**Birds in the Australian High Country** Harold James Frith, 1969      **Australian High Country Raptors** Jerry Olsen, 2014-06-18 Australian High Country Raptors covers raptor species that regularly breed in the high country above 600 metres from Goulburn in New South Wales down to the hills outside Melbourne Victoria Author Jerry Olsen explores the nature of these striking animals that are classified as Accipitriformes diurnal hawks falcons kites and eagles Falconiformes and Strigiformes nocturnal owls Comparisons between these high country raptors and lower elevation breeders are also provided in addition to comparisons with raptors found overseas especially from North America and Europe The book begins with a description of habitats and vegetation types in the high country and which raptors are likely to be seen in each habitat type It continues with sections on finding and watching raptors raptor identification hunting styles food breeding and behaviour and conservation Appendices provide species accounts for diurnal breeding species in the high country with basic information about their ecology distribution and conservation as well as detailed instructions about handling an injured or orphaned raptor Illustrated throughout with photographs and drawings Australian High Country Raptors offers readers a chance to look into the lives of Australia's fascinating birds of prey      *Australian High Country Owls* Jerry Olsen, 2011-11-15 Australian High Country Owls provides the latest scientific information on Australian owl species especially Ninox owls It details studies of Southern Boobooks and Powerful Owls visits to North America and Europe to learn about owl research and the resulting publications that overturned some existing beliefs about Australian owls Ultimately this led to the discovery of a new owl species in Indonesia the Little Sumba Hawk Owl Appendices cover the biology conservation and rehabilitation of Australian owls including field recognition subspecies taxonomy habitat behaviour food range migration breeding voice and calls status and myths questions about each species and techniques for caring for injured and orphaned owls The book includes numerous photographs of different owl species and will be a handy reference for bird researchers and amateur bird watchers alike 2012 Whitley Award Commendation for Vertebrate Natural History      *Birds of Prey of Australia* Stephen Debus, 2019-07-01 Raptors are popular and iconic birds and are important ecologically with some species listed as threatened Yet they are among the most difficult birds to identify This fully updated Third Edition of the popular and award winning field guide Birds of Prey of Australia contains two sections a field guide with distribution maps detailed illustrations and information on identification and a handbook which includes an overview of the current knowledge about raptors including their biology ecology and behaviour An illustrated section on difficult to distinguish species pairs is also included along with new photographs Birds of Prey of Australia will appeal to a wide range of readers including ornithologists raptor biologists birdwatchers wildlife rescuers carers raptor rehabilitators zookeepers naturalists bushwalkers ecological consultants fauna authorities park rangers state forestry personnel and students      [The Quintessential Bird](#) Viola Temple Watts, 2011 Betty Temple Watts 1901-1992 developed an interest in birds in her early married life while living in Iran and Papua New Guinea

Although she had studied art formally as a nineteen year old it was not until she was 48 and settled in Melbourne that she decided to immerse herself in her bird art Betty spent much of her time practising drawing but was constantly critical of the results In spite of her harsh selfjudgement others had a high opinion of her skill and in 1952 she received her first commission going on to provide bird illustrations for numerous publications until she was in her late eighties The Quintessential Bird allows readers a glimpse into Betty s joyous world of birds This is followed by the plates reproduced in full along with 60 close ups of individual birds

**Australian Predators of the Sky** Penny Olsen,2015-09-01 Australian predators of the sky are some of the most admired and the most despised of the bird world Raptors are admired for their strength and independence but despised for their depredations on livestock and favourite garden birds while the owls are at once respected for their wisdom and watchfulness and feared for their mournful cries and association with darkness and ill omen The book begins with fascinating descriptions by award winning natural history author Penny Olsen on the discovery and illustration of birds of prey in Australia and their characteristics and ecology followed by full colour illustrations of each species by a variety of artists accompanied by intriguing notes about the birds Australian Predators of the Sky comprises over 200 striking paintings lithographs and engravings of all 34 Australian species 25 diurnal birds of prey such as eagles hawks and falcons and nine owls such as hawk owls and barn owls

**A Brush with Birds** Penny Olsen,2008 How images of Australian birds have changed over time as illustrated by the following artists whose work is in the Library s collection John Hunter George Raper Sarah Stone John Lewin John and Elizabeth Gould Henry Richter Neville Henry Cayley Neville William Cayley Ebezer Edward Gostelow Lilian Medalnd Betty Temple Watts William Cooper There is a short biography for each artist Provided by publisher

**Birds** Judith Wright,2003 The poems are complemented by full colour illustrations drawn from the National Library s Pictures Collection featuring the work of artists such as John Lewin Lionel Lindsay Lilian Medland William T Cooper and Betty TempleWatts

