Ariail, 2020-11-30 After World War II the United States used

international sport to promote democratic values and its image of an ideal citizen. But African American women excelling in track and field upset such notions. Cat M Ariail examines how athletes such as Alice Coachman, Mae Faggs, and Wilma Rudolph forced American sport cultures both white and Black to reckon with the athleticism of African American women. Marginalized still further in a low profile sport, young Black women nonetheless bypassed barriers to represent their country. Their athletic success soon threatened postwar America's dominant ideas about race, gender, sexuality, and national identity. As Ariail shows, the wider culture defused these radical challenges by locking the athletes within roles that stressed conservative forms of femininity, blackness, and citizenship. A rare exploration of African American women athletes and national identity, *Passing the Baton* reveals young Black women as active agents in the remaking of what it means to be American.

A Spectacular Leap Jennifer H. Lansbury, 2014-04-01 When high jumper Alice Coachman won the high jump title at the 1941 national championships with a spectacular leap, African American women had been participating in competitive sport for close to twenty-five years. Yet it would be another twenty years before they would experience something akin to the national fame and recognition that African American men had known since the 1930s, the days of Joe Louis and Jesse Owens. From the 1920s, when black women athletes were confined to competing within the black community through the heady days of the late twentieth century when they ruled the world of women's track and field, African American women found sport opened the door to a better life. However, they also discovered that success meant challenging perceptions that many Americans, both black and white, held of them. Through the stories of six athletes—Coachman, Ora Washington, Althea Gibson, Wilma Rudolph, Wyomia Tyus, and Jackie Joyner Kersee—Jennifer H. Lansbury deftly follows the emergence of black women athletes from the African American community, their confrontations with contemporary attitudes of race, class, and gender, and their encounters with the civil rights movement. Uncovering the various strategies the athletes use to beat back stereotypes, Lansbury explores the fullness of African American women's relationship with sport in the twentieth century.

Sport and the Color Line Patrick B. Miller, David K. Wiggins, 2004-06-01 The year 2003 marks the one hundredth anniversary of W. E. B. Du Bois' *Souls of Black Folk*, in which he declared that the color line would be the problem of the twentieth century. Half a century later, Jackie Robinson would display his remarkable athletic skills in baseball's great experiment. Now *Sport and the Color Line* takes a look at the last century through the lens of sports and race, drawing together articles by many of the leading figures in Sport Studies to address the African American experience and the history of race relations. The history of African Americans in sport is not simple, and it certainly did not begin in 1947 when Jackie Robinson first donned a Brooklyn Dodgers uniform. The essays presented here examine the complexity of black American sports culture from the organization of semi-pro baseball and athletic programs at historically black colleges and universities to the careers of individual stars such as Jack Johnson and Joe Louis, to the challenges faced by black women in sports. What are today's black athletes doing in the aftermath of desegregation, or with the legacy of Muhammad Ali's political stance? The

essays gathered here engage such issues as well as the paradoxes of corporate sport and the persistence of scientific racism in the athletic realm *Black Women in America* ,1999 A unique reference featuring 176 profiles of extraordinary American women of African heritage from colonial times to the present **Game Face** Jane Gottesman,2013-11-20 On playing fields and street corners in backyards and gyms the people in this arresting array of pictures are unselfconsciously exploring the physical and emotional pleasures of competition and play Each image offers an affirming and satisfying answer to the question at the heart of Game Face What do girls and women look like when freed from traditional feminine constraints using their bodies in joyful and empowering ways To show America what women s sports looks like Jane Gottesman searched through the work of our country s best photographers from the newest photojournalists to artists such as Annie Leibovitz and Ansel Adams The result is a unique and inspiring document of the tremendous impact that the growth of female sports at all levels is having on society and on women themselves Female Olympians Linda K. Fuller,2016-12-07 This book examines women s participation in the Olympic Games since they were allowed to be included in that global arena Using a holistic social scientific approach and emphasizing the rhetoric of sport mediatization Female Olympians reviews the literature relative to sexism racism and ageism before providing historical political economic and socio cultural perspectives such as the gendered language of Olympic reportage religious considerations women s bodies relative to their training for the Games drugs and doping and female Paralympians With numerous critical case studies never before assembled data and personal interviews with athletes this volume offers insights that both investigate and celebrate female Olympians successes
