Bisexuality in the Lives of Men Erich W Steinman, Brett Genny Beemyn, 2014-06-03 Explore the theoretical political psychological and cultural issues surrounding male bisexuality Bisexuality in the Lives of Men is the first anthology to focus on men who love both men and women The theoretical scientific and literary essays in this landmark volume dispel the fictions that bisexual men are greedy promiscuous confused deceptive unfaithful HIV positive the dominant images of bisexual men in our culture Whether portrayed as a coward who can't quite come out into full gayness or a smooth talking serial killer the bisexual man has been vilified in books and movies In scholarly studies they are often ignored or else lumped together with gay men It is now widely acknowledged that human sexuality is more complex and diverse than the narrow categories gay and straight But while the use of the term bisexual has become much more common in the last decade an understanding of bisexuality itself lags far behind A lack of research on how bisexuality is experienced interpreted and encoded in literature film and other aspects of popular culture means that stereotypes stigma and confusion are still prevalent Bisexuality in the Lives of Men is a multidisciplinary examination of this neglected topic bringing together expertise reflecting divergent approaches and fields to show the whole bisexual man Topics include a thoughtful review and analysis of the public health research on the role of bisexual men in HIV transmission a study of the marital consequences of a husband's bisexuality including couples who have stayed together an analysis of the heartfelt discussions taking place in an online bi male community an empirical study of the ways that bi negativity differs from homophobia an essay bringing together queer theory and social constructionist ideas to explain why bisexual men are much less visible than bisexual women The rigorously analytical yet accessible essays in this volume offer new information and perspectives about male bisexuality Bisexuality in the Lives of Men is an essential resource for anyone interested in the theoretical political and cultural issues of male bisexuality *Bisexuality: A Critical Reader* Merl Storr, 2013-04-03 Bisexuality A Critical Reader presents the essential primary texts on bisexuality from the last 100 years in an easy to read format Exploring this often controversial concept from a range of perspectives this book places bisexuality in its historical and cultural context and explores its many meanings and uses Merl Storr's introductions give a straightforward overview of the texts included and sets them clearly in the context of debates on bisexuality This collection includes pieces by Henry Havelock Ellis Sigmund Freud Alfred C Kinsey Wardell B Pomeroy and Clyde E Martin and H l n Cixous Childhood and Sexuality Allison Moore, Paul Reynolds, 2017-10-25 This book explores how children engage with sex and sexuality Building on a conceptual

and legal grounding in sexuality studies and the new sociology of childhood the authors debate the age of consent teenage pregnancy sexual diversity sexualisation sex education and sexual literacy paedophilia and sex in the digital age Whilst Moore and Reynolds recognise the necessity of child protection and safeguarding in the context of risk danger and harm they also argue that where these stifle children's sexual knowledge understanding expression and experience they contribute to a climate of fear ignorance and bad experiences or harms What is necessary is to balance safeguarding with enabling and encourage judicious understandings that advance from a rigid developmental model to one that recognises pleasure and excitement in children's nascent sexual lives Exploring that balance through their chosen issues they seek to encourage changed thinking in professional personal and academic contexts and speculate that children might teach adults something about the way they think about sex Childhood and Sexuality will be of interest to students scholars and professionals across a range of subjects and disciplines including sociology social work criminology and youth studies

Massad,2008-09-15 Sexual desire has long played

a key role in Western judgments about the value of Arab civilization In the past Westerners viewed the Arab world as licentious and Western intolerance of sex led them to brand Arabs as decadent but as Western society became more sexually open the supposedly prudish Arabs soon became viewed as backward Rather than focusing exclusively on how these views developed in the West in Desiring Arabs Joseph A Massad reveals the history of how Arabs represented their own sexual desires To this aim he assembles a massive and diverse compendium of Arabic writing from the nineteenth century to the present in order to chart the changes in Arab sexual attitudes and their links to Arab notions of cultural heritage and civilization A work of impressive scope and erudition Massad's chronicle of both the history and modern permutations of the debate over representations of sexual desires and practices in the Arab world is a crucial addition to our understanding of a frequently oversimplified and vilified culture A pioneering work on a very timely yet frustratingly neglected topic I know of no other study that can even begin to compare with the detail and scope of this work Khaled El Rouayheb Middle East Report In Desiring Arabs Edward Said's disciple Joseph A Massad corroborates his mentor's thesis that orientalist writing was racist and dehumanizing Massad brilliantly goes on to trace the legacy of this racist internalized orientalist discourse up to the

present Financial Times *Alien Constructions* Patricia Melzer, 2010-01-01 An incisive critical work that looks at Octavia Butler's writing the movies of the Matrix and Alien series and more through a feminist lens. Feminist thinkers and writers are increasingly recognizing science fiction's potential to shatter patriarchal and heterosexual norms while the creators of science fiction are bringing new depth and complexity to the genre by engaging with feminist theories and politics. This book maps the intersection of feminism and science fiction through close readings of science fiction literature by Octavia E. Butler, Richard Calder, and Melissa Scott and the movies The Matrix and the Alien series. Patricia Melzer analyzes how these authors and films represent debates and concepts in three areas of feminist thought: identity and difference, feminist critiques of science and technology, and the relationship among gender, identity, body, and desire, including the new gender politics of queer desires, transgender, and intersexed bodies and identities. She demonstrates that key political elements shape these debates, including global capitalism and exploitative class relations within a growing international system, the impact of computer, industrial, and medical technologies on women's lives and reproductive rights, and posthuman embodiment as expressed through biotechnologies, the body-machine interface, and the commodification of desire. Melzer's investigation makes it clear that feminist writings and readings of science fiction are part of a feminist critique of existing power relations and that the alien constructions—cyborgs, clones, androids, aliens, and hybrids that populate postmodern science fiction—are as potentially empowering as they are threatening.