**The Action Plan for Australian Birds 2020** Stephen T. Garnett,G Barry Baker,2021-12 The Action Plan for Australian Birds 2020 is the most comprehensive review of the status of Australia s avifauna ever attempted The latest in a series of action plans for Australian birds that have been produced every decade since 1992 it is also the largest The accounts in this plan have been authored by more than 300 of the most knowledgeable bird experts in the country and feature far more detail than any of the earlier plans This volume also includes accounts of over 60 taxa that are no longer considered threatened mainly thanks to sustained conservation action over many decades This extensive book covers key themes that have emerged in the last decade including the increasing impact of climate change as a threatening process most obviously in Queensland s tropical rainforests where many birds are being pushed up the mountains However the effects are also indirect as happened in the catastrophic fires of 2019 20 Many of the newly listed birds are subspecies confined to Kangaroo Island where fire destroyed over half the population But there are good news stories too especially on islands where there have been spectacular successes with predator control Such uplifting results

demonstrate that when action plans are followed by action on the ground threatened species can indeed be recovered and threats alleviated *Flocks of Colour* Penny Olsen,2013-10-01 What name could be a more apt description of Australia than The Land of Parrots a name inspired by late sixteenth century maps showing a southern region labelled Psittacorum regio This beautiful book takes a close look at parrots in Australia from the first published illustration of an Australian parrot a Rainbow Lorikeet collected live on Cook s 1770 voyage to William T Cooper s twentieth century watercolour of the elusive Night Parrot With introductory essays by ornithologist Penny Olsen *Flocks of Colour* covers two and a quarter centuries of discovery and illustration of Australia s avifauna It features a rich portfolio of images of all the Australian parrots by various artists including John Gould Edward Lear Neville W Cayley and William T Cooper selected from the collections of the National Library of Australia The foreword is by Joseph Forshaw a world expert on the parrot family [Applied Population and Community Ecology](#) Jim Hone,2012-06-20 Part of the Zoological Society of London s Conservation Science and Practice Series *Applied Population and Community Ecology* evaluates theory in population and community ecology using a case study of feral pigs birds and plants in the high country of south eastern Australia In sequence the book reviews the relevant theory and uses long term research over a quarter of a century on the population ecology of feral pigs and then community ecology of birds and plants to evaluate the theory The book brings together into one volume research results of many observational experimental and modelling studies and directly compares them with those from related studies around the world The implications of the results for future wildlife management are also discussed Intended readers are ecologists graduate students in ecology and wildlife management and conservation and pest managers **Too Many Bird Books** Geoffrey Dabb,2023-08-01 This is a chronicle of encounters with a lot of bird books in fact a lifetime of such encounters The world of bird books is vast and varied defying coherent descriptions The author s qualification for making this attempt to describe it is that he owns several hundred of them gathered over more than 70 years To help make sense of this obsession the description of the books is linked to life in which traditional birdwatching and book hunting went on in different places and in between other things [Feather and Brush](#) Penny Olsen,2022-05-02 *Feather and Brush* traces the history of bird art in Australia from the simple engravings illustrating accounts of the earliest European voyages of discovery to the diversity of artwork available today It explores the early European approach in which naval draughtsmen officers convicts settlers naturalists artists and scientists alike contributed both to the art and the science of ornithology through to a wealth of contemporary artists who feature birds in their works This book contains more than 400 images representing the work of 158 artists some well known others published for the first time The illustrations have been selected for their interest whether ornithological historical or artistic They range from classical to quirky decorative to functional monumental to intimate Together they demonstrate the rich history of Australian bird art as it evolved in Europe and Australia and continues today along with the trends and technologies of the times This second edition includes new and revised chapters and features about 200 new

