Black Representation and Urban Policy Albert K. Karnig, Susan Welch, 1980-12 Recent years have witnessed a dramatic growth in the number of black elected officials Although blacks still constitute barely 1 percent of elected officeholders in the nation their increasing political power cannot be denied In *Black Representation and Urban Policy* Albert K. Karnig and Susan Welch focus on the election of blacks to mayoral and city council seats using the most current data available on more than 250 cities They address two major questions What conditions promote blacks' chances of winning election to public office Does the election of blacks to municipal office have an effect on urban policy In exploring the factors that underlie the election of blacks to public office the authors found that the resources of the black community itself the size as well as the education and income of the black population are the best predictors of blacks winning political office The authors' assessment of the impact of black elected officials on urban policy constitutes perhaps their most profoundly important finding Cities with black mayors have had greater increases in social welfare expenditures than have similar communities without black mayors The authors point out that election of blacks to mayoral posts then can have more than symbolic consequences for public policy

St. Louis Politics Lana Stein, 2002 There are two defining moments in St Louis political history the 1876 divorce of the city from its county and the 1914 charter adoption The institutions created at these times produced a factional and fragmented city government thoroughly grounded in machine politics Stein examines major themes in urban politics over the last century race redevelopment suburbanization and leadership St Louis mayors must deal with the comptroller and the president of the board of aldermen plus twenty eight aldermen elected from wards State law says the city must also have eight county offices offices that perform county functions for the city Power is difficult to amass in this factional and fragmented universe In St Louis politics consensus building and alliances can prove to be more important than election night victory St Louis's political culture stems from the city's fragmented nature Its philosophy is often you go along to get along or go home from the dance with the guy that brung you Individual friendships are of great importance Within this environment class and racial cleavages also affect political decision making Although St Louis elected its first African American official in 1918 genuine political incorporation has been long in coming Several decades ago issues of class and race prevented St Louis from adopting a new charter with more streamlined public offices Today some St Louisans cry out for home rule and governmental reform Stein's work helps to demonstrate that institutions structure political behavior and outcomes Changing institutions can make a difference after political culture adapts to the new playing field

Rogowsky, 2024-09-30 First published in 1991 *Changing New York City Politics* provides an important grounding for understanding where New York City politics is likely to go in the coming two years Three decades after New York City s first Black mayor was elected and then defeated after only one term the city s second Black mayor is facing challenges that in many ways are similar to those of his predecessor yet different in others Like David Dinkins Mayor Eric Adams faces worries about crime and public disorder recovery from an economic downturn and criticism over his managerial style It may be a quite different city today in terms of the makeup of its electorate less white more diverse but certainly no more Black and Adams may have a closer connection to the Police Department than Dinkins could manage but the challenges of constructing a multi racial electoral and governing coalition in the face of skepticism from white voters remains This book will be of interest to students and researchers of political science American history and comparative politics

Racial Politics And Urban Planning Robert A. Catlin,2014-10-17 When Richard G Hatcher became the first black mayor of Gary Indiana in 1967 the response of Gary s white businessmen was to move the entire downtown to the suburbs thereby weakening the city core Meanwhile white business and institutional leaders in Atlanta Detroit and Newark worked with black mayors heading those majority black cities to rebuild their downtowns and neighborhoods Why not Gary Robert A Catlin who served as Mayor Hatcher s planning advisor from 1982 to 1987 here analyzes the racial conflicts that tore Gary apart He

asserts that two types of majority black cities exist Type I including Atlanta Baltimore Detroit and Newark have Fortune 500 corporate headquarters major universities and large medical centers institutions that are placebound and their leaders must work with black mayors Type II cities like Gary lack these resources thus their white leaders feel less compelled to cooperate with black mayors Unfortunately in Gary's case black politicians and white executives fell victim to pettiness and mistrust and as a result Gary and the entire northwest Indiana region suffered Racial Politics and Urban Planning is required reading for citizens interested in urban affairs Leaders in cities such as Albany and Macon Georgia Monroe Louisiana Mount Vernon New York and Pine Bluff Arkansas should also take note Those cities have just become majority black and are in the Type II category Will they learn from Gary or are they doomed to repeat its mistakes *People & Politics in Urban America* Robert W. Kweit, Mary G. Kweit, 2013-10-31 This revised textbook for courses on urban politics challenges the notion that the field is dominated by political economy showing that despite the undeniable importance of economic issues citizens do play a significant part in urban politics *African American Perspectives on Political Science* Wilbur C.
