A History of France,  
1598-1661

YVES-MARIE BERCÉ

# Birth Of Absolutism A History Of France 1598 1661

**Miriam Griffin**

## **Birth Of Absolutism A History Of France 1598 1661:**

**The Birth of Absolutism** Yves Marie Berce, 1996 Yves Marie Berce's *THE BIRTH OF ABSOLUTISM* offers a refreshingly original approach to the history of France between the Edict of Nantes and the personal rule of Louis XIV a period dominated by the names of two cardinals Richelieu and Mazarin Berce brings to the task not only familiarity with the sources and with French historiography but also a thorough knowledge of the large body of English and American research on seventeenth century France This has enabled him to escape the diminishing perspective of the older French school the grand history told from Paris which reduced the course of events to an account of the inevitable triumph of the Royal state Berce emphasises the degree to which the French Crown remained beset by an aristocratic faction only too ready to avail itself of royal minorities religious dissent or provincial grievances in the pursuit of its own ambitions *Shakespeare Studies* Susan Zimmermann, Susan Zimmerman, 2005-10 *Shakespeare Studies* is an international volume containing essays studies by critics cultural historians from both hemispheres Volume 33 continues the series in which specialists in theatrical traditions in the time of Shakespeare discuss the state of scholarly study in their areas **The Routledge Companion to Early Modern Europe, 1453-1763** Chris Cook, Philip Broadhead, 2012-10-02 This compact and highly accessible work of reference covers the broad sweep of events as Europe transformed during the period from the Renaissance to the Enlightenment This Companion examines the centuries that saw the Reformation and Counter Reformation the expansion of Europe and the beginnings of imperialism and enormous changes in the way government and kingship were conducted With a wealth of chronologies tables family trees and maps this handy book is an indispensable resource for all students and teachers of early modern history **The Thirty Years War** Peter H. Wilson, 2011-10-15 A deadly continental struggle the Thirty Years War devastated seventeenth century Europe killing nearly a quarter of all Germans and laying waste to towns and countryside alike Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world When defiant Bohemians tossed the Habsburg emperor's envoys from the castle windows in Prague in 1618 the Holy Roman Empire struck back with a vengeance Bohemia was ravaged by mercenary troops in the first battle of a conflagration that would engulf Europe from Spain to Sweden The sweeping narrative encompasses dramatic events and unforgettable individuals the sack of Magdeburg the Dutch revolt the Swedish militant king Gustavus Adolphus the imperial generals opportunistic Wallenstein and pious Tilly and crafty diplomat Cardinal Richelieu In a major reassessment Wilson argues that religion was not the catalyst but one element in a lethal stew of political social and dynastic forces that fed the conflict By war's end a recognizably modern Europe had been created but at what price The Thirty Years War condemned the Germans to two centuries of internal division and international impotence and became a benchmark of brutality for centuries As late as the 1960s Germans placed it ahead of both world wars and the Black Death as their country's greatest disaster An understanding of the Thirty Years War is essential to comprehending modern European history Wilson's masterful book will

stand as the definitive account of this epic conflict For a map of Central Europe in 1618 referenced on page XVI please visit this book's page on the Harvard University Press website

**The Correspondence of Elizabeth Stuart, Queen of Bohemia** Elisabeth (Pfalz, Kurfürstin, 1596-1662), 2011 The first complete edition of Elizabeth Stuart's letters ever published Volume I covers the years between 1603 and 1631 Elizabeth's life as princess and consort charting her transformation from political ingenue to independent stateswoman

**Old Regime France, 1648-1788** William Doyle, 2001 The kingdom of France a byword for upheaval and instability for a century before 1660 was transformed over the subsequent generation into the greatest power in Europe and an institutional model admired and imitated almost everywhere A further century elapsed before this hegemony was challenged and even then the collapse of monarchy in 1788 took most people by surprise This book bringing together an authoritative international panel of historians portrays and analyses the life of France between two revolutions a time later known as the old regime All aspects of French life are covered the economy social development religion and culture French activity overseas and not least politics and public life where our understanding has been completely renewed over recent years A detailed chronology and full bibliography complete this compelling analysis of an age behind whose calm and assured facade forces were developing which were to shape a very different country and continent

