Beautiful Town Stories And Essays:

Beautiful Town Sato Haruo, 1996-11-01 Sato Haruo has been called one of the most representative writers of the Taisho era 1912-1926 a transitional period following Japan's monumental push toward modernization. Although he never identified himself as a modernist, Sato exhibited what some writers have identified as a characteristic of modernism: a complex net of contradictory impulses that embrace both the revolutionary and the conservative, revealing both an optimistic looking to the future and a pessimistic nostalgia for the past. Six stories of amazing diversity and two critical essays revealing the understated Japanese ideals of beauty make up this volume, all translated into English for the first time. Forming a sequel to the three stories published in Sato's *The Sick Rose*, these stories exhibit an extraordinary variety of themes and styles, ranging from poetic fairy tales to psychological portraits to who-did-it crime stories. The title story is a utopian dream of a better city populated by ideal people that vanishes in a mirage. Another tale portrays the loneliness of a man unsuccessful with women. A third embellishes a bare Basho haiku about the man next door. Here too are the dream ballad of a Chinese prince, the imaginary world of a mad Japanese artist in Paris, and the probing search for an opium-drugged murderer. Sato's critical essays, which conclude this volume, have their themes in an exploration of the sad beauty of impermanence, the nature of enlightenment, the awareness of self, the merging of the instant and the eternal, and the self-indulgent, unrestrained beauty of the Japanese language. This collection not only affords insights into the complexity of the work of a gifted writer but also significantly broadens the perspective of the literary world of the Taisho period.

Japan's Competing Modernities

Sharon Minichiello, 1998-09-01 Scholars Japanese and non-Japanese alike have studied the greater Taisho era 1900-1930 within the framework of Taisho *demokurashii* democracy. While this concept has proved useful, students of the period in more recent years have sought alternative ways of understanding the late Meiji-Taisho period. This collection of essays, each based on new research, offers original insights into various aspects of modern Japanese cultural history, from modernist architecture to women as cultural symbols, popular songs to the rhetoric of empire building, and more. The volume is organized around three general topics: geographical and cultural space, cosmopolitanism and national identity, and diversity, autonomy, and integration. Within these, the authors have identified a number of thematic tensions that link the essays: high and low culture in cultural production and dissemination; national and ethnic identities; empire and ethnicity; the center and the periphery; *naichi* (homeland) and *gaichi* (overseas); urban and rural; public and private; migration and barriers. The volume opens up new avenues of exploration for the study of modern Japanese history and culture. If, as one of the authors contends, the imperative is to understand more fully the historical forces that made Japan what it is today, these studies of Japan's competing modernities point the way to answers to some of the country's most challenging historical questions in this century.

Starrs Mariko Asano Tamanoi Julia Adeney Thomas E Patricia Tsurumi Christine R Yano *Satō Haruo and Modern Japanese Literature* Charles Exley, 2016-01-19 In *Sat Haruo and Modern Japanese Literature* Charles Exley offers the first comprehensive examination of Sat's literary oeuvre from the 1910s through the 1930s. The study examines the ways in which selected novels and short stories interact with cultural discourses of the time including the fantastic, the discourse on melancholy and mental illness, detective fiction, and early film, colonial encounter, and critique of civilization and hysteria, and psychoanalysis. Exley's alignment of Sat's fictional work with its cultural and historical context illustrates the complex ways in which Sat's aesthetic projections derived from and comment on Japan's experience with modernization during the twentieth century.

