Couple Therapy A Handbook:

Clinical Handbook of Couple Therapy, Fifth Edition Alan S. Gurman, Jay L. Lebow, Douglas K. Snyder, 2015-05-28

Regarded as the authoritative reference and text this handbook presents the most effective widely studied approaches to couple therapy. The distinguished coeditors bring together other leading experts, most of whom developed the approaches they describe. Adhering closely to a uniform structure to facilitate study and comparison, chapters cover the history, theoretical and empirical underpinnings, and techniques of each model. The volume also describes cutting edge applications for particular relationship contexts such as blended families, LGBT couples, and separated couples, and clinical problems such as partner aggression, psychological disorders, and medical issues. New to This Edition: Chapters on interpersonal neurobiology and intercultural relationships; Chapters on couple therapy for PTSD, functional analytic couple therapy, and the integrative problem-centered metaframeworks approach. Many new authors. Extensively revised with the latest theory and research. See also *Clinical Casebook of Couple Therapy* edited by Alan S. Gurman, which presents in depth illustrations of treatment.

Couple Therapy Douglas Hooper, Windy Dryden, 1991-01-01 This handbook reviews therapy and counselling with couples, whether they be married, cohabiting, heterosexual, lesbian, or gay. It explores how the problems of closely involved couples are assessed and tackled in different circumstances and in different ways. It places couples therapy in its theoretical and institutional contexts, analyzes immediate therapeutic concerns, and examines the wider roles of agencies, education, research, and training.

Clinical Handbook of Couple Therapy, Fourth Edition Alan S. Gurman, 2008-06-24 This authoritative handbook provides a definitive overview of the theory and practice of couple therapy. Noted contributors, many of whom developed the approaches they describe, combine clear conceptual exposition with thorough descriptions of therapeutic techniques. In addition to presenting major couple therapy models in step-by-step detail, the book describes effective applications for particular populations and problems. Chapters adhere closely to a uniform structure to facilitate study and comparison, enhancing the book's utility as a reference and text.
