Teaching for Deeper Learning Jay McTighe,Harvey F. Silver,2020-01-22 Far too often our students attain only a superficial level of knowledge that fails to prepare them for deeper challenges in school and beyond In *Teaching for Deeper Learning* renowned educators and best selling authors Jay McTighe and Harvey F Silver propose a solution teaching students to make meaning for themselves Contending that the ability to earn understanding will equip students to thrive in school at work and in life the authors highlight seven higher order thinking skills that facilitate students acquisition of information for greater retention retrieval and transfer These skills which cut across content areas and grade levels and are deeply embedded in current academic standards separate high achievers from their low performing peers Drawing on their deep well of research and experience the authors Explore what kind of content is worth having students make meaning about Provide practical tools and strategies to help teachers target each of the seven thinking skills in the classroom Explain how teachers can incorporate the thinking skills and tools into lesson and unit design Show how

teachers can build students capacity to use the strategies independently If our goal is to prepare students to meet the rigorous demands of school college and career then we must foster their ability to respond to such challenges This comprehensive practical guide will enable teachers to engage students in the kind of learning that yields enduring understanding and valuable skills that they can use throughout their lives **Courage at Work** Florence

Guesnet,2025-04-15 Courage can shape our lives as well as the workplace and business outcomes Willingness and ability to take risks make space for major decisions And it s more than something to admire in others courage can be learned and this book will teach you Building on examples from a 30 year international career in marketing coaching and political activism Florence Guesnet introduces the pioneering concept of the courage zone This shifts courage from unattainable heroism to a competence that can be built with five steps recognize fear perceive your heart s desires analyze reality make a decision and take the step The book begins by strengthening the reader s courage as an individual inspiring a bold mindset and vision and including hands on exercises The book then goes on to show readers how to carry their courage into organizations and inspire others addressing questions of governance strategy and everyday team encouragement against the backdrop of 21st century demands and typical paralyzing fears Current and aspiring leaders in small medium to large organizations will be empowered to take risks surmount obstacles and grab opportunities with this book s effective tools to build courage in themselves and their teams **Tools for Strengths-Based Assessment and Evaluation** Catherine Simmons,2012-11-08

Traditionally assessment and evaluation have focused on the negative aspects or deficits of a client s presentation Yet strengths health and those things that are going right in a person s life are key protective factors in the prevention and treatment of many mental health problems Thus measuring strengths is an important component of a balanced assessment and evaluation process This is the first compendium of more than 140 valid and reliable strengths based assessment tools that clinicians researchers educators and program evaluators can use to assess a wide array of positive attributes including well being mindfulness optimism resilience humor aspirations values sources of support emotional intelligence and much more These tools provide a clear picture of an individual s strengths while being easy to complete score and interpret The scales and instruments included are consistently formatted are organized according to construct measures and include tools for working with adults couples families children and special populations They represent a wide range of theoretical approaches and were written by a diverse array of professionals including social workers psychologists nurses physicians and sociologists Partial List of Instruments Adult Dispositional Hope Scale Assessing Emotions Scale Flourishing Scale Five Facet Mindfulness Questionnaire Positive States of Mind Scale A Measure of Expectations for Partner Multidimensional Sense of Humor Scale Parenting Sense of Competence Scale Personal Wellbeing Index Proactive Coping Inventory Psychological Empowerment Scale Stress Related Growth Scale Social Wellbeing Scales Wellness Beliefs Scale **Courageous Training** Tim Mooney,2009-03-19 If you were a brand new baby sea turtle your odds for survival would be grim of thousands hatched

only a dozen or so make it to adulthood From jellyfish to dandelions this is the way nature works Thousands of seeds are dispersed in the seas or winds but only a few are viable survivors What seems to work OK in the world of nature is not effective in the world of business Investments in workplace learning are meant to give birth to new capabilities that employees can use to improve job performance Odds are better here than for sea turtles but not by a huge amount If you wanted a sure bet your best guess would be 15% to 20% of trainees who participate in the typical workplace learning event ever employ their new capabilities in a way that leads to worthwhile results for the organization This book is about how people who beat those odds do so and it is for people who want to do the same **The Heart of the Good Institution**

Howard Harris,Gayathri Wijesinghe,Stephen McKenzie,2012-12-14 This book addresses the question how can institutions develop and maintain a good purpose And how can managers contribute to this endeavour Twelve contributions explore this question using MacIntyrean inquiry as a basis for exploring four main themes Can management be considered a practice in the MacIntyrean sense What is the role of specific virtues in the development of a virtuous institution What are management vices and what are the conditions in which they flourish And can we use MacIntyrean ideas to consider the management of all forms of institutions The volume is an international and multidisciplinary collection with contributions from well known writers in the field of management ethics and innovative contributions that use MacIntyrean inquiry as a lens to examine fields such as hospitality user generated music content and social sustainability The papers are unified by their concern for the achievement of organizational excellence and integrity through ethical management Unlike single author texts this edited volume brings together multiple perspectives on the topic of virtue ethics in management In doing so it explores the topic both more deeply and more widely than a single author can do Because of its breadth this book has the potential to become a turn to research tool for those interested in virtue theory s relevance to other academic interests such as organizational behavior including motivation theory and social psychology literature contemporary social issue criticism and business management Editors Harris Wijesinghe and McKenzie have crafted a tight slim and thematically consistent volume that will be indispensable to scholars and students with twin interests in business and virtue ethics In particular those working with MacIntyre s ideas will find the thorough and complimentary explorations and applications of his ideas to serve overall as a cornerstone for their own work Brenden E Kendall 2014 Harris H Wijesinghe G McKenzie S Eds 2013 The Heart of the Good Institution Virtue Ethics as a Framework for Responsible Management Dordrecht The Netherlands Springer in Michael Schwartz Howard Harris ed Achieving Ethical Excellence Research in Ethical Issues in Organizations Volume 12 Emerald Group Publishing Limited pp 155 161 *The Tools* Phil Stutz,Barry Michels,2012 Introducing five simple techniques namely The Reversal of Desire Active Love Inner Authority The Grateful Flow and Jeopardy this title explains what they are and how and when to use them It provides you the information you need to achieve your ambitions Self-Esteem Tools for Recovery Lindsey Hall,Leigh Cohn,2011-06 The most important part of recovery is recognizing and enhancing our inherent worth

When we practice and learn self esteem magical things happen We love others We attract good things to us We do the right thing and if a decision does not turn out so well we forgive ourselves from the Introduction Negative thoughts addictions and unhealthy belief systems can cause low self esteem and make recovery difficult Gaining self esteem is particularly challenging when coping mechanisms have replaced an honest and compassionate relationship with the inner self This personal book shows step by step tools for learning self esteem and self love The exercises and examples come to life along with personal stories from the author A great book for getting to know yourself and learning to forgive Now used in several countries around the world including China Japan France and India *Professional Java Tools for Extreme Programming* Richard Hightower, Warner Onstine, Paul Visan, Damon Payne, Joseph D.