This Perversion Called Love Margherita Long, 2009-10-08 *This Perversion Called Love* positions one of Japan's most canonical and best translated 20th century authors at the center of contemporary debates in feminism. Examining sexual perversion in Tanizaki's aesthetic essays, cultural criticism, cinema writings, and short novels from the 1930s, it argues that Tanizaki understands human subjectivity in remarkably Freudian terms, but that he is much more critical than Freud about what it means for the possibility of love. According to Tanizaki, perversion involves not the proliferation of interesting gender positions, but rather the tragic absence of even two sexes, since femininity is only defined as man's absence, supplement or complement. In this fascinating work, author Margherita Long reads Tanizaki with a theoretical complexity he demands but has seldom received. As a critique of the historicist and gender-focused paradigms that inform much recent work in Japanese literary and cultural studies, *This Perversion Called Love* offers exciting new interpretations that should spark controversy in the fields of feminist theory and critical Asian studies.

Representing the Other in Modern Japanese Literature Rachael Hutchinson, Mark Williams, 2006-09-27 *Representing the Other in Modern Japanese Literature* looks at the ways in which authors writing in Japanese in the twentieth century constructed a division between the Self and the Other in their work. Drawing on methodology from Foucault and Lacan, the clearly presented essays seek to show how Japanese writers have responded to the central question of what it means to be Japanese and of how best to define their identity. Taking geographical, racial, and ethnic identity as a starting point to explore Japan's vision of non-Japan, representations of the Other are examined in terms of the experiences of Japanese authors abroad and in the imaginary lands envisioned by authors in Japan. Using a diverse cross-section of writers and texts as case studies, this edited volume brings together contributions from a number of leading international experts in the field and is written at an accessible level, making it essential reading for those working in Japanese studies, colonialism, identity studies, and nationalism.

Uchida Hyakken Rachel DiNitto, 2020-03-17 The literary career of Uchida Hyakken (1889-1971) encompassed a wide variety of styles and genres, including fiction, *zuihitsu* (essays), war diaries, poetry, travelogues, and children's stories. In

discussing his oeuvre critics have circumscribed Hyakken to a private literary realm detached from the era in which he wrote Rachel DiNitto provides a critical corrective by locating in Hyakken's simple yet powerful literary language a new way to appreciate the various literary reactions to the modernization of the early decades of the twentieth century and a means to open up a literary space of protest an alternate intellectual response to the era of militarism This book takes up Hyakken's fiction and essays written during Japan's prewar years to investigate the intersection of his literature with the material and discursive surroundings of the time a consumer oriented print culture the popular entertainment of film the capitalist and cultural force of an emergent middle class a planned yet sprawling metropolis and the war machine of an expanding Japanese empire Emerging from this analysis is a writer who relied on the quotidian language of the everyday and the symbols of cultural modernism to counter the harsh realities of modernization and imperialism and to express sentiments contrary to the mainstream ideological rhetoric of the time

alarmingly morphine had become mass commodities fueling debates over opiates in Japan's expanding imperial territories. The fall of the empire and the occupation of Japan by the United States created conditions favorable for heroin use followed in time by glue sniffing and psychedelic mushroom ingestion. By illuminating the neglected history of drugs, this volume highlights both the transnational embeddedness and national peculiarities of the politics of consumption in Japan.

Writing Home: Representations of the Native Place in Modern Japanese Literature Stephen Dodd, 2020-03-17. This book examines the development of Japanese literature depicting the native place (*furusato*) from the mid-Meiji period through the late 1930s as a way of articulating the uprootedness and sense of loss many experienced as Japan modernized. The 1890s witnessed the appearance of fictional works describing a city dweller who returns to his native place where he reflects on the evils of urban life and the idyllic past of his childhood home. The book concentrates on four authors who typify this trend: Kunikida Doppo, Shimazaki Tōson, Sat Haruo, and Shiga Naoya. All four writers may be understood as trying to make sense of contemporary Japan. Their works reflect their engagement with the social, intellectual,

economic and technological discourses that created a network of shared experience among people of a similar age This common experience allows the author to chart how these writers works contributed to the general debate over Japanese national identity in this period By exploring the links between furusato literature and the theme of national identity he shows that the debate over a common language that might transparently express the modern experience helped shape a variety of literary forms used to present the native place as a distinctly Japanese experience
