Black And Catholic In Savannah Georgia:

Black and Catholic in Savannah, Georgia Gary W. McDonogh, 1993 In this unique ethnography of urban southern Catholicism one of the few substantial studies of modern African American Catholics since the 1920s Gary W McDonogh employs a decade of anthropological and historical research to explore the contradictions and survival of black and Catholic parishes in Savannah Given the disfranchisement of African Americans in the South as well as nativist responses to Catholics among both blacks and whites those who are black and Catholic in Savannah constitute a double minority whose lives McDonogh explores by examining the interaction of community church and individual A city divided for two centuries by conflicts over culture class and race Savannah is permeated by ambiguous identities that often end up before the altar Religion thus serves as a cultural language through which urban life can be observed as well as a system of belief and identity shared by blacks and Catholics This multidisciplinary study links ethnography to wider debates on symbolism gender class and cultural power The vivid voices memories ritual and social acts and observations of Savannah provide the basis for comparative insights and theoretical generalizations on communities within the United States and on a broad range of urban and religious issues Encyclopedia of Religion in the South Samuel S. Hill, Charles H. Lippy, Charles Reagan Wilson, 2005 The publication of the Encyclopedia of Religion in the South in 1984 signaled the rise in the scholarly interest in the study of Religion in the South Religion has always been part of the cultural heritage of that region but scholarly investigation had been sporadic Since the original publication of the ERS however the South has changed significantly in that Christianity is no longer the primary religion observed Other religions like Judaism Buddhism and Hinduism have begun to have very important voices in Southern life This one volume reference the only one of its kind takes this expansion into consideration by updating older relevant articles and by adding new ones After more than 20 years the only reference book in the field of the Religion in the South has been totally revised and updated Each article has been updated and bibliography has been expanded The ERS has also been expanded to include more than sixty new articles on Religion in the South New articles have been added on such topics as Elvis Presley Appalachian Music Buddhism Bill Clinton Jerry Falwell Fannie Lou Hamer Zora Neale Hurston Stonewall Jackson Popular Religion Pat Robertson the PTL Sports and Religion in the South theme parks and much more This is an indispensable resource for anyone interested in the South religion or cultural history *Growing Up African American in Catholic Schools* Jacqueline Jordan Irvine, Michèle Foster, 1996-01-01 This volume explores the experiences of African Americans in Catholic schools through historical and sociological analysis as well as personal memoirs and reflections of former students It challenges the theory that they are marginalised existing in constant opposition to the dominant culture **The Harvard Guide to African-American History** Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America

A Mission for Justice Mary A. Ward,2002 Founded in 1930 as the result of efforts by several black Catholic laywomen Queen of Angels was the first African American Catholic congregation in Newark New Jersey The church quickly embarked on an outreach campaign that endured for decades and affected the entire Newark community black and white Catholic and Protestant By the 1960 s many people looked to Queen of Angels as a model of social and civil rights activism In A Mission for Justice Mary Ward places Queen of Angles within its broader historical religious and social context and explores the church s struggle for justice within the Catholic Church and in society as a whole The reach of Queen of Angels extended far beyond its own membership For example while riots erupted in other cities across the country after the murder of Martin Luther King Jr Queen of Angels played an instrumental role in organizing the Walk for Understanding a peaceful march of twenty five thousand blacks and whites through the heart of the inner city That event and the ethos that inspired it gave birth to the New Community Corporation the largest nonprofit housing corporation in the country led by former Queen of Angels priest William Linder Today Queen of Angels is one of several African American Catholic parishes in Newark and its mission is now more pastoral than activist But the church continues as a home to various community based programs working to improve the lives of Newark s residents Based on nine years of research A Mission for Justice draws on oral histories of parishioners pastors nuns and layworkers at Queen of Angels as well as on documents from various private collections Ward s study will be valuable reading for those interested in African American and church history as well as the history of social activism and the Civil Rights Movement The Author Mary A Ward is an adjunct professor of religion at Fordham University

The Cana Sanctuary Frank Marotti,2012-04-05 Uses the collective testimony from more than two hundred Patriot War claims previously believed to have been destroyed to offer insight into the lesser known Patriot War of 1812 and to constitute an intellectual history of everyday people caught in the path of an expanding American empire In the late seventeenth century a

group of about a dozen escaped African slaves from the English colony of Carolina reached the Spanish settlement of St Augustine In a diplomatic bid for sanctuary to avoid extradition and punishment they requested the sacrament of Catholic baptism from the Spanish Catholic Church Their negotiations brought about their baptism and with it their liberation The Cana Sanctuary focuses on what author Frank Marotti terms folk diplomacy political actions conducted by marginalized non state sectors of society in this instance by formerly enslaved African Americans in antebellum East Florida The book explores the unexpected transformations that occurred in seventeenth and eighteenth century St Augustine as more and more ex slaves arrived to find their previously disregarded civil rights upheld under sacred codes by an international nongovernmental authoritative organization With the Catholic Church acting as an equalizing empowering force for escaped African slaves the Spanish religious sanctuary policy became part of popular historical consciousness in East Florida As such it allowed for continual confrontations between the law of the Church and the law of the South Tensions like these survived ultimately lending themselves to an Afro Catholicism sentiment that offered support for antislavery arguments

