Black Cat Raiders Of Ww II:

Black Cat Raiders of WWII Richard C Knott,2012-04-15 Thanks to the PBY s daring pilots and their effective tactics the slow outdated Catalina patrol bombers became the scourge of Japanese shipping in the South Pacific during World War II Painted black and hunting at night the Black Cats as they were called are credited with sinking or disabling hundreds of thousands of tons of cargo vessels troop transports and warships Curiously their exploits were known to few outside the naval aviation community until the publication of this book in 1981 This testimonial to their magnificent performance is told by an experienced flying boat pilot who has pieced together the fascinating story from reminiscences of the men who flew the long arduous missions and from official navy records It is an inspiring tale of fearless men in machines ill designed for combat who wreaked havoc on a dangerous and merciless adversary Illustrated with more than sixty photographs and detailed line drawings it is a book to be savored by those who like their adventure stories to ring true *Black Cat Raiders of World War II* Richard C. Knott,1984-05-01

Leave No Man Behind George Galdorisi,Thomas Phillips,2009-01-16 Beginning with the birth of combat aircraft in World War I and the early attempts to rescue warriors trapped behind enemy lines *Leave No Man Behind* chronicles in depth nearly one hundred years of combat search and rescue CSAR All major U S combat operations from World War II to the early years of the Iraq War are covered including previously classified missions and several Medal of Honor winning operations Authors George Galdorisi and Tom Phillips both veteran U S Navy helicopter pilots highlight individual acts of heroism while telling the big picture story of the creation and development of modern CSAR Although individual missions have their successes and failures CSAR as an institution would seem beyond reproach an obvious necessity The organizational history of CSAR however is not entirely positive The armed services particularly the U S Air Force and Navy have a tendency to cut CSAR at the end of a conflict leaving no infrastructure prepared for the next time that the brave men and women of our armed forces find themselves behind enemy lines The final chapter has not yet been written for U S combat search and rescue but in view of the life saving potential of these forces an open and forthright review of U S military CSAR plans and policies is long overdue Beyond the exciting stories of heroic victories and heartrending defeats *Leave No Man Behind* stimulates debate on this important subject *Air University Review* ,1982

Naval Aviation News ,1985 [VPNavy! USN, USMC, USCG and NATS Patrol Aircraft Lost or Damaged During World War II Ð Listed by Bureau Number](#) Douglas E. Campbell,2018-06-19 Thousands of hours of research have culminated in this First Edition of U S Navy U S Marine Corps U S Coast Guard and Naval Air Transport Service patrol aircraft lost or damaged during World War II Within these pages can be found more than 2 200 patrol aircraft in Bureau Number BuNo sequence the majority of the aircraft complete with their stories of how they were lost or damaged or simply Struck Off Charge SOC and removed from the Navy s inventory Of interest to the reader may be the alphabetical Index to the 7 600 names of Officers aircrewmen and others mentioned in the book **Check Six!** Jim Curran,Terrence Popravak,2015-07-19 Makes you proud

to be an American a wonderful fast paced read and I highly recommend it for any World War II aviation enthusiast Military Review There were no mission limits for a pilot in the Pacific during World War II unlike in Europe you flew until it was time to go home So it was for James Jug Curran all the way from New Guinea to the Philippines with the 348th Fighter Group the first P 47 Thunderbolt outfit in the Pacific After the attack on Pearl Harbor Curran volunteered to try flying in the blue yonder and trained as an Army fighter pilot He got his wish to fly the P 47 in the Pacific going into combat in August 1943 in New Guinea and later helping start the Black Rams fighter squadron The heavy US Thunderbolts were at first curious to encounter the nimble battle hardened Japanese in aerial combat but soon the American pilots gained skill of their own and their planes proved superior Bombers on both sides could fall to fighters but the fighters themselves were eyeball to eyeball best man win Check Six is an aviation chronicle that brings the reader into flight then into the fight throughout the Pacific War and back This work from someone who was there captures the combat experience of our aviators in the Pacific aided by pertinent excerpts from the official histories of units that Jug Curran flew with Jim Curran is not afraid to share his moments of fear and emotions during the air battles with his readers which gives the book an extra dimension AviationBookReviews.com [Billboard](#) ,1985-07-13 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Carrier Clash Eric Hammel,2020-12-06 CARRIER CLASH The Invasion of Guadalcanal praiseworthy Lansing State Journal says For the military buff Guadalcanal Starvation Island is an excellent resource For the casual reader it is a well written account of one of the most crucial times in the history of the United States ALA Booklist says Eric Hammel effectively utilizes the accounts of the battle participants to provide a vivid dimension to the fighting Library Journal says Hammel does not write dry history His battle sequences are masterfully portrayed Canadian Military History says Hammel s descriptions of engagements on land air and sea are fast paced and engagingly written and he has a knack for weaving together character and circumstance into a very readable story Book World says Guadalcanal Starvation Island is stark naked and brutal It is an excellent toughly drawn account of the awesomeness of war and is worthy many times over of being in any library worthy of the name **Carrier Strike** Eric Hammel,2020-12-21 CARRIER STRIKE The Battle of the Santa Cruz Islands October 1942 By Eric Hammel The Battle of the Santa Cruz Islands a strategic naval action in the bitter Guadalcanal Campaign was history s fourth carrier versus carrier naval battle Though technically a Japanese victory the battle proved to be the Empire of Japan s last serious attempt to win the Pacific War by means of an all out carrier confrontation Only one other carrier battle occurred in the Pacific War in June 1944 in the Philippine Sea By then however the U S Navy s Fast Carrier Task Force was operational and Japan s dwindling fleet of carriers was outnumbered and completely outclassed Though hundreds of Japanese naval aviators perished in the great Marianas Turkey Shoot of June 19 20 1944 it was during the first four carrier

