grounded analysis challenges simplistic perceptions of rural