artworks including some by Indigenous artists Cultural sensitivity Readers are warned that there may be words descriptions and terms used or referenced in this book that are culturally sensitive Aboriginal and Torres Strait Islander people should be aware that this book contains images and names of deceased persons *Australian Dictionary of Biography, 1981-1990* Diane Langmore,1966 Volume 17 of the Australian Dictionary of Biography contains 658 biographies of individuals who died between 1981 and 1990 The first of two volumes for the decade it presents a colourful mosaic of twentieth century Australian life It contains biographies of well known identities such as Sir Henry Bolte Sir Robert Askin Sir Reginald Ansett Sir Macfarlane Burnet Sir Raphael and Lady Cilento Sir Arthur Coles Robert Holmes O Court Sir Warwick Fairfax Sir Edmund Herring Albert Facey Donald Friend Sir Roy Grounds Sir Bernard Heinze and Sir Robert Helpmann Eminent Australian women in the volume include Dame Elizabeth Couchman Dame Kate Campbell Dame Doris Fitton Dame Zara Holt and Lady Maie Casey Although many of the women achieved prominence in those professions conventionally regarded as the preserve of women othersandmdash such as Ruby Boye Jones coast watcher Ellen Cashman union organiser Elsie Chauvel film maker Dorothy Crawford radio producer Ruth Dobson diplomat Mary Hodgkin anthropologist Margaret Kelly restaurateur and Patricia Jarrett journalistandmdash demonstrate that some women at least were breaking free of the constraints of traditional expectations The lives of fifteen Indigenous Australians are included as are those of a number of immigrants who fled from persecution in Europe to establish a new life in Australia **Amazing Animals of Australia's National Parks** Gina M. Newton,2016-10-01 With its enticing and colourful design and its fascinating information this is a book that children will want to pour over either at home in the classroom or on a road trip This book brings together 55 national parks selected across all Australian states and territories and over 120 animals It is divided into seven sections according to habitat woodlands and grasslands forests rainforests arid zones mountains wetlands and waterways coasts oceans and islands each including a number of national parks and a selection of the fish reptiles frogs birds and mammals that inhabit them At the end of the book is a section on little critters beetles spiders butterflies grasshoppers bugs and so on Each habitat section opens with photographs of the featured national parks and a description of the habitat Each animal has its own page which has a stunning colour photograph of the species a map of its distribution range its conservation status and scientific information about the species The information is divided into the following sections Fast Facts gives you all the vital statistics such as size lifespan and number of young Where Does It Live tells you where in Australia you can find the species and provides details about its home What s Its Life Like tells you a bit about how the animal moves behaves eats and has young and Interesting Info has quirky and fascinating facts This book features a foreword by the Governor General of Australia Sir Peter Cosgrove **The Cockatoos** Edward John Mulawka,2016-04-28 This reference book on the cockatoo family provides a comprehensive physical description of the various species of this exotic parrot the habitat they favor and their distribution and behaviors both in the wild and in captivity Their reproductive history is examined as is the possibility of breeding

sufficient numbers in captivity to develop sustainable populations for re introduction to their original habitat should they become extinct in the wild The book explores the historical encounters of the various species with Europeans two centuries ago That early history provides considerable insight to the cockatoo s popularity and to efforts to breed them in captivity Many cockatoo species face a perilous future As their native forests are logged the cockatoos lose not only suitable nesting and roosting sites but native foods Additionally despite conservation laws governing the capture of wild cockatoos their desirability as an avian pet has spawned a worldwide illicit trade critically endangering some species to the point that they face extinction in the wild

**Grassfinches in Australia** Joseph Michael Forshaw,Mark Shephard,2012 An up to date fully illustrated monograph on all Australian species of grassfinches

**The Lost World of the Moa** T. H. Worthy,Richard N. Holdaway,2002 An investigation of the rich and unusual fauna of prehistoric New Zealand telling of one of the most dramatic extinctions of modern times The moa a giant flightless bird was among the animals lost the authors summarize what is known about the bird reconstructing its life and ecology

**Pigeons and Doves in Australia** Joseph Forshaw,2015-04 Possibly the most successful urban birds pigeons and doves in the Order Columbiformes are one of the most easily recognised groups They are an ancient and very successful group with an almost worldwide distribution and are most strongly represented in tropical and subtropical regions including Australia In most species simple plumage patterns feature mainly grey and brown with black white or dull reddish markings but the highly colourful fruit doves include some of the most beautiful of all birds From dense rainforests of north Queensland where brilliantly plumaged Superb Fruit Doves *Ptilinopus superbus* are heard more easily than seen to cold windswept heathlands of Tasmania where Brush Bronzewings *Phaps elegans* are locally common most regions of Australia are frequented by one or more species For more than a century after arrival of the First Fleet interest in these birds focused on the eating qualities of larger species In addition to contributing to declines of local populations in some parts of Australia excessive hunting brought about the extinction of two species on Lord Howe Island and another species on Norfolk Island In *Pigeons and Doves in Australia* Joseph Forshaw and William Cooper have summarised our current knowledge of all species including those occurring on Christmas Norfolk and Lord Howe Islands and with superb artwork have given readers a visual appreciation of the birds in their natural habitats Historical accounts of extinct species are also included Detailed information on management practices for all species is presented ensuring that *Pigeons and Doves in Australia* will become the standard reference work on these birds for ornithologists and aviculturists

**Quail, Buttonquail and Plains-wanderer in Australia and New Zealand** Joseph M. Forshaw,2023-05 Although not closely related quail buttonquail and the Plains wanderer have much in common Quail Buttonquail and Plains wanderer in Australia and New Zealand examines 14 species of these small secretive ground dwelling birds including Old World and New World quail the endangered Buff breasted Buttonquail the elusive Plains wanderer and the extinct New Zealand Quail Joseph Forshaw presents a comprehensive review of recent studies for these often hard to observe birds Detailed species

descriptions include key features habitat status diet and breeding along with information on eggs calls and distribution Each species is fully illustrated with exquisite colour identification plates by renowned wildlife artist Frank Knight This is an essential reference for anyone fascinated by these elusive birds
