Births, Marriages & Deaths of Beaver & Washington Cos., Pa., 1852-1854 K. T. H. McFarland, 1999-01-01 Pennsylvania researchers are very aware of the difficulty of getting early vital records for their state, particularly marriage records. It did not become mandatory to keep marriage records until 1885 and deaths until 1906. A voluntary request to keep these type records was presented in 1852, but since it was not compulsory, it was a hit and miss record keeping effort.

Compliance was worse when recording births since doctors notoriously do not keep records Preachers tend to be more conscientious so there were more marriage records than births records maintained In every county recorded death records were the most complete records kept You may just be the lucky family who finds that much sought after record you couldnt find anywhere else **Births, Marriages & Deaths of Bedford & Somerset Cos., Pa., 1852-1854** K. T. H.

McFarland,1999-01-01 Ask most genealogists about statewide recording of vital statistics in Pennsylvania and they will tell you that the Commonwealth started recording marriages in 1885 and births and deaths were not recorded until 1906 This is technically true but an earlier abortive attempt was in effect from 1852 1854 The main problem with this early effort was that it was voluntary rather than compulsory and that county officials were employed as registrars With no mandated compliance and no penalties for non compliance as one might expect compliance was very spotty Thus these records can be a source of disappointment for their omissions and great elation if one locates the individual sought since these records sometimes contain certain information that s unavailable from any other source In pecking order there are more deaths recorded marriages are next and least records are births This series should help a lot of people find unexpected records
