Bismarck The Hohenzollern Candidate Fo

David A. Welch

Bismarck The Hohenzollern Candidate Fo:

Bismarck, the Hohenzollern Candidacy, and the Origins of the Franco-German War of 1870 Lawrence D.

Steeffel,2018-12-01 It is known that the plan to elect a Prussian prince to the Spanish throne was the proximate and Bismarck's Ems telegram an immediate cause of the war of 1870 But much has remained obscure about the roles of the principal figures Lawrence Steefel fills in the lacunae with secret German documents available only after World War II including the correspondence between Bismarck and Marshal Prim of Spain It becomes clear that Bismarck did not initiate the Hohenzollern candidacy and that one of his most important reasons for adopting it was his fear of an anti Prussian coalition of Catholic powers

Bismarck, the Hohenzollern Candidacy, and the Origins of the Franco-German War Of 1870

Lawrence Dinkelspiel Steefel,2011-05 **German Diplomatic Relations 1871-1945** William Young,2006 Examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 *The Franco-Prussian War* Geoffrey Wawro,2003-08-25 Wawro describes the Franco Prussian War 1870 1 that violently changed the course of European history

A Duel of Giants David Wetzel,2003 Combining impeccable scholarship and literary elegance David Wetzel depicts the drama of machinations and passions that exploded in a war that forever changed the face of European history **Justice and the Genesis of War** David A. Welch,1995-08-10 Studies of the causes of wars generally presuppose a realist account of motivation when statesmen choose to wage war they do so for purposes of self preservation or self aggrandizement In this book however David Welch argues that humans are motivated by normative concerns the pursuit of which may result in behaviour inconsistent with self interest He examines the effect of one particular type of normative motivation the justice motive in the outbreak of five Great Power wars the Crimean war the Franco Prussian war World War I World War II and the Falklands war Realist theory would suggest that these wars would be among the least likely to be influenced by considerations other than power and interest but the author demonstrates that the justice motive played an important role in the genesis of war and that its neglect by theorists of international politics is a major oversight

Bismarck Jonathan Steinberg,2011-02-17 This is the life story of one of the most interesting human beings who ever lived A political genius who remade Europe and united Germany between 1862 and 1890 by the sheer power of his great personality It takes the reader into close proximity with a human being of almost superhuman abilities We see him through the eyes of his secretaries his old friends his neighbours his enemies and the press Otto von Bismarck made Germany but never ruled it For twenty eight years he acted as a prime minister without a party He made speeches brilliant in content but hesitant in delivery and rarely addressed a public meeting He planned three wars and after a certain stage in his career always wore military uniform to which he had no claim The Iron Chancellor the image of Prussian militarism suffered from hypochondria and hysteria Contemporaries called him a dictator and several observers credited him with demonic powers

They were not wrong The sheer power of his remarkable sovereign self awed even his enemies William I observed that it was hard to be emperor under a man like Bismarck He towered physically and intellectually over his contemporaries His spoken and written prose sparkled with wit insight grand visions and petty malice He united Germany and transformed Europe like Napoleon before and Hitler after him but with neither their control of the state nor command of great armies He was and remained a royal servant This new biography explores the greatness and limits of a huge and ultimately destructive self It uses the diaries and letters of his contemporaries to explore the most remarkable figure of the nineteenth century a man who never said a dull thing or wrote a slack sentence A political genius who combined creative and destructive traits generosity and pettiness tolerance and ferocious enmity courtesy and rudeness in short not only the most important nineteenth century statesman but by far the most entertaining The Mission of Vincent Benedetti to Berlin 1864-1870 Willard Allen Fletcher, 2012-12-06 The historical significance of the period 1864-1870 epitomized by the establishment of Prussian hegemony in Germany has been perpetuated in numerous studies The diplomatic history of these decisive years has proven especially fascinating for the fundamental changes in Germany's political frame had a momentous influence upon the course of European history The war of 1866 destroyed the last vestiges of Austrian supremacy in Germany and inaugurated a reorganization under Prussian domination The international repercussions of this transformation in the heart of Europe are fully reflected in the diplomacy of the period in view of the disruptive effect upon the existing power equilibrium The manner in which Napoleon III and his government reacted to the events was of crucial portent for the future of his empire An inquiry into Ambassador Benedetti's mission to Berlin contributes materially to an understanding of imperial diplomacy primarily as related to Prussia in this critical period The present study was suggested by Dr Lynn M Case and began to take shape in his seminars on European diplomatic history Benedetti's constant association with French diplomacy between 1864 and 1870 seemed to warrant a detailed and critical examination of his mission Despite the advent of the telegraph diplomatic representatives continued to form an important part of the diplomatic apparatus and Benedetti was no exception Past studies based exclusively on his career are very few Frensdorff's Preussische Jahrbucher article appeared shortly after the outbreak of the war in 1870 **History** Michael Scaife, 2004 These New editions of the successful highly illustrated study revision guides have been fully updated to meet the latest specification changes Written by experienced examiners they contain in depth coverage of the key information plus hints tips and guidance about how to achieve top grades in the A2 exams Bismarck, the Hohenzollern Candidacy, and the Origins of the Franco-Prussian War of 1870 Lawrence D. Steefel, 1962 **Crisis Diplomacy** James L. Richardson, 1994-09-29 Although much has been written on international crises the literature suffers from a lack of historical depth and a proliferation of competing theoretical frameworks Through case studies drawing on the rich historical experience of crisis diplomacy James Richardson offers an integrated analysis based on a critical assessment of the main theoretical approaches Due weight is given to systemic and structural factors but also to the

specific historical factors of each case and to theories which do not presuppose rationality as well as those which do. Crisis diplomacy: the major political choices made by decision makers and their strategies, judgments and misjudgments are found to play a crucial role in each of the case studies. This broad historical inquiry is especially timely when the ending of the Cold War has removed the settled parameters within which the superpowers conducted their crisis diplomacy.

