culture affected literary culture in America **Sacred Modern** Pamela G. Smart, 2010 Renowned as one of the most significant museums built by private collectors the Menil Collection in Houston Texas seeks to engage viewers in an acutely aesthetic rather than pedagogical experience of works of art The Menil s emphasis on being moved by art rather than being taught art history comes from its founders conviction that art offers a way to reintegrate the sacred and the secular worlds Inspired by the French Catholic revivalism of the interwar years that recast Catholic tradition as the avant garde Dominique and John de Menil shared with other Catholic intellectuals a desire to reorder a world in crisis by imbuing modern cultural forms with religious faith binding the sacred with the modern Sacred Modern explores how the Menil Collection gives expression to the religious and political convictions of its founders and how the Menil way is being both perpetuated and contested as the Museum makes the transition from operating under the personal direction of Dominique de Menil to the stewardship of career professionals Taking an ethnographic approach Pamela G Smart analyzes the character of the Menil aesthetic the processes by which it is produced and the sensibilities that it is meant to generate in those who engage with the collection She also offers insight into the extraordinary impact Dominique and John de Menil had on the emergence of Houston as a major cultural center Human Rights Museums Jennifer Carter, 2022-09-16 Human Rights Museums presents case studies that trace how calls for historical and social justice and the commensurate rise of a rights regime have led to the emergence of a new museological genre the human rights museum Presenting innovative field research conducted in new and emerging human rights museums across Asia and Latin America the book adopts a broad museological approach It does so by including national and community museums as well as public and private museological initiatives within its purview Drawing on in depth case studies about museums in Taiwan Japan Paraguay and Colombia all discussed within their political and cultural contexts the book examines the paradigmatic shift that has occurred within the museum field in the wake of the larger global transformations that have shaped contemporary geo politics over the last 50 years The diversity of geographical and political contexts and the attention to lesser known institutions within the canon of English museum studies literature presents readers with a valuable opportunity to learn more about innovative museological models in non English speaking and non Western contexts Human Rights Museums will appeal to academics scholars and students of museum studies and related disciplines and to museum professionals seeking to know more about the diverse and evolving roles of museums in contemporary society **Co-Creative Placekeeping in Los Angeles** Brettany Shannon, David C. Sloane, Anne Bray, 2023-12-05 Co Creative Placekeeping in Los Angeles is a novel examination of Los Angeles based socially engaged art SEA practitioners equitable placekeeping efforts A new concept equitable placekeeping describes the inclination of historically marginalized community members to steward their neighborhood s development improve local amenities engage in social and cultural production and assert a mutual sense of self definition and the efforts of SEA artists to aid them Emerging from in depth interviews with eight Southern California artists and teams Co Creative reveals how artists engage

community members sustain relationships and defy the presumption that residents cannot speak for themselves Drawing on these artists and theoretical analysis of their praxes the book explicates equitable community engagement by exploring not just the creative projects but also the underlying phenomena that inspire and sustain them community engagement relationships and defiance What further sets this book apart is how it deviates from the conventional who and what of SEA projects to foreground the how and the why that inspire and necessitate collectively creative action Co Creative is for anyone studying arts based community development and gentrification given it complicates and enriches the current conversation about art s undeniable and increasingly controversial role in neighborhood change It will also be of interest to researchers and students of urban studies
