Müller, Ian Jenkins, 2022-08-16 *Tourism as a Resource based Industry* presents the conceptual framework of the Norwegian economic geographer Sondre Svalastog and functions as a practical tool for analyzing and identifying resources when working towards a more sustainable tourism industry Tourism resources and their sustainability are analysed through the lens of a multidisciplinary approach which includes social economic cultural and natural dimensions Contextual awareness is achieved by combining research based knowledge with local know how and information on local conditions The book facilitates a way forward that examines both productivity and sustainability The usefulness and value of Svalastog s conceptual work is demonstrated by a selection of new case studies by experts in the field from different countries including Sweden Norway Slovenia and the UK Tourism researchers and students will find this book helpful for understanding the development of tourism and how it can contribute to the UN Agenda 2030 which reflects the urgency for change to secure cultural and natural resources health and social resilience and the stability of a socially constructed economy Thus tourism research needs to include a constant review and if required renewal of processes that manage how society culture and natural resources are used to achieve a balanced sustainable tourism process Irish Music Abroad