**Henry IV and the Towns** S. Annette Finley-Croswhite, 1999-08-19 This 1999 book is a serious study of Henry IV's relationship with the towns of France and offers an in depth analysis of a crucial aspect of his craft of kingship Set in the context of the later Wars of Religion it examines Henry's achievement in reforging an alliance with the towns by comparing his relationship with Catholic League royal and Protestant towns Annette Finley Croswhite focuses on the symbiosis of three key issues legitimacy clientage and absolutism Henry's pursuit of political legitimacy and his success at winning the support of his urban subjects is traced over the course of his reign Clientage is examined to show how Henry used patron client relations to win over the towns and promote acceptance of his rule By restoring legitimacy to the monarchy Henry not only ended the religious wars but also strengthened the authority of the crown and laid the foundations of absolutism

**Provincial Power and Absolute Monarchy** Julian Swann, 2003-08-21 This is the first book in English to study the history of the Estates General of Burgundy during the classic period of absolute monarchy Although not a representative institution in any modern sense the Estates were constantly engaged in a process of bargaining with the French crown and this book examines that relationship under the ancien régime Julian Swann analyses the organisation membership and powers of the Estates and explores their administration their struggles for power with rival institutions and their relationship with the crown and with the Burgundian people The Estates proved remarkably resilient when confronted by the challenges posed by the Bourbon monarchy and by the reign of Louis XVI they were seemingly more powerful than ever However the desire to protect their privileges and to extend their authority had not been accompanied by an attempt to forge a meaningful relationship with the people they claimed to serve

**Villainy in France (1463-1610)** Jonathan Patterson, 2021-04-15

Obscene poetry servants slanders against their masters the diabolical acts of those who committed massacre and regicide This is a book about the harmful outward manifestation of inner malice villainy in French culture 1463 1610 In pre modern France villainous offences were countered if never fully contained by intersecting legal and literary responses Combining the methods of legal anthropology with literary and historical analysis this study examines villainy across juridical documents criminal records and literary texts Whilst few people obtained justice through the law many pursued out of court settlements of one kind or another Literary texts commemorated villainies both fictitious and historical literature sometimes instantiated the process of redress and enabled the transmission of conflicts from one context to another Villainy in France follows this overflowing current of pre modern French culture examining its impact within France and across the English Channel Scholars and cultural critics of the Anglophone world have long been fascinated by villainy and villains This book reveals the subject's significant Frenchness and establishes a transcultural approach to it in law and literature In this study villainy's particular significance emerges through its representation in authors remembered for their less than respectable even criminal activities François Villon Clément Marot François Rabelais Pierre de L'Estoile Christopher Marlowe Ben Jonson John Marston and George Chapman Villainy in France affords legal literary comparison of these authors alongside many of their lesser known contemporaries in so doing it reinterprets French conflicts within a wider European context from the mid fifteenth century to the early seventeenth century

### **Conspiracies and Conspiracy Theory in Early Modern Europe**

Barry Coward, Julian Swann, 2017-07-05 For many generations Guy Fawkes and his gunpowder plot the Man in the Iron Mask and the Devils of Loudun have offered some of the most compelling images of the early modern period Conspiracies real or imagined were an essential feature of early modern life offering a seemingly rational and convincing explanation for patterns of political and social behaviour This volume examines conspiracies and conspiracy theory from a broad historical and interdisciplinary perspective by combining the theoretical approach of the history of ideas with specific examples from the period Each contribution addresses a number of common themes such as the popularity of conspiracy theory as a mode of explanation through a series of original case studies Individual chapters examine for example why witches religious minorities and other groups were perceived in conspiratorial terms and how far if at all these attitudes were challenged or redefined by the Enlightenment Cultural influences on conspiracy theory are also discussed particularly in those chapters dealing with the relationship between literature and politics As prevailing notions of royal sovereignty equated open opposition with treason almost any political activity had to be clandestine in nature and conspiracy theory was central to interpretations of early modern politics Factions and cabals abounded in European courts as a result and their actions were frequently interpreted in conspiratorial terms By the late eighteenth century it seemed as if this had begun to change and in Britain in particular the notion of a loyal opposition had begun to take shape Yet the outbreak of the French Revolution was frequently explained in conspiratorial terms and subsequently European rulers and their subjects remained obsessed with

