Winkler-Horaček,2022-09-06 Based on two international conferences held at Cornell University and the Freie Universit t of Berlin in 2010 and 2015 this volume is the first ever to explicitly address the destruction of plaster cast collections of ancient Mediterranean and Western sculpture Focusing on Europe the Americas and Japan art historians archaeologists and a literary scholar discuss how different museum and academic traditions national as well as disciplinary notions of value and authenticity or colonialism impacted the fate of collections The texts offer detailed documentation of degrees of destruction by spectacular acts of defacement demolition discarding or neglect They also shed light on the accompanying discourses regarding aesthetic ideals political ideologies educational and scholarly practices or race With destruction being understood as a critical part of reception the histories of cast collections defy the traditional homogenous narrative of rise and decline Their diverse histories provide critical evidence for rethinking the use and display of plaster cast collections in the contemporary moment **Encyclopædia Britannica ,1810 Encyclopaedia Britannica** James Millar,1810 The

Fifteenth-century Inquisitions Post Mortem Michael Hicks,2012 Essays offering a guide to a vital source for our knowledge of medieval England The Inquisitions Post Mortem IPMs at the National Archives have been described as the single most important source for the study of landed society in later medieval England Inquisitions were local enquiries into the lands heldby people of some status in order to discover whatever income and rights were due to the crown on their death and

provide details both of the lands themselves and whoever held them This book explores in detail for the first time the potential of IPMs as sources for economic social and political history over the long fifteenth century the period covered by this Companion It looks at how they were made how they were used and their accuracy and develops our understanding of a source that is too often taken for granted it answers questions such as what they sought to do how they were compiled and how reliable they are while also exploring how they can best be used for economic demographic place name estate and other kinds of study Michael Hicks is Professor of Medieval History University of Winchester Contributors Michael Hicks Christine Carpenter Kate Parkin Christopher Dyer Matthew Holford Margaret Yates L R Poos J Oeppen R M Smith Sean Cunningham Claire Noble Matthew Holford Oliver Padel **Eclectic Magazine, and Monthly Edition of the Living Age** John Holmes Agnew, Walter Hilliard Bidwell, Henry T. Because people's contact with the criminal justice system comes in different shapes and forms scholars are now broadening their analytical scope and examining the overall repercussions of criminal justice contact on families of offenders Compared to Western societies Japan is known for its lower crime rates and more pronounced use of informal social control Thus it offers a useful research site for examining how families in a low crime society experience criminal justice contact and how they function as an integral part of the nation's crime control mechanism This book considers the role of the family in the lives of offenders and the criminal justice system in Japan Looking particularly at gender and patriarchal power relations it reveals how cultural notions of femininity prompt the criminal justice system to rely on women as its proxy This book explores how families of offenders often step in to fill the voids left by criminal justice institutions and social services to provide offenders with all inclusive care The burden of supervising and rehabilitating offenders on top of the expectation to atone for the crimes also renders families ambivalent and ashamed Whereas the state and criminal justice authorities tend to see offenders families as a crucial resource for prisoner reentry this book highlights the necessity for addressing families needs before automatically assuming their support It also pushes the boundaries of feminist criminology by showing how women can be affected by male criminality and male dominated criminal justice institutions other than as victims and offenders An accessible and compelling read this book will appeal to students and scholars of criminology sociology gender studies Japanese culture and all those interested in learning more about the criminal justice system in Japan **Chambers's Encyclopædia**, 1889 **Blackie's modern cyclopedia of universal information, ed. by C.