battles in the six month period from early May through late October 1942 that the fate of Japan's small elite naval air arm was sealed. It was at Coral Sea in May that Japan's juggernaut across the Pacific was blunted. It was at Midway in June that Japan's great carrier fleet was cut down to manageable size. And it was at Eastern Solomons in August and Santa Cruz in October that Japan's last best carrier air groups were ground to dust. After their technical victory at Santa Cruz the Japanese withdrew their carriers from the South Pacific and were never able to use them again as a strategically decisive weapon. Of the four Japanese aircraft carriers that participated in the Santa Cruz battle only one survived the war. Following Santa Cruz and the subsequent series of air and surface engagements known as the Naval Battle of Guadalcanal the Imperial Navy's Combined Fleet never again attempted a meaningful strategic showdown with the U.S. Pacific Fleet. Though several subsequent surface actions in the Solomons were clearly Japanese victories their results were short lived. After November 1942 Japan could not again muster the staying power or the willpower to wage a strategic war with her navy. Once the veteran carrier air groups had been shredded at Eastern Solomons and Santa Cruz Japanese carriers ceased to be a strategic weapon. The Santa Cruz clash was deemed a Japanese victory because U.S. naval forces withdrew from the battlefield. That is how victory and defeat are strictly determined. But on the broader strategic level the U.S. Navy won at Santa Cruz because it was able to achieve its strategic goal of holding the line and buying time. Japan was unable to achieve her strategic goal of defeating the U.S. Pacific Fleet in a final decisive all or nothing battle. The technical victory cost Japan any serious hope she had of winning the Pacific naval war. The victory at Santa Cruz cost Japan her last best hope to win the war in the Pacific. Once again author historian Eric Hammel brings to the reading public an exciting narrative filled with the latest information and written in the edge of the seat style that his readers have enjoyed for nearly two decades in nearly thirty acclaimed military history books. As was the case with its companion volume *Carrier Clash* this new book is based upon American and Japanese battle reports and the recollections of many airmen and seamen who took part.

Of Raincrows and Ivy Leaves
 Edgar Brown, Dr. Judith A. Brown, 2016-02-25 *Of Raincrows and Ivy Leaves* by Edgar Brown with Dr. Judith A. Brown. This is a remarkable book. It tells the story of an apparently ordinary American who happens to be born in extraordinary times and who is therefore forced to live an exceptional life. Edgar Brown is a member of that generation which fought both the Great Depression and World War II and prevailed. Thus this story of one man's life becomes the story of the history of our country through some of its most dramatic and significant times in microcosm. But beyond that *Of Raincrows and Ivy Leaves* reveals a very human life in detail that is startling, unsparing and remarkably straightforward. We get to know a person better perhaps than we know even some of those closest to us.