Lines in the Sand Timothy James Lockley, 2004-03 Lines in the Sand is Timothy Lockley's nuanced look at the interaction between nonslaveholding whites and African Americans in lowcountry Georgia from the introduction of slavery in the state to the beginning of the Civil War The study focuses on poor whites living in a society where they were dominated politically and economically by a planter elite and outnumbered by slaves Lockley argues that the division between nonslaveholding whites and African Americans was not fixed or insurmountable Pulling evidence from travel accounts slave narratives newspapers and court documents he reveals that these groups formed myriad kinds of relationships sometimes out of mutual affection sometimes for mutual advantage but always in spite of the disapproving authority of the planter class Lockley has synthesized an impressive amount of material to create a rich social history that illuminates the lives of both blacks and whites His abundant detail and clear narrative style make this first book length examination of a complicated and overlooked topic both fascinating and accessible

Faith in Education at the Skidaway Island Benedictine Mission Laura Seifert, 2024-10-15 Having survived the turmoil of Reconstruction several hundred African American tenant farmers were settled on Skidaway Island Georgia and led a fairly quiet existence In 1877 Benedictine monks intruded into this relatively safe if desperately poor haven and built a Catholic mission and boys boarding school For the next two decades the Benedictines and locals negotiated for influence over the islanders religious convictions and education Faith in Education at the Skidaway Island Benedictine Mission brings together the recovered archaeological data and extensive Benedictine archives to reconstruct the intersecting lives of monks students lay brothers and African American neighbors on Skidaway Island Unlike a purely historical treatment this book amplifies the documentary evidence with archaeological findings including glass from arched church windows writing slate and slate pencil fragments a kerosene lamp and harmonica fragments The narrative balances the chronological story of the Skidaway Island mission with the larger history of African

American education in Savannah and Chatham County from 1865 to the mission s closure circa 1900 Ultimately Laura Seifert s analysis shows how the roots of our educational system resulted in inequities today particularly because racism is a prominent thread that connects past and present problems Crossing Parish Boundaries Timothy B. Bennett,2016-06-28 Religion and the Rise of Jim Crow in New Orleans examines a difficult chapter in American religious history the story of race prejudice in American Christianity Focusing on the largest city in the late nineteenth

century South it explores the relationship between churches black and white Protestant and Catholic and the emergence of the Jim Crow laws statutes that created a racial caste system in the American South The book fills a gap in the scholarship on religion and race in the crucial decades between the end of Reconstruction and the eve of the Civil Rights movement Drawing on a range of local and personal accounts from the post Reconstruction period newspapers and church records Bennett s analysis challenges the assumption that churches fell into fixed patterns of segregation without a fight In sacred no less than secular spheres establishing Jim Crow constituted a long slow and complicated journey that extended well into the twentieth century Churches remained a source of hope and a means of resistance against segregation rather than a retreat from racial oppression Especially in the decade after Reconstruction churches offered the possibility of creating a common identity that privileged religious over racial status a pattern that black church members hoped would transfer to a national American identity transcending racial differences Religion thus becomes a lens to reconsider patterns for racial interaction throughout Southern society By tracing the contours of that hopeful yet ultimately tragic journey this book reveals the complex and mutually influential relationship between church and society in the American South placing churches at the center of the nation s racial struggles

Desegregating Dixie Mark Newman, 2018-10-04 Winner of the 2020 American Studies Network Book Prize from the European Association for American Studies Mark Newman draws on a vast range of archives and many interviews to uncover for the first time the complex response of African American and white Catholics across the South to desegregation In the late nineteenth and first half of the twentieth century the southern Catholic Church contributed to segregation by confining African Americans to the back of white churches and to black only schools and churches However in the twentieth century papal adoption and dissemination of the doctrine of the Mystical Body of Christ pressure from some black and white Catholics and secular change brought by the civil rights movement increasingly led the Church to address racial discrimination both inside and outside its walls Far from monolithic white Catholics in the South split between a moderate segregationist majority and minorities of hard line segregationists and progressive racial egalitarians While some bishops felt no discomfort with segregation prelates appointed from the late 1940s onward tended to be more supportive of religious and secular change Some bishops in the peripheral South began desegregation before or in anticipation of secular change while elsewhere especially in the Deep South they often tied changes in the Catholic churches to secular desegregation African American Catholics were diverse and more active in the civil rights movement than has often been assumed While some black Catholics challenged racism in the Church many were conflicted about the manner of Catholic desegregation generally imposed by closing valued black institutions Tracing its impact through the early 1990s Newman reveals how desegregation shook congregations but seldom brought about genuine integration