A Diplomatic History of Europe Since the Congress of Vienna René Albrecht-Carrié, 2025-02-01. Originally published in 1958, this classic text is a comprehensive account of European relations from 1815 to the middle of the 20th Century, written in the light of World War II and the troubled period that followed it. An acclaimed historian, the author writes with the verve of a good political commentator. 70% of the book is devoted to the twentieth century, and the focus of the book is on diplomatic history, while an introduction to each section provides the larger background of factors and forces in which diplomacy operates. Readable and accurate, with an emphasis on analysis and explanation, the book remains an excellent resource for students of history and international relations.

Bismarck's "Reflections and Reminiscences" Horst Ernst Arminius Kohl, 1899.

The Rise of Empires: 1870-1919 Charles Downer Hazen, 2019-06-03. The fifty years that have elapsed since the Franco-Prussian War possess a unity that is quite exceptional among the so-called periods of history. They constitute a period of German ascendancy in Europe, an ascendancy acquired by force, maintained by force, and dedicated to the perpetuation and the extension of the rule of force, that is to the great principle that might makes right. Within that era are included the rise and the fall of the German Empire, whose history was summarized in a lapidary phrase pronounced by President Poincaré at the opening of the Conference of Paris: "It was born in injustice, it has ended in opprobrium."

The Catholics and German Unity, 1866-1871 George G. Windell, 1954-01-01. The Catholics and German Unity was first published in 1954. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. The period of German history between the overthrow of the old German Confederation in 1866 and the establishment of the Second Reich in 1871 was critical and far-reaching in its influence upon subsequent events in Germany and in Europe. It is therefore a period that still merits close scrutiny and analysis in all its aspects by historians. In this detailed study, Professor Windell traces the development of political movements among German Catholics during those years and explores the relationship of the various streams of Catholic political action to the larger questions of German history. The War of 1866, which ended Austrian predominance in Germany, was a shattering blow to German Catholics. During the next five years they gradually adjusted to the new situations and were responsible for a series of political movements which exerted a powerful and generally underestimated effect on state governments, on other political parties, and on the domestic and foreign policy of Bismarck. Although a substantial amount of material was available on Catholic political activity in the individual German states, it had not until now been synthesized into a comprehensive single work placing these events in proper perspective against the broader canvas of

history Of this book Hans Rothfels professor of history at the University of Chicago and the University of Tübingen Germany says Without being partial to any side in fact with considerable circumspection the author analyzes and interprets a great nineteenth century dilemma to which the foundation of the German Reich adds only a specific issue

Gale Researcher Guide for: The Wars of German Unification Wes Borucki,2018-09-28 Gale Researcher Guide for The Wars of German Unification is selected from Gale s academic platform Gale Researcher These study guides provide peer reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research

Bismarck and His Times George O. Kent,1978 A new account of the life and policies of the first German chancellor Otto von Bismarck this concise historical biography reflects for the first time in English the historical shift in emphasis from the traditional political economic approach to the more complex social economic one of post World War II scholarship Since the middle of the 1950s much new material on Bismarck and nineteenth century Germany and new interpretations of existing material have been published in Germany Great Britain and the United States Professor George O Kent s brilliant synthesis drawing on this mass of material examines changes in emphasis in post World War II scholarship The book particularly in the historiographical notes and bibliographical essay provides the serious student with an invaluable guide to the intricacies of recent Bismarckian scholarship For the general reader the main text presents a picture of the man the issues and the age in the light of modern scholarship The major shift in historical emphasis described in this new account is the importance scholars give to the period 1877-79 the years of change from free trade to protectionism rather than to 1870-71 the founding of the Reich Bismarck s political machinations particularly his willingness to explore the possibilities of a coup d'état are more fully discussed here than in any other book

Social Network Analysis and Text Mining for Big Data Andrea Fronzetti Colladon,Roberto Vestrelli,2025-06-20 Social Network Analysis and Text Mining for Big Data presents cutting edge methods and tools that bridge the gap between text mining and social network analysis research while also providing new insights for analyzing big textual and network data These tools are designed to cater to the needs of both business analysts and researchers to facilitate the creation of groundbreaking analytics Beginning with clear definitions of social network analysis and text mining this book benefits from a thoughtfully curated selection of methods and tools drawn from the authors extensive research in the field The focus then shifts to demonstrate how the interplay between words and networks can unlock the full potential of big data analytics A centerpiece of the book is the Semantic Brand Score SBS a versatile and powerful metric for assessing brand importance through text analysis All of the above is corroborated and illustrated with practical applications and case studies showing the value of these analytics in supporting change and improved managerial decisions It also introduces a specialized software tool which enables users to perform the analyses detailed in the text This book is a must read for business leaders marketing professionals policymakers researchers and university students It offers practical insights and actionable advice for achieving increased performance of companies and

societal actions The writing is tailored to make complex concepts accessible to both experienced researchers and readers who are new to the field The American Annual Cyclopedia and Register of Important Events of the Year ... ,1871
