The Psychology of Today's Woman Toni Bernay, Dorothy Cantor, 2013-05-13 The sexual revolution oft discussed in the journalistic literature of recent years has brought in its wake a host of questions that are only beginning to be addressed How are women coping with real world challenges for which they may be ill prepared both socially and psychologically How successfully are they integrating old and new ego ideals in forging new identities Is their ostensible liberation actually making for a sense of integration and wholeness The Psychology of Today's Woman New Psychoanalytic Visions probes these and related questions from the standpoint of both developmental and therapeutic concerns Taking Freud's notion of female sexuality as a point of departure editors Bernay and Cantor have compiled a collection of original essays that reassesses traditional conceptions of female psychology Section I proffers new visions of femininity Section II and explores critical situations in the lives of contemporary women Section III A final section of the book of special interest to analysts and psychotherapists examines the various facets of the clinical treatment of women Collectively the contributors to this volume articulate a strong challenge to the deficiency model of female identity that has long dominated psychoanalytic theory More impressively still they offer constructive alternatives to the preconceptions of the past They converge in the belief that the richness and diversity of female experience cannot be encompassed in the overly simplified definitions and masculine analogizing of classical analysis Whether we investigate the status of masculinity and femininity as personality traits the relationship between nurturance and aggression in female identity or the meaning of normality and pathology in treatment situations we are very much in a realm of multiple truths in which the formulas of the past give little sense of the options of the present or the possibilities of the future

Environments as Therapy for Brain Dysfunction Roger Walsh, 2012-12-06 At the 1975 Winter Conference on Brain Research a series of workshops were held to discuss the role of the sensory environment in the etiology and therapy of brain dysfunction The participants represented a broad range of disciplines ranging from basic neuro science through human

development psychology They were linked by a common belief that the role of the sensory environment in brain dysfunction had received insufficient attention Each had made contributions to this question in their own respective disciplines and it was hoped that this meeting would provide an opportunity for cross fertilization and synthesis From these workshops this book evolved Its production would have been impossible without the help of many people Anna Taylor s flexibility allowed the holding of a larger than normal workshop while the authors bore up well under editorial pressure to meet deadlines Linda Coleman and Phyllis Straw provided excellent support from Plenum while Therese Linden gave editorial assistance Valarie Munden Rosemary Schmele and Estelle Hoffman did an excellent job of typing RNW was supported by a Fellowship from the Foundations Fund for Research in Psychiatry As always our families provided continuous support and encouragement To all these people and more we say thank you Roger N Walsh M D B Med Sc Dip Psychol Ph D William T Greenough Ph D

Serious and Violent Juvenile Offenders Rolf Loeber,David P. Farrington,1999-06-23 Detailed and comprehensive Serious and Violent Juvenile Offenders presents authoritative discussions by a select group of leading scholars on issues surrounding serious and violent juvenile offenders This population is responsible for a disproportionate percentage of all crime and poses the greatest challenge to juvenile justice policymakers Under the skillful editorship of Rolf Loeber and David P Farrington this unique volume integrates knowledge about risk and protective factors with information about intervention and prevention programs so that conclusions from each area can inform the other Current literature on these two areas does not for the most part apply directly to serious and violent juvenile offenders This volume contends that serious and violent juvenile offenders tend to start displaying behavior problems and delinquency early in life warranting early intervention It is the contributors thesis that prevention is never too early They also maintain however that interventions for serious and violent juvenile offenders can never be too late in that effective interventions exist for known serious and violent juvenile offenders Augmented by charts tables graphs figures and an extensive bibliography Serious and Violent Juvenile Offenders is an excellent reference work and a must read for policy and lawmakers judges attorneys law enforcement personnel education administrators researchers academics social workers sociologists as well as graduate students and interns **Girls at**

Puberty J. Brooks-Gunn,A.C. Peterson,2013-06-29 The publication of this volume at this time appears particularly auspicious Biological psychological and social change is greater during the pubertal years than at any other period since infancy While the past two decades have witnessed a virtual explosion of productive research on the first years of life until recently research on adolescence and particularly on puberty and early adolescence has lagged substantially behind This book provides encouraging evidence that things are changing for the better Considered separately the individual chapters in this book include important contributions to our growing knowledge of the biological mechanisms involved in pubertal onset and subsequent changes as well as of the psychological and social aspects of these changes both as consequences and determinants In this regard the book clearly benefits from the breadth of disciplines represented by the contributors includ

ing developmental endocrinology adolescent medicine pediatrics psychology and sociology among others The Causes of Behavior Judy F. Rosenblith, Wesley Allinsmith, Joanna P. Williams, 1972 **The Oxford Handbook of Infant, Toddler, and Preschool Mental Health Assessment** Rebecca DelCarmen-Wiggins, Alice S.
