Strayhorn, Michael Steven Williams, Royel M. Johnson, 2024-03-01 *Creating New Possibilities for the Future of HBCUs* brings together over 20 higher education scholars with more than 150 years of combined professional experience to critically examine the current contributions of and future directions for our nation s 101 historically Black colleges and universities HBCUs The book breaks new ground on Black colleges and offers hope and optimism for charting their future despite shrinking investments in higher education declining enrollments and eroding public confidence in the value of a college degree The book was written to tell the truth to right or re write past wrongs about HBCUs and to shift our collective gaze from the uncertain shaky past of a select few to a far more promising future for all based on insights from contemporary empirical research Each chapter addresses a particular aspect of higher education as it relates to HBCUs documenting the undeniable legacy of Black colleges their current challenges and untold successes blended with findings from recent empirical studies both quantitative and qualitative that clearly create new possibilities for the future of HBCUs This volume was developed to break new ground on often overlooked and understudied terrain in higher education scholarship Organized into three major sections the book includes chapters focusing on HBCUs as institutions and a small but consequential segment of the higher education enterprise Section Two consists of 6 chapters addressing the experiences of HBCU students paying close attention to issues of intersectionality heterogeneity and race ethnicity to name a few A third and final section turns much needed attention to HBCU personnel including campus administrators college presidents and faculty Rich in its coverage of culture facts and past history this new book offers much to those interested in charting new possibilities for the future of HBCUs The Broken Cisterns of African American Education M. Christopher Brown, RoSusan D. Bartee, 2008-12-01 The failure of American education to achieve racial diversity has resulted from the inability of educational researchers policy makers and judicial officials to disentangle the complex definitions that have emerged in a post segregated society More specifically the capricious aim of post segregated educational settings leads to the confusing and often conflicting interchangeable usage of terms desegregated integrated and diversity This ambiguity is further confounded by the imprecise definitions of equity equality and opportunity The proposed book will examine the role of language post *Brown v Board of Education* and the effects of that language on educational policy and practice He also examines how the fundamental implications of language within post *Brown* court cases in pre through post secondary education demonstrate the unspecified outcomes for desegregation and integration while concomitantly demand an educational continuum of equitable distribution The arguments will further interrogate how education policy and practices implicitly contain a scholarly roadmap to forge equal opportunity and access fifty years after *Brown* Encyclopedia of Law and Higher Education Charles J. Russo, 2010 A

Newkirk, 2014-01-10 In December 2008 Georgia state senator Seth Harp ignited controversy when he proposed merging two historically Black colleges with nearby predominantly white colleges to save money Less than a year later Mississippi governor Haley Barbour sought to unite Mississippi's three predominantly Black colleges These efforts kindled renewed interest in historically Black colleges and universities HBCUs across the nation and the globe In this study HBCU officials and faculty attempt to identify the challenges that HBCUs face explore the historic origin of HBCU management systems and identify models of success that will improve the long term viability of the HBCU By analyzing HBCUs within a larger framework of American higher education and the cultural context in which HBCUs operate these essays introduce a new paradigm in the quest to ensure that HBCUs continue to play an important role in the education of Americans of all races **Higher Education: Handbook of Theory and Research** John C. Historically Black Colleges and Universities Charles L. Betsey, 2017-07-12 Beginning in the 1830s public and private higher education institutions established to serve African Americans operated in Pennsylvania and Ohio the Border States and the states of the old Confederacy Until recently the vast majority of people of African descent who received post secondary education in the United States did so in historically black institutions Spurred on by financial and accreditation issues litigation to assure compliance with court decisions equal higher education opportunity for all citizens and the role of race in admissions decisions interest in the role accomplishments and future of Historically Black Colleges and Universities has been renewed This volume touches upon these issues Historically Black Colleges and Universities HBCUs are a diverse group of 105 institutions They vary in size from several hundred students to over 10 000 Prior to Brown v Board of Education 90 percent of African American postsecondary students were enrolled in HBCUs Currently the 105 HBCUs account for 3 percent of the nation s educational institutions but they graduate about one quarter of African Americans receiving college degrees The competition that HBCUs currently face in attracting and educating African American and other students presents both challenges and opportunities Despite the fact that numerous studies have found that HBCUs are more effective at retaining and graduating African American students than predominately white colleges HBCUs have serious detractors Perhaps because of the increasing pressures on state governments to assure that public HBCUs receive comparable funding and provide programs that will attract a broader student population several public HBCUs no longer serve primarily African American students There is reason to believe and it is the opinion of several contributors to this book that in the changing higher education environment HBCUs will not survive particularly those that are

Survival of the Historically Black Colleges and Universities Edward Fort, 2013-06-28 Survival of the Historically Black Colleges and Universities as edited by North Carolina A T State University Chancellor Emeritus Edward Fort conceptualizes the strategies strategic planning energies and delivery systems which might be of assistance to HBCU s as they continue to survive in this age of uncertainty Its insightful chapters as penned by

Fort and a number of his colleagues including former Presidents and Chancellors of Black campuses are data driven and experientially based. The challenges encountered by the HBCU leaders are described as multiple and include fiscal accountability and the continued need to assist the public schools as related to the twin problems of the achievement gap and Clark's Cult of Cultural Deprivation. The author and his colleagues outline viable strategies geared to address these challenges. The latter represent but two of a number of other challenges confronting HBCUs. These include but are not limited to 1 enrollment competition with majority institutions 2 cultivation of alumni support 3 the garnering of fiscal equity via such avenues as increased federal agency and foundation corporate support. Considerable space is devoted to the critical issue of institutional leadership. Here strategies and delivery systems are explored as associated with the HBCU leader's aggressive determination to provide the best possible crucible of learning for students attending the institution. The issues of fiscal accountability and its ever present spectra of prospective gloom and doom lurks as an enemy to be constantly confronted. Many pages are devoted to the conceptualization of prescriptive strategies which can be applied to present day campus situations. Leaders of historically black campuses can benefit from these writings as these institutions constantly face the heartache of state revenue shortfall private university funding sources evaporation and the demoralizing impact of cut backs in program capital construction and scholarship support. Creativity protocols are described in detail and forward moving processes poised for prospective success enunciated. Navigating the problem of K-12 economic inequality and its impact upon HBCUs is also explored as well as the need to enhance leveraging for federal support including the United States Department of Agriculture. Ultimately alumni support is vigorously supported as an HBCU leadership must.
