**Boom, Bust, Boom** Bill Carter, 2021-08-31 For most of recorded history copper has proven invaluable not only did the ancient Romans build their empire on mining copper but Christopher Columbus protected his ships from rot by lining their hulls with it Today this pliable and sturdy metal can be found in every house car airplane cell phone computer and home appliance across the globe Yet the history of copper extraction and our present relationship with the metal are fraught with profound difficulties Copper mining causes irrevocable damage to the Earth and the mines themselves have significant effects on the economies and wellbeing of the communities where they are located Starting in his own backyard in the old mining town of Bisbee Arizona where he discovers that the dirt in his garden contains double the acceptable level of arsenic Bill Carter follows the story of copper to the controversial Grasberg copper mine in Indonesia to the ring at the London Metal Exchange where a select group of traders buy and sell enormous amounts of the metal and to an Alaskan salmon run threatened by mining Page by page Carter blends the personal and the international in a narrative that helps us understand the paradoxical relationship we have with copper and the result is a work of first rate journalism that fascinates on every level

Working the Waterfront Gilbert Mers, 2010-07-05 An eighty year old looks back on his life as a Texas longshoreman and radical labor activist in this colorful and absorbing memoir The Southwestern Historical Quarterly

Somebody said History is written by the winners The losers have nothing to say This book is by one of the losers a bit player not the star of the drama So begins Gilbert Mers in these personal recollections of forty two years on the Texas waterfront as a longshoreman and radical union activist But far from having nothing to say Mers reveals himself as a thoughtful philosopher of democratic ideals and eloquent agitator for union reform He challenges the conventional wisdom that the leader is more valuable than the led He contends that long tenure in positions of power dulls the union officer s working class instincts Always one to row against the current Mers believes the union exists for the benefit of its members This is primary material of the best kind vivid and evocative and Mers in his eighties at the time of writing the book is an unusually vigorous and articulate spokesman for a democratic and humane unionism Whether he s describing the sweaty dangerous backbreaking work of loading cotton bales into the hold of an outbound ship or the gut gripping tension of a face to face encounter with Texas Rangers bent on law and order Mers writes with the voice and conscience of the rank and file worker He paints the waterfront world as it was and perhaps still is full of peril humor dignity in demoralizing circumstances frustration struggle and sometimes hope and tells his story with such wry humanity that even those who disagree with his destination will enjoy the ride
