General Accounting Office, 1988 Pursuant to a legislative requirement GAO 1 explored ways to reduce the potential for fraud in obtaining and using social security number SSN cards and 2 identified technological alternatives for making the card more resistant to counterfeiting GAO found that 1 the SSN application process was vulnerable to fraud since there were thousands of different documents applicants could use to support their applications 2 support documents such as birth certificates were easy to obtain counterfeit or alter with no practical way for the Social Security Administration SSA to verify them and 3 employers were untrained in document verification GAO also found that 1 designating the SSN card as the only acceptable document aliens could use for employment eligibility verification under the Immigration Reform and Control Act IRCA would simplify

employment eligibility 2 Immigration and Naturalization Service INS certification of alien employment eligibility could improve SSA procedures 3 although magnetic strips integrated circuitry and lasers would make SSN cards more resistant to counterfeiting they would not preclude persons from using fraudulent documents to obtain valid cards 4 the introduction of color copiers has posed a significant threat to SSN card integrity and 5 although IRCA provided that general revenues finance changes to the SSN card the Social Security Trust Funds paid for the replacement of 1 6 million cards at a cost of 11 6 million Counterfeiting and Misuse of the Social Security Card and State and Local Identity Documents United States.

Committee on the Judiciary,1977 **Citizenship 2.0** Yossi Harpaz,2019-09-17 The institution of citizenship has undergone significant change in the last two decades Since the 1990s dozens of countries have changed their laws to permit dual citizenship moving away from the previous model that demanded exclusive allegiance As a consequence tens of millions of people around the world now hold citizenship in two and sometimes three or four countries These changes have inevitably had an affect on the lived experience and personal meaning of citizenship but the existing literature on dual citizenship has mostly focused on immigrants in Western Europe and North America and has inquired about identity and sentimental aspects of citizenship Yossi Harpaz looks beyond the West in this book arguing that the rise of dual citizenship has created new opportunities for non Western elites to convert local advantages into a global resource Millions draw on ancestral or ethnic ties to Western EU countries or create such ties strategically in order to obtain a second nationality that will provide them with additional opportunities an insurance policy a high prestige passport and even social status He draws on qualitative and quantitative material from three cases that represent three pathways to compensatory citizenship Hungarian speaking Serbians who draw on their ethnicity to acquire a second citizenship from Hungary upper class Mexicans who engage in birth tourism in order to secure American citizenship for their children and Israelis who reacquire the citizenship of European countries from which their parents and grandparents had immigrated half a century earlier *Congressional Record* United States.
