Becoming Christian Raymond Van Dam,2011-12-30 In a richly textured investigation of the transformation of Cappadocia during the fourth century Becoming Christian The Conversion of Roman Cappadocia examines the local impact of Christianity on traditional Greek and Roman society The Cappadocians Basil of Caesarea Gregory of Nyssa Gregory of Nazianzus and

Eunomius of Cyzicus were influential participants in intense arguments over doctrinal orthodoxy and heresy In his discussion of these prominent churchmen Raymond Van Dam explores the new options that theological controversies now made available for enhancing personal prestige and acquiring wider reputations throughout the Greek East Ancient Christianity was more than theology liturgical practices moral strictures or ascetic lifestyles The coming of Christianity offered families and communities in Cappadocia and Pontus a history built on biblical and ecclesiastical traditions a history that justified distinctive lifestyles legitimated the prominence of bishops and clerics and replaced older myths Christianity presented a common language of biblical stories and legends about martyrs that allowed educated bishops to communicate with ordinary believers It provided convincing autobiographies through which people could make sense of the vicissitudes of their lives The transformation of Roman Cappadocia was a paradigm of the disruptive consequences that accompanied conversion to Christianity in the ancient world Through vivid accounts of Cappadocians as preachers theologians and historians *Becoming Christian* highlights the social and cultural repercussions of the formation of new orthodoxies in theology history language and personal identity

Becoming Christian David G. Horrell, 2013-07-04 The first letter of Peter remains a relatively neglected corner of the New Testament the number of monographs devoted to it is tiny compared with those on the Gospels and Pauline letters Yet it is a text so this book argues that offers much insight into crucial processes in the development of Christian identity In particular 1 Peter illustrates with particular clarity the complex ways in which Christian identity was forged from Jewish traditions and negotiated in the generally hostile Roman empire As such studies of this particular letter illuminate central themes in the making of Christianity in the earliest centuries *Becoming Christian* is a collection of essays that treat various facets of the first letter of Peter in its social and historical setting in some cases using new social scientific and postcolonial methods to shed light on the ways in which the letter contributes to the making of Christian identity At the heart of the book are chapters 5-7 which examine the contribution of 1 Peter to the construction of Christian identity the persecution and suffering of Christians in Asia Minor the significance of the name Christian and the response of the letter to the hostility encountered by Christians in society There are no recent books which bring together such a wealth of information and analysis of this crucial early Christian text *Becoming Christian* has developed out of Horrell's ongoing research for the International Critical Commentary on 1 Peter Together these essays will offer a series of significant and original engagements with this letter and a resource for studies of 1 Peter for some time to come

Becoming Christian Nancy L. Kuehl, 2014-10-06 The evolution of Christianity as it is known today began in Antioch but as *Becoming Christian* reveals it had once been quite different While most histories gloss over the earliest period of

Christianity to begin with the Christian establishment this book uncovers the little known history within the gap between 31 and 70 CE when the Jesus Movement was headquartered in Jerusalem under the authority of James bar Joseph the brother of Jesus and the apostles served as missionaries carrying the teachings of Jesus throughout Judea Galilee and Samaria By the year 66 CE James and most of the apostles had died along with much of their teaching Paul's spiritual Jesus had gained a foothold among Gentiles in Antioch and throughout the West including Rome where it finally blossomed into a powerful political hierarchy No longer was Jesus humanity important to the church With the death of James the original movement fell into disarray and split into factions each developing its own doctrines Thus there arose numerous Christianities during the first two centuries many of which had become heretical The Jesus Movement had now become irrelevant to the church and as **Becoming Christian** reveals by the third century it would be publicly eradicated for all time **Becoming Christian** Saint Lara Lucin, 2010-10-20 **Becoming Christian** Bill J. Leonard, 1990-01-01 Drawing upon the perspectives of Christian education biblical studies worship ethics the arts the role of women the role of minorities sexuality and vocation this book provides a multifaceted picture of the meaning of spirituality **Becoming Christian** is an accessible text that introduces readers to the important issues involved in being a Christian **Becoming Adult, Becoming Christian** James W. Fowler, 1999-12-02 In this updated reissue of his 1984 classic James Fowler applies his groundbreaking research on the development of faith to Christianity In his revised first chapter Fowler locates his approach to the study of human and faith development in relation to the contemporary conversation about identity and selfhood in postmodernity Fowler invites readers to explore what it means to find and claim vocation a purpose for one's life that is part of the purposes of God Reclaiming covenant and vocation as ideals for responsible mature Christian selfhood Fowler shows how a dynamic understanding of what vocation involves can both inform and transform lives **Becoming Christian** Alexandre Ganoczy, 1976 **The Passion of Possibility** Ingolf U. Dalferth, 2023-02-20 For Kierkegaard the most important thing in life is to become a single individual or a true self We are all born as human beings but this makes us only members of a crowd not true selves To become a true self we must transcend what we are at any given time and orient ourselves to the possible and to the actuality of the possible to which all that is possible owes itself True selves exist only in becoming they are fragile and that is their strength They are not grounded by their own activities but in a reality extra se the flip side of which is a deep passivity that underlies all their activity and allows them to continually leave themselves and move beyond their respective actualities toward the new and the possible Therefore without the passion of possibility there is no truly single individual This study of Kierkegaard's post metaphysical theology outlines his existential phenomenology of the self by exploring in three parts what Kierkegaard has to say about the sense of self finitude uniqueness self interpretation and alienation about selfless passion anxiety trust hope and true love and about how to become a true self a Christian in Christendom and a neighbor of God's neighbors **The Cambridge History of Ancient Christianity** Bruce W. Longenecker, David E. Wilhite, 2023-08-24

