Becoming Benjamin Franklin The Autobiography And The Life:

Becoming Benjamin Franklin Ormond Seavey, 1988 This is the first book to examine Franklin's Autobiography systematically in relation to the life history from which it was drawn It also considers the Autobiography in terms of eighteenth century conventions of autobiography and Enlightenment conceptions of the self Seavey emphasizes the cultural and historical importance of Franklin as a writer Unlike most historians treatments of Franklin this study sees Franklin's activity as author of his own life history as central to his importance thus locating Franklin's life in the history of self consciousness in the eighteenth century Unlike conventional approaches to biography Seavey's study sets apart the Autobiography and its provenance for special focus However like a biography this is also a study of Franklin's personality as it developed from his birth in Boston to his death His own self understanding has posed a particular challenge to the students of his life The great impediment to biographies of Franklin is that he took charge of the territory first He was intensely aware of his own identity all his life and this book takes a more comprehensive view of his writings as manifestation of a developing self

Romanticism and Parenting Carolyn Weber, 2009-03-26 If the child is the father of the man as William Wordsworth so famously declared then what of the father that child grows to become How does a daughter born of her mother's death as in the case of Mary Shelley navigate the politics of production and reproduction within a loaded language of mythological allusion between generational authorships How do the visual arts perpetuate or challenge cultural agendas such as portraying patriarchal anxieties about the effeminization of homeland by the foreign other or attempting iconically to save the soul of a nation How do parents both encode and decode our world With the rise of the cult of the child in the later 18th and 19th centuries Romantic writers of Britain and Europe and eventually of North America were perfectly positioned to explore by extension what it meant to parent whether it be in within the domestic or the political sphere The essays in *Romanticism and Parenting* Image Instruction and Ideology offer a fresh timely and cutting edge contribution to the field of Romantic studies The collection has its roots in conference proceedings from the 2005 Romanticism and Parenting Conference held at Seattle University in Seattle Washington Essays acknowledge traditional discussions of such quintessentially Romantic themes as the child education and familial politics while building upon contemporary innovative arguments within the contexts of Romanticism As a result chapters in the collection range from examining didactic children's literature to complicating constructions of the family politic at personal communal and nationalistic levels While challenging and deepening an understanding of Romantic studies the collection also points to current dynamic issues such as the burgeoning discussion of the experience that actual parents face in academia Consequently the collection reveals how the Romantic period has come to profoundly influence our own current constructions of the politics of parenting

Making the American Self Daniel Walker Howe,2009-09-22 Originally published in 1997 and now back in print Making the American Self by Daniel Walker Howe the Pulitzer Prize winning author of What Hath God Wrought charts the genesis and fascinating trajectory of a central idea in American history One of the most precious liberties Americans have always cherished is the ability to make something of themselves to choose not only an

occupation but an identity Examining works by Benjamin Franklin Jonathan Edwards Abraham Lincoln Frederick Douglass Henry David Thoreau Ralph Waldo Emerson Margaret Fuller and others Howe investigates how Americans in the 18th and 19th centuries engaged in the process of self construction self improvement and the pursuit of happiness He explores as well how Americans understood individual identity in relation to the larger body politic and argues that the conscious construction of the autonomous self was in fact essential to American democracy that it both shaped and was in turn shaped by American democratic institutions The thinkers described in this book Howe writes believed that to the extent individuals exercised self control they were making free institutions liberal republican and democratic possible And as the scope of American democracy widened so too did the practice of self construction moving beyond the preserve of elite white males to potentially all Americans Howe concludes that the time has come to ground our democracy once again in habits of personal responsibility civility and self discipline esteemed by some of America s most important thinkers Erudite beautifully written and more pertinent than ever as we enter a new era of individual and governmental responsibility Making the American Self illuminates an impulse at the very heart of the American experience
