Becoming Human Being Human:

Being Human, Becoming Human Brian Gregor, Jens Zimmermann, 2012-05-31 What does it mean to be human The German theologian Dietrich Bonhoeffer thought deeply about this questions out of a desire to understand the importance of Christ and the incarnation for modern culture His conviction that Christ died for a new humanity is at the core of his theological anthropology This collection assembles a distinguished and international group of scholars to examine Bonhoeffer s understanding of human sociality From the introduction of his dissertation *Sanctorum Communio* where he notes the social intention of all the basic Christian concepts to his final writings in prison where he describes Christian faith as being for others the theme of human sociality runs throughout Bonhoeffer s works This volume examines Bonhoeffer s rich resources for thinking about what it means to be human to be the church to be a disciple and to be ethically responsible in our contemporary world *Being Human Becoming Human* is vital reading for Bonhoeffer scholars as well as for those invested in theological debates regarding the social nature of human beings

one that necessarily ruptures the foundations of the human

Being Human in the Ultimate N. Georgopoulos, Michael Heim, 1995 For John M Anderson philosophy as the love of wisdom is a concern for what is ultimate The essays in this volume take to heart this understanding of philosophy and are therefore responses to the ultimate The first four essays by Kaelin Schrag Baillif and Johnstone deal with Anderson s own account of ultimacy as it is presented in his reflections on the aesthetic occasion the experience of the sublime on freedom and on insight The concern for what is ultimate is formulated differently by each of the other eight essays Desmond articulates ways of our encounter with the ultimate by means of what he calls essential perplexity Gendlin reflects on Aristotle s characterization of thinking as an activity that is ultimate Biemel and Lingis present death as an aspect of the ultimate Hersch sees our loss of meaning and value as the result of our refusal of finitude and thus of our denial of the ultimate which reveals itself in this finitude Ginsberg initiates us into the ultimacy of the human encounter that is dialogue Verene speaks of the ultimate through his account of the fool For Kockelmans philosophy unlike science deals with what is as it manifests itself in our encounter with our lived world which is a source of meaning and in that sense an ultimate Finally John M Anderson writes of the awareness of our becoming more than we are and does so by bespeaking the origin of the dialogue we are

Becoming Simple and Wise Joshua A. Kaiser, 2015-04-15 How does a Christian discern the will of God While this question lies at the heart of the Christian moral life religious communities struggle to articulate responses that balance simple faith and rational reflection Some characterize discernment as simple obedience to the commandments in Scripture others portray it as an exercise of human reason and conscience Dietrich Bonhoeffer the German theologian pastor and political conspirator who embodied a life of discernment amidst difficult circumstances in WWII Germany offers a compelling theological account of how to seek and respond to God's will By tracing Bonhoeffer's understanding of moral discernment throughout his writings and especially in his *Ethics* Joshua Kaiser demonstrates the importance of discernment for Bonhoeffer's vision of Christian ethics and explores how his view combines elements of simple faith and rational reflection While the results of the study will be significant for those interested in Bonhoeffer they will also be relevant to all who struggle along the path of Christian discipleship

Before Humanity Stefan Herbrechter, 2021-12-13 Before Humanity takes up the question of the post in the posthuman from the position of ancestrality Speculating about who or what comes after the human inevitably throws us back to our very beginnings The before in Before Humanity in this context takes on two meanings 1 what happened before we apparently became human which translates into a critical reading of paleo anthropology as well as evolutionary narratives of hominization 2 living through the end of a certain humanist anthropocentric notion of humanity what tasks lie before us which provokes a critical reading of the Anthropocene and current narratives of geologization In other words Before Humanity investigates conceptualizations of humanity and asks whether we have ever been human and if not what could or maybe what should we have been

We Ingolf U. Dalferth, 2024-08-27 We exist we exist as humans and as humans we can exist in a human or inhuman way We are not responsible for the fact that we exist or that we are human but we are responsible for how we live as humans Therefore we need to become clear about what it means to be human and to live in a human way today

