primary beneficiaries of the altered landscape were reinvigorated Republicans who emerged after five successive defeats to tar the Democrats with the soft on communism epithet A new nationalist Republican party whose Cold War prescription for winning the White House was copyrighted to Dwight Eisenhower Richard M Nixon Barry Goldwater and Ronald Reagan attained primacy in presidential politics because of two contradictory impulses embedded in the American character a fanatical preoccupation with communism and a robust liberalism From 1952 to 1988 Republicans won the presidency seven times in ten tries The rare Democratic victors John F Kennedy Lyndon B Johnson and Jimmy Carter attempted to rearm the Democratic party to fight the Cold War Their collective failure says much about the politics of the period Even so the Republican dream of becoming a majority party became perverted as the Grand Old Party was recast into a top down party routinely winning the presidency even as its electoral base remained relatively stagnant In the post Cold War era Americans are coming to appreciate how the fifty year struggle with the Soviet Union organized thinking in such diverse areas as civil rights social welfare education and defense policy At the same time Americans are also more aware of how the Cold War shaped their lives from the duck and cover drills in the classrooms to the bomb shelters dug in the backyard when most Baby Boomers were growing up Like millions of Baby Boomers Bill Clinton can truthfully say I am a child of the Cold War With the last gasp of the Soviet Union Baby Boomers and others are learning that the politics of the Cold War are hard to shed As the electoral maps are being redrawn once more in the Clinton years landmarks left behind by the Cold War provide an important reference point In the height of the Cold War voters divided the world into us noncommunists versus them communists and reduced contests for the presidency into battles of which party would be tougher in dealing with the Evil Empire But in a convoluted post Cold War era politics defies such simple characteristics and presidents find it harder to lead Recalling how John F Kennedy could so easily rally public opinion an exasperated Bill Clinton once lamented Gosh I miss the Cold War

**Dark Mother** Lucia Chiavola Birnbaum, 2001 Bringing a feminist perspective to contemporary findings of geneticists and archeologists Lucia Chiavola Birnbaum cultural historian points out that the oldest veneration we know is of a dark mother of central and south Africa whose signs ochre red and the pubic V were taken by african migrants after 50 000 BCE to caves and cliffs of all continents The oldest sanctuary in the world was created in 40 000 BCE by african migrants in Har Karkom later called Mt Sinai foundation place of judaism christianity and islam Lucia documents the continuing memory of the dark mother and her values in prehistoric images of the dark mother in historic black madonnas and in other dark women divinities whose sanctuaries are on african paths She tracks the memory in rituals and stories of her sicilian grandmothers in persecution of dark others in patriarchal Europe and the United States in the rise of nonviolent dark others since the 1960s in the banners of the 1995 world conference of women at Beijing and in art She finds the dark mother s values justice with compassion equality and transformation in everyday and celebratory rituals of the world s subaltern cultures and suggests that the image and values are in the submerged memories of everyone

**Ending Welfare as We**

**Know It** R. Kent Weaver, 2000-08-01 Bill Clinton's first presidential term was a period of extraordinary change in policy toward low income families. In 1993 Congress enacted a major expansion of the Earned Income Tax Credit for low income working families. In 1996 Congress passed and the president signed the Personal Responsibility and Work Opportunity Reconciliation Act. This legislation abolished the sixty year old Aid to Families with Dependent Children (AFDC) program and replaced it with a block grant program Temporary Assistance for Needy Families. It contained stiff new work requirements and limits on the length of time people could receive welfare benefits. Dramatic change in AFDC was also occurring piecemeal in the states during these years. States used waivers granted by the federal Department of Health and Human Services to experiment with a variety of welfare strategies including denial of additional benefits for children born or conceived while a mother received AFDC work requirements and time limits on receipt of cash benefits. The pace of change at the state level accelerated after the 1996 federal welfare reform legislation gave states increased leeway to design their programs. *Ending Welfare as We Know It* analyzes how these changes in the AFDC program came about. In fourteen chapters R. Kent Weaver addresses three sets of questions about the politics of welfare reform: the dismal history of comprehensive AFDC reform initiatives; the dramatic changes in the welfare reform agenda over the past thirty years; and the reasons why comprehensive welfare reform at the national level succeeded in 1996 after failing in 1995, 1993-94, and on many previous occasions. Welfare reform raises issues of race, class, and sex that are as difficult and divisive as any in American politics. While broad social and political trends helped to create a historic opening for welfare reform in the late 1990s, dramatic legislation was not inevitable. The interaction of contextual factors with short

*The New Psychometrics* Paul Kline, 2014-01-14 Many psychological factors are little more than statistical descriptions of particular sets of data and have no real significance. Paul Kline uses his long and extensive knowledge of psychological measurement to argue that truly scientific forms of measurement could be developed to create a new psychometrics. This would transform the basis of

psychology and change it from a social science to a pure science