Christianity and Race in the American South Paul Harvey, 2016-11-21 This in depth study examines the social structures and religious beliefs that helped shape Southern history from colonization to the twenty first century The history of race and religion in the

American South is infused with tragedy survival resistance and even transcendence In Christianity and Race in the American South Paul Harvey provides an enlightening narrative history that fundamentally transforms our understanding of American Christianity and religious identity Harvey examines the intertwined histories of race and religion in the South dating back to the first days of European settlement He reveals a complex story rife with strange alliances unlikely parallels and far too many tragedies He shows how the role of Southern churches were critically shaped by the conflicts over slavery and race that defined southern life more broadly Harvey s book offers essential insight into today s volatile brew of race violence religion and southern identity

The New Encyclopedia of Southern Culture Samuel S. Hill, Charles Reagan Wilson, 2006-12-13 Evangelical Protestant groups have dominated religious life in the South since the early nineteenth century Even as the conservative Protestantism typically associated with the South has risen in social and political prominence throughout the United States in recent decades however religious culture in the South itself has grown increasingly diverse The region has seen a surge of immigration from other parts of the United States as well as from Latin America Asia and the Middle East bringing increased visibility to Catholicism Islam and Asian religions in the once solidly Protestant Christian South In this volume of The New Encyclopedia of Southern Culture contributors have revised entries from the original Encyclopedia on topics ranging from religious broadcasting to snake handling and added new entries on such topics as Asian religions Latino religion New Age religion Islam Native American religion and social activism With the contributions of more than 60 authorities in the field including Paul Harvey Loyal Jones Wayne Flynt and Samuel F Weber this volume is an accessibly written up to date reference to religious culture in the American South

History and Memory in African-American Culture Genevieve Fabre, Robert O'Meally, 1994-12-08 As Nathan Huggins

once stated altering American history to account fully for the nation's black voices would change the tone and meaning the frame and the substance of the entire story Rather than a sort of Pilgrim's Progress tale of bold ascent and triumph American history with the black parts told in full would be transmuted into an existential tragedy closer Huggins said to Sartre's No Exit than to the vision of life in Bunyan The relation between memory and history has received increasing attention both from historians and from literary critics In this volume a group of leading scholars has come together to examine the role of historical consciousness and imagination in African American culture The result is a complex picture of the dynamic ways in which African American historical identity constantly invents and transmits itself in literature art oral documents and performances Each of the scholars represented has chosen a different site of memory from a variety of historical and geographical points and from different ideological theoretical and artistic perspectives Yet the book is unified by a common concern with the construction of an emerging African American cultural memory The renowned group of contributors including Hazel Carby Werner Sollors V. V. Clark Catherine Clinton and Nellie McKay among others consists of participants of the five year series of conferences at the DuBois Institute at Harvard University from which this collection originated Conducted under the leadership of Genevieve Fabre Melvin Dixon and the late Nathan Huggins the conferences and as a result this book represents something of a cultural moment themselves and scholars and students of American and African American literature and history will be richer as a result South Carolina Historical Magazine, 2007 **Subversive**

Habits Shannen Dee Williams, 2022-03-21 In *Subversive Habits* Shannen Dee Williams provides the first full history of Black Catholic nuns in the United States hailing them as the forgotten prophets of Catholicism and democracy Drawing on oral histories and previously sealed Church records Williams demonstrates how master narratives of women's religious life and Catholic commitments to racial and gender justice fundamentally change when the lives and experiences of African American nuns are taken seriously For Black Catholic women and girls embracing the celibate religious state constituted a radical act of resistance to white supremacy and the sexual terrorism built into chattel slavery and segregation Williams shows how Black sisters such as Sister Mary Antona Ebo who was the only Black member of the inaugural delegation of Catholic sisters to travel to Selma Alabama and join the Black voting rights marches of 1965 were pioneering religious leaders educators healthcare professionals desegregation foot soldiers Black Power activists and womanist theologians In the process Williams calls attention to Catholic women's religious life as a stronghold of white supremacy and racial segregation and thus an important battleground in the long African American freedom struggle