Being Human in Digital Cities Myria Georgiou, 2023-11-28 How is life in digital cities changing what it means to be human In this perceptive book Myria Georgiou sets out to investigate the new configuration of social order that is taking shape in today's cities Although routed through extractive datafication compulsive connectivity and regulatory AI technologies this digital order nonetheless displaces technocentrism and instead promotes new visions of humanism all in the name of freedom diversity and sustainability But the digital order emerges in the midst of neoliberal instability and crises resulting in a plurality of contrasting responses to securing digitally mediated human progress While corporate media and state actors mobilize such positive sociotechnical imaginaries to promise digitally mediated human progress urban citizens and social movements propose alternative pathways to autonomy and dignity through and sometimes against digital technologies Investigating the dynamic workings of technology and power from a transnational and comparative perspective this book reveals the contradictory claims and

struggles for the future of digital cities and their humanity In doing so it will enrich understandings of digital urbanism critical data studies and critical humanist studies

Human Embrace Ronald L. Hall,2010-11-01 Starting from S ren Kierkegaard s insight that fully accepting the human condition requires one to live with the persistent temptation to escape from it Ronald Hall finds similar concerns reflected in the work of two modern day philosophers Stanley Cavell and Martha Nussbaum who equally find in a philosophy of love and marriage the key to understanding how humans may achieve happiness in the acceptance of their humanity All three thinkers follow a logic of paradox in showing how success in the human quest to be human depends crucially on the struggle humans experience with the ever present opportunities to pursue alternative paths What Kierkegaard called living existentially can be achieved only after confronting and refusing the possibilities of living in aesthetic ethical or even religious denial of one s true humanity By creating this

dialogue between the nineteenth century Danish thinker and two eminent twentieth century philosophers Hall reveals the continuing relevance of Kierkegaard's thought to our own age and its cogency as an interpretation of the human predicament

Welcome as a Way of Life Benjamin S. Wall, 2016-07-19 This book is about the theology of Jean Vanier. Drawing from Vanier's writings it situates Vanier's theological thinking on community care and what it means to be and become human in the context of welcome. This book draws attention to how welcome for Vanier is a visible expression of genuine hospitality, friendship and human growth offering an alternative way of conceiving and naming the social forming dynamics within Christian community with special attention given to how welcome occurs within the communities of L'Arche. At a deeper level this book assesses Vanier's thinking on the place and role both the self and community play in welcoming the truth of reality as it is revealed and given within community in order to prepare the way for exploring how welcome is a sign of community life, the visible expression of individual and communal trust in God's providence and a conduit of God's presence in the world.

Dictionary for Theological Interpretation of the Bible Kevin J. Vanhoozer, Craig G. Bartholomew, Daniel Treier, N.T. Wright, 2005-11-01 For the pastor or serious layperson the realm of biblical interpretation can be a confusing maze of personalities, communities, methods and theories. This maze can often result in obscuring the main goal of interpreting Scripture: hearing and knowing God better. The Dictionary for Theological Interpretation of the Bible is a groundbreaking reference tool that introduces readers to key names, theories and concepts in the field of biblical interpretation. It discusses these approaches and evaluates their helpfulness in enabling Christians to hear what God is saying to the church through Scripture. The contributors come from a variety of backgrounds and the dictionary covers a broad range of topics with both clarity and depth.

Our Bodies Are Selves Philip Hefner, Ann Pederson, Susan Barreto, 2015-08-11 Our Bodies Are Selves is a look at what it means to be human in a world where medical technology and emerging ethical insight force us to rethink the boundaries of humanity: spirit and man, machine. This book gives us a fresh look at how our expanding biological views of ourselves and our shared evolutionary history shows us a picture that may not always illumine who and where we are as Christians. Offering up Christian theological views of embodiment, the authors give everyday examples of lives of love, faith and bodily realities that offer the potential to create new definitions of what it means to be a faith community in an increasingly technological age of medicine.

Indwelling the Forsaken Other J. Matthew Bonzo, 2009-02-01 Indwelling the Forsaken Other is a critical reading of Jürgen Moltmann's ethics of discipleship. While Moltmann's notable turn to the inner life of the Trinity as a source for his reflections on the life of the church is influential, it is not without problems. The call emerging from Moltmann's reflection upon Trinitarian life to copy God in our relationships may offer some general direction for our actions; however, it also raises several questions. Two important questions for this work are: In what way are we to copy God? and What conditions make it possible to copy God? Moltmann's answers to these questions are insufficient and consequently he fails to protect the difference between Creator and creation in his analogia relationis. As a result, the ethical

direction of Moltmann's work seems to be increasingly muddled and at best paradoxical
