Birken Und Hochoefen Eine Kindheit In Oberschlesien:

Birken und Hochöfen Horst Bienek,1999 **Birken und Hochöfen** Horst Bienek,1990 *Informal Communication and Occupation in the Polish Borderlands* Izabela Paszko,2025-11-18 The book explores the neglected role and social dynamics of informal communication interpersonal channels not controlled from above in the region of Upper Silesia under the German occupation during the Second World War 1939 1945 Whereas the classic dichotomies such as private public and formal informal have been widely explored and discussed in the humanities the main focus of this volume lies in the reconstruction of the information landscape of wartime and its deployment by families co workers neighbours and other social groups Through the prism of personal stories the book analyses functions and forms of informal communication that existed in a contextual and ephemeral way such as gossip rumours and workers conversations offering an interdisciplinary perspective on everyday life during this period *Informal Communication and Occupation in the Polish Borderlands* is primarily aimed at scholars of contemporary history social history and Eastern European history while its important lens as a study of fake news and misinformation in modern times will also be engaging to undergraduate classrooms and general readers

languages religions customs and as the media report every single day armies or guerrilla units Living within such areas of creative dynamics and destructive friction or visiting them even vicariously as the contributors to the volume do is tantamount to exposing oneself to a difference One's response to this difference either in the form of rejection or more preferably acceptance or a mixture of both is not merely an index of one's tolerance a platitudinised term itself that all too often hides an attitude of comfortable indifference but an affirmation of humaneness Borderlands are paradoxical if not aporetic loci They simultaneously connote territories on either side of a border in a literal sense and a vague intermediate state or region in a metaphorical sense Encapsulating the idea of border the term indicates both inescapable nearness and unavoidable or perhaps unbridgeable separateness The studies included in the volume focus on various aspects of borderland art and literature on analyses of selected works and on the peculiarities of cultural and literary representations Thus the borderland landscape both literal and metaphorical comes to be seen as a factor contributing to the emergence of new distinct and identifiable themes and motifs as well as theoretical frameworks