The Marine Corps Gazette, 1984 *100 Years of Marine Corps Aviation*
 Roxanne M. Kaufman, Laurie Schmidt, 2011. Selection of oral histories CD surface *Technical and Military Imperatives*
 L. Brown, 1999-01-01. *Technical and Military Imperatives*. A Radar History of World War II is a coherent account of the history of radar in the second World War. Although many books have been written on the early days of radar and its role

in the war this book is by far the most comprehensive covering ground air and sea operations in all theatres of World War II The author manages to synthesize a vast amount of material in a highly readable informative and enjoyable way Of special interest is extensive new material about the development and use of radar by Germany Japan Russia and Great Britain The story is told without undue technical complexity so that the book is accessible to specialists and nonspecialists alike

Fighting in the Electromagnetic Spectrum Thomas Wildenberg, 2023-08-15 Naval warfare was confined for centuries to surface combat or undersea clashes In the twentieth century aerial warfare became the third domain and shortly thereafter the electromagnetic spectrum also appeared Until now little has been written about this important aspect of military conflict on the high seas In *Fighting in the Electromagnetic Spectrum* author Thomas Wildenberg provides the first book covering these aircraft their missions and the methodology of conducting combat in all its forms along this fourth domain the electromagnetic spectrum When navies began to make use of the airwaves they soon discovered those waves could also be exploited as a source of information about the opposing force This would later be termed Electronic Intelligence ELINT Navies learned the value of interrupting or corrupting the enemy's communication signals that were transmitted in the ether thus began a method of fighting termed Electronic Warfare EW Wildenberg cuts through the secrecy about this understandably mysterious domain of combat He offers details on aircraft and methods and provides a layman's set of definitions of terms Wildenberg shares lessons learned from World War II skirmishes as well as clashes in the Korean and Vietnam wars while providing a *Fighting in the Electromagnetic Spectrum* offers the reader a foundational understanding of this complex form of combat in all its forms This volume discloses rarely covered concepts and methods which will shape future great power future conflict

Early U.S. Navy Carrier Raids, February-April 1942 David Lee Russell, 2019-10-16 After the Japanese attack on Pearl Harbor America's fast carrier task forces with their aircraft squadrons and powerful support warships went on the offensive Under orders from Fleet Admiral Ernest J King the newly appointed Admiral Chester W Nimitz as the Commander in Chief of the

Pacific Fleet took the fight to the Japanese using island raids to slow their advance in the Pacific Beginning in February 1942 a series of task force raids led by the carriers USS Enterprise USS Yorktown USS Lexington and USS Hornet were launched beginning in the Marshall Islands and Gilbert Islands An attempted raid on Rabaul was followed by successful attacks on Wake Island and Marcus Island The Lae Salamaua Raid countered Japanese invasions on New Guinea The most dramatic was the unorthodox Tokyo Doolittle Raid where 16 carrier launched B 25 medium bombers demonstrated that the Japanese mainland was open to U S air attacks The raids had a limited effect on halting the Japanese advance but kept the enemy away from Hawaii the U S West coast and the Panama Canal and kept open lines of communications to Australia

South Pacific Diary, 1942-1943 Mack Morriss, 2021-12-14 A unique chronicle of the war from the perspective of a sensitive twenty four year old sergeant who wrote for the Army s in house paper Yank the Army Weekly and a tale of the South Pacific that will not soon be forgotten Correspondent Mack Morriss reluctantly left his diary in the Honolulu Yank office in July 1943 Here is contained an account of the past eight and one half months he wrote in his last entry a period which I shall never forget The next morning he was on a plane headed back to the South Pacific and the New Georgia battleground Morriss was working out of the press camp at Spa Belgium in January 1945 when he learned that the diary he had kept in the South Pacific had arrived in a plain brown wrapper at the New York office He was so happy to know that this impossible thing had happened he wrote to his wife that he helped two friends murder a quart of scotch What was preserved and appears in print here for the first time is a unique chronicle of the war in the South Pacific from the perspective of a sensitive twenty four year old sergeant This is an intensely personal account reporting the war from the ridge known as the Sea Horse on Guadalcanal from the bars and dance halls of Auckland to a B 17 flying through the moonlit night to bomb Japanese installations on Bougainville Morriss thought deeply and wrote movingly about everything connected with the war the sordiness and heroism the competence and ineptitude of leaders the strange mixture of constant complaint and steady courage of ordinary GIs friendships formed under combat stress and above all what he perceived to be his own indecisiveness and weaknesses Ronnie Day introduces Morriss s diary and illuminates the work with extensive notes based on private papers government documents travel in the Solomon Islands and the recollections of men mentioned in the diary
