Birds From Liberia:

The Birds of Liberia Wulf Gatter, 1988 **The Birds of Liberia** Glover Morrill Allen, 1930 *Birds of Liberia* Wulf Gatter, 1997 This book is the result of 15 years of research by the author and includes a complete checklist of the birds of the region. It contains distribution maps for 400 species as well as a wealth of other ornithological information. Fresh insights are given into the impact of forest destruction on the distribution of species. There is also new information on the movement of diurnal migrants and the numbers and ecology of migrant Palearctic and Afrotropical species. Of particular interest are the recently discovered endemic species in the region of Mt Nimba which straddles the border of Guinea and the Ivory Coast.

Birds From Liberia, 1951 *Travel Sketches from Liberia* Henk Dop, Phillip Robinson, 2012-10-04 B. Ttikofer's *Travel Sketches from Liberia* details the development of the Liberian nation and the intricate often volatile relationships between the country's indigenous peoples and its black colonists from America. In remarkable detail it provides vivid images of the country's past. **Where to Watch Birds in Africa** Nigel Wheatley, 2014-07-14 *Where to Watch Birds in Africa* is a field guide designed to help birders and general wildlife enthusiasts organize the most enriching trips possible throughout this great continent. From Morocco to Madagascar, this book presents over 200 bird watching sites in detail and describes the species endemic to Africa. The traveler will find practical information on climate, transportation, accommodations, health, and safety, as well as advice on a number of strategic questions: Where can we see birds that epitomize the continent? Which country supports the best cross section of species and the most endemics? How many sites must be visited to see most of these birds? How much time do these trips take and when is the best time to go? Featuring over one hundred maps and fifty one-line drawings, this book is not only a guide but also a handy reference. Following a chapter on how to use the book, there is an introduction to the continent and its birds. The countries, archipelagos, and islands are then dealt with alphabetically. General introductions to each country are followed by site details which include bird lists, a list of other wildlife present if applicable, and the latest information on where to look for the best birds.
