Things of Darkness Kim F. Hall, 2018-09-05 The Ethiopie the tawny Tartar the woman blackamoore and knotty Africanisms allusions to blackness abound in Renaissance texts Kim F Hall s eagerly awaited book is the first to view these evocations of blackness in the contexts of sexual politics imperialism and slavery in early modern England Her work reveals the vital link between England s expansion into realms of difference and otherness through exploration and colonialism and the highly charged ideas of race and gender which emerged How Hall asks did new connections between race and gender figure in Renaissance ideas about the proper roles of men and women What effect did real racial and cultural difference have on the literary portrayal of blackness And how did the interrelationship of tropes of race and gender contribute to a modern conception of individual identity Hall mines a wealth of sources for answers to these questions travel literature from Sir John Mandeville s Travels to Leo Africanus s History and Description of Africa lyric poetry and plays from Shakespeare s Antony and Cleopatra and The Tempest to Ben Jonson s Masque of Blackness works by Emilia Lanier Philip Sidney John Webster and Lady Mary Wroth and the visual and decorative arts Concentrating on the sixteenth and seventeenth centuries Hall shows how race sexuality economics and nationalism contributed to the formation of a modern white male identity in English culture The volume includes a useful appendix of not readily accessible Renaissance poems on blackness

The ^ADialect of Modernism Michael North, 1998-01-22 The Dialect of Modernism uncovers the crucial role of racial masquerade and linguistic imitation in the emergence of literary modernism Rebelling against the standard language and literature written in it modernists such as Joseph Conrad Gertrude Stein T S Eliot Ezra Pound and William Carlos Williams reimagined themselves as racial aliens and mimicked the strategies of dialect speakers in their work In doing so they made possible the most radical representational strategies of modern literature which emerged from their attack on the privilege of standard language At the same time however another movement identified with Harlem was struggling to free itself from the very dialect the modernists appropriated at least as it had been rendered by two generations

of white dialect writers For writers such as Claude McKay Jean Toomer and Zora Neale Hurston this dialect became a barrier as rigid as the standard language itself Thus the two modern movements which arrived simultaneously in 1922 were linked and divided by their different stakes in the same language In *The Dialect of Modernism* Michael North shows through biographical and historical investigation and through careful readings of major literary works that however different they were the two movements are inextricably connected and thus cannot be considered in isolation Each was marked for good and bad by the other

Early Modern Black Diaspora Studies Cassander L. Smith, Nicholas R. Jones, Miles P. Grier, 2018-10-03 *Early Modern Black Diaspora Studies* brings into conversation two fields Early Modern Studies and Black Studies that traditionally have had little to say to each other This disconnect is the product of current scholarly assumptions about a lack of archival evidence that limits what we can say about those of African descent before modernity This volume posits that the limitations are not in the archives but in the methods we have constructed for locating and examining those archives The essays that make up this volume offer new critical approaches to black African agency and the conceptualization of blackness in early modern literary works historical documents material and visual cultures and performance culture Ultimately this critical anthology revises current understandings about racial discourse and the cultural contributions of black Africans in early modernity and in the present across the globe

Behind the Screen Brynn W. Shiovitz, 2023 How and why was outdated racial content and specifically blackface minstrelsy not only permitted but in fact allowed to thrive during the 1930s and 1940s despite the rigid motion picture censorship laws which were enforced during this time Introducing a new theory of covert minstrelsy this book illuminates Hollywood's practice of capitalizing on the Africanist aesthetic at the expense of Black lived experience Through close examination of the musicals made during this period this book shows how Hollywood utilized a series of covert guises or subterfuges complicated and further masked by a film's narrative framing and novel technology to distract both censors and audiences from seeing the ways in which they were being fed a nineteenth century White narrative of Blackness Drawing on the annals of Hollywood's most popular and its extremely rare films *Behind the Screen* uncovers a half century of blackface application by delicately removing the individual layers of disguise through close analyses of films which paint tap dance swing and other predominantly Africanist forms in a negative light This book goes beneath the image of recognizable White performers including Al Jolson Eddie Cantor Fred Astaire and Eleanor Powell exploring the high cost of their onscreen representational politics The book also recuperates the stories of several of the Black artists whose labor was abused during the choreographic and filming process Some of the many newly documented stories include those of *The Three Chocolateers* *The Three Eddies* *The Three Gobs* *The Peters Sisters* *Jeni Le Gon* and *Cora La Redd* In stripping away the various disguises involved during Hollywood's Golden Age *Behind the Screen* recovers the visibility of Black artists whose names Hollywood omitted from the credits and whose identities America has written out of the national narrative