conspiracies both real and imagined This volume helps us to understand why **Once There Were Two True Friends, Or, Idealized Male Friendship in French Narrative from the Middle Ages Through the Enlightenment** Edward Joe Johnson,2003 **Self-Defence and Religious Strife in Early Modern Europe** Robert von Friedeburg,2017-07-05 This book explores the emergence of the nationally diverging paths taken by England and Germany in relation to the legal concept of self defence It explores how various theories of legitimate resistance to authority were developed and how they came to influence one another In particular it is argued that German theories played a much greater role than has hitherto been acknowledged in influencing English concepts of natural rights as discussed by such men as Parker and Locke French Society Sharon Kettering,2014-08-21 This book provides a birds eye view of social change in France during the long seventeenth century from 1589 1715 One of the most dynamic phases of French history it covers the reigns of the first three Bourbon kings Henri IV Louis XIII and Louis XIV The author explores the upheavals in French society during this period through an examination of the bonds which tied various classes and groupings together including rank honour and reputation family household and kinship faith and the Church and state and obedience to the King Acting as a social glue against instability and fragmentation in periods of great transformation some of these social solidarities are eroded whilst new ones emerge Sharon Kettering shows how nuclear family ties emerged at the expense of extended kinship ties while traditional rural ties were eroded by a combination of demographic crisis and agricultural stagnation Urban ties of neighbourhood sociability and work increased with rapid urbanisation By 1715 France had become a more peaceful and civilised place and this book discusses some of the reasons why *Early Modern Europe* Mark Konnert,2008-08-23 A tour de force Vladimir Steffel Ohio State University **Seventeenth-Century Cultural Discourse** Thomas Worcester,2011-08-25 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **A Companion to Julius Caesar** Miriam Griffin,2015-05-04 A Companion to Julius Caesar comprises 30 essays from leading scholars examining the life and after life of this great polarizing figure Explores Caesar from a variety of perspectives military genius ruthless tyrant brilliant politician first class orator sophisticated man of letters and more Utilizes Caesar s own extant writings Examines the viewpoints of Caesar s contemporaries and explores Caesar s portrayals by artists and writers through the ages *A History of France* Joseph Bergin,2015-06-01 Few modern countries can boast of such a lengthy history as France whose distinctive shape has been a key feature of the successive stages of European history during the past

millennium This engaging narrative seamlessly weaves together the complex tale of French history since the year 1000 Bringing together political religious social and cultural developments A History of France provides an insightful and readable overview of the country s history as it moved from a dominant position within Europe with an empire stretching across the continents to one in which it was invaded and occupied by its largest neighbour Through revolution war and peace Joseph Bergin explores how the Frankland of 1000 CE has mutated into the France we know today **From Mutual Observation to Propaganda War** Malte Griesse,2014-03-15 The Arab spring protest movements in the EU Russia Turkey or elsewhere are often labeled as twitter revolutions A crucial role is attributed to the new media coverage of events abroad and ensuing mutual reactions With the dissemination of print revolts in early modern times faced the challenge of a similar media revolution This influenced the very face of the events that could become full fledged propaganda wars once the insurgents had won access to the printing press But it also had an impact on revolt narratives Governments severely persecuted dissident views in such delicate issues as revolts Observers abroad had no such divided loyalties and were freer to reflect upon the events Therefore the book focuses mainly on representations of revolts across borders **France** Britannica Educational Publishing,2013-06-01 France s cultural and historical legacies are numerous and diverse It has long played a dominant role on the world stage and as one of the largest countries of the European Union its global influence shows no signs of dying down But despite its cultural economic governmental and historical achievements France has experienced trials and tribulations perhaps most memorably during the French Revolution but throughout history as well This comprehensive volume surveys France s assorted regions its renowned traditions the individuals and peoples that have led it to greatness and the struggles and successes of its past and present Chasing Empire Across the Sea Kenneth J. Banks,2002 Drawing on a vast array of official correspondence merchant s letters ship s logs and graphic material from archives and research libraries in Canada France and the United States Kenneth Banks details how France as the most powerful nation on the Continent and possessing a tradition of maritime interest in the Americas and West Africa dating back to the earliest years of the sixteenth century seemed destined to take a leading role in exploiting and settling the Americas and establishing posts in West Africa That it largely failed to do so can be explained in large part by problems emanating from information exchange in an early modern authoritarian state Banks provides a historical context for the role of communications in the development of the imperial nation state and offers an Atlantic World perspective on the growing body of literature revising the historical role of absolutism

## Reviewing **Birth Of Absolutism A History Of France 1598 1661**: Unlocking the Spellbinding Force of Linguistics
