The Beast on the Table Sydel Silverman, 2002 Memoirs of Wenner Gren Foundation anthropological conferences by the former president of the foundation Visit our website for sample chapters **Cantonese Society in Hong Kong and Singapore** Marjorie Topley, Jean DeBernardi, 2011-01-01 The volume collects the published articles of Dr Marjorie Topley who was a pioneer in the field of social anthropology in the postwar period and also the first president of the revived Hong Kong Branch of the Royal Asiatic Society Her ethnographic research in Singapore and Hong Kong set a high standard for urban anthropology and helped creating the fields of religious studies migration studies gender studies and medical anthropology focusing on topics that remain current and important in the disciplines The essays in this collection showcase Dr Topley's groundbreaking contributions in several areas of scholarship These include Chinese Women's Vegetarian Houses in Singapore 1954 and The Great Way of Former Heaven A Group of Chinese Secret Religious Sects 1963 both important research on the study of subcultural groups in a complex urban society Marriage Resistance in Rural Kwangtung 1978 now a classic in Chinese anthropology and women's studies her widely known and cited article Cosmic Antagonisms A Mother Child Syndrome 1974 which investigates widely shared everyday practices and cosmological explanations that Cantonese mothers invoked when they encountered difficulties in child rearing and Capital Saving and Credit among Indigenous Rice Farmers and Immigrant Vegetable Farmers in Hong Kong's New Territories 2004 1964 The Dynamic Dance Barbara J. KING, Barbara J King, 2009-06-30 Mother and infant negotiate over food two high status males jockey for power female kin band together to get their way It happens among humans and it happens among our closest living relatives in the animal kingdom the great apes of Africa In this eye opening book we see precisely how such events unfold in chimpanzees bonobos and gorillas through a spontaneous mutually choreographed dance of actions gestures and vocalizations in which social partners create meaning and come to understand each other Using dynamic systems theory an approach employed to study human communication Barbara King is able to demonstrate the genuine complexity of apes social communication and the extent to which their interactions generate meaning As King describes apes create meaning primarily through their body movements and go well beyond conveying messages about food mating or predators Readers come to know the captive apes she has observed and others across Africa as well and to understand the process of creating social meaning This new perspective not only acquaints us with our closest living relatives but informs us about a possible pathway for the evolution of language in our own species King's theory challenges the popular idea that human language is instinctive with rules and abilities hardwired into our brains Rather The Dynamic Dance suggests language has its roots in the gestural building up of meaning that was present in the ancestor we shared with the great apes and that we continue to practice to this day