The first three hundred years of the common era witnessed critical developments that would become foundational for Christianity itself as well as for the societies and later history that emerged thereafter. The concept of ancient Christianity however along with the content that the category represents has raised much debate. This is in part because within this category lie multiple forms of devotion to Jesus Christ, multiple phenomena and multiple permutations in the formative period of Christian history. Within those multiples lie numerous contests as varieties of Christian identity laid claim to authority and authenticity in different ways. The Cambridge History of Ancient Christianity addresses these contested areas with both nuance and clarity by reviewing, synthesizing and critically engaging recent scholarly developments. The 27 thematic chapters specially commissioned for this volume from an international team of scholars also offer constructive ways forward for future research.

Becoming Christian Dennis Austin Britton, 2014-04-03. *Becoming Christian* argues that romance narratives of Jews and Muslims converting to Christianity register theological formations of race in post-Reformation England. The medieval motif of infidel conversion came under scrutiny as Protestant theology radically reconfigured how individuals acquire religious identities. Whereas Catholicism had asserted that Christian identity begins with baptism, numerous theologians in the Church of England denied the necessity of baptism and instead treated Christian identity as a racial characteristic passed from parents to their children. The church thereby developed a theology that both transformed a nation into a Christian race and created skepticism about the possibility of conversion. Race became a matter of salvation and damnation. Britton intervenes in critical debates about the intersections of race and religion as well as in discussions of the social implications of romance. Examining English translations of Calvin treatises on the sacraments, catechisms and sermons alongside works by Edmund Spenser, John Harrington, William Shakespeare, John Fletcher and Phillip Massinger, *Becoming Christian* demonstrates how a theology of race altered a nation's imagination and literary landscape.

Understanding Christianity and How to Become a Christian Shelby McGinnis, 2015-04-06. People have differing beliefs about the existence of a sovereign God. For most of us, the belief in a God gives assurance in spite of questions about our life that we could never answer. The belief in a God also helps most of us live better lives, treat others and nature with more respect and stay hopeful when times get tough. This desire to believe in something greater than humanity is common to most of us regardless of the difference in our personal beliefs, religious practices or cultural traditions. And more specifically for about a quarter of the world's population, Christianity is the religion that facilitates this connection with God. But why is Christianity so popular? How did the humble beginnings of a carpenter's son from over 2000 years ago grow to be the worldwide religious following that it is today? And what is the basis of this popular faith? These are just some of the questions that will be addressed in this book. For anyone considering becoming a Christian, this book is a great place to start finding answers and learning what it takes to convert into Christianity. So whether you're just curious to understand the religion better or you've already decided to convert, this book will give you the information you're looking for.

Our World Became Christian Paul Veyne,2013-10-29 This short book by one of France s leading historians deals with a big question how was it that Christianity that masterpiece of religious invention managed between 300 and 400 AD to impose itself upon the whole of the Western world In his erudite and inimitable way Paul Veyne suggests three possible explanations Was it because a Roman emperor Constantine who was master of the Western world at the time became a sincere convert to Christianity and set out to Christianize the whole world in order to save it Or was it because as a great emperor Constantine needed a great religion and in comparison to the pagan gods Christianity despite being a minority sect was an avant garde religion unlike anything seen before Or was it because Constantine limited himself to helping the Christians set up their Church a network of bishoprics that covered the vast Roman Empire and that gradually and with little overt resistance the pagan masses embraced Christianity as their own religion In the course of deciding between these explanations Paul Veyne sheds fresh light on one of the most profound transformations that shaped the modern world the Christianization of the West A bestseller in France this book will appeal to a wide readership interested in history religion and the rise of the modern
