Becoming Literate Marie M. Clay,1991 Grade level 1 2 3 k e p t **Becoming Literate Update** Marie M.

Clay,2015-03-30 From her lifelong study of children s development and learning Marie Clay traces children s paths of progress in literacy learning Acclaimed a classic since its first publication *Becoming Literate The Construction of Inner Control* is essential reading for teachers and educators committed to enabling all children to become literate Effective teachers have a sense of the changes to expect as children begin to engage with early literacy instruction *Becoming Literate* provides a rich description of those progressions But Marie Clay does not prescribe instructional methods or sequences She urges teachers to base their teaching decisions on careful observation of children s reading and writing behaviours while questioning accounts that conflict with the patterns of responding that they observe The information and understandings in this book provide guidance for delivering powerful literacy learning experiences for all children in the early years of formal instruction from their first days of school to the relative independence of their third year Key chapter content includes language and literacy learning before school the transition to formal schooling and engagement with classroom programmes ways in which existing oral language competencies and knowledge of the world become linked with children s developing awareness of print the constraints and opportunities provided by different instructional approaches the development of processing activities such as self monitoring searching and self correcting A picture emerges of how competent young children construct self extending systems of literacy expertise Successful literacy learners call up a range of ways of working with the information in texts and become able to learn more from their own efforts to read and write text Finally aware that some children for a variety of reasons do not construct an inner control of literacy processing in their initial encounters with formal instruction Marie Clay argues that these children need extra resources and effective early intervention in order to build a sound foundation for further education **A Practical Guide to Teaching Reading in the Early Years** Ann

Cases of Successful Literacy Teachers Jan Lacina, Cecilia Silva, 2010-02-09 *Cases of Successful Literacy Teachers* is a supplemental text that can be used in a variety of literacy courses. The case studies focus on teachers and schools from a multitude of communities including Blue Ribbon Schools and Reading First Schools and on National Board Certified teachers. The vignettes and cases include students from diverse racial linguistic and socio-economic backgrounds located in urban, rural, and suburban settings.

Encyclopedia of Language and Education Viv Edwards, P. Corson, 2013-11-01 *Literacy* is the second volume of the *Encyclopedia of Language and Education*, the first attempt to overview an area which has emerged as a coherent and exciting field of study in the last two decades. While forming part of a series of eight volumes, *Literacy* also stands on its own, drawing on some 25 state-of-the-art reviews of current concerns in the study of literacy prepared by leading writers and researchers. The book is organised in four main sections: Reading, Writing, The Social Context of Literacy, and Literacy Teaching in Selected Regions. The approach is multidisciplinary, drawing on insights from fields as diverse as anthropology and computer science, sociolinguistics, and psychology. The international flavour of the volume is reflected not only in the choice of contributors from eleven different countries but also in the emphasis throughout on the impact of globalization on our understanding of literacy.

Reading Families Catherine Compton-Lilly, 2003 This dynamic text offers a rare glimpse into the literacy development of urban children and their families' role in it. Based on the author's candid interviews with her first-grade students, their parents, and grandparents, this book challenges the stereotypical view that urban parents don't care about their children's education. By listening closely to the voices of her students and their families, the author helps us to move beyond negative assumptions, revealing complexities that have previously been undocumented.

Young Researchers Margaret Mallett, 2002-02-07 Informational kinds of reading are crucial in every lesson. This book looks at how we can encourage children from the very beginning to think of themselves as young researchers using skills and strategies for clear purposes. It argues that the creative practitioner nurtures children's sense of wonder and curiosity about the world and all its phenomena. Packed full of advice on how to use the most stimulating and exciting texts and the liveliest approaches, the book celebrates the good practice of teachers and student teachers in a large number of classroom case studies. The content includes a summary of the recent developments and a framework of principles to inform good practice in this challenging aspect of literacy, chapters concentrating on particular age groups beginning with the nursery and ending with the later primary years, and thus taking up an essentially developmental approach, an assessment of recent research and how findings can be put to practical and creative use in the classroom. A central message is that children benefit from collaborating with teachers and peers at every stage of finding out. The spoken language energises informational reading and writing, making the sharing of the fruits of children's research highly enjoyable. This book will inspire you and lead to the very best practice.

Handbook of Reading Research Michael

L. Kamil, Peter B. Mosenthal, P. David Pearson, Rebecca Barr, 2014-04-08 In Volume III as in Volumes I and II the classic topics of reading are included from vocabulary and comprehension to reading instruction in the classroom and in addition each contributor was asked to include a brief history that chronicles the legacies within each of the volume's many topics. However, on the whole, Volume III is not about tradition. Rather, it explores the verges of reading research between the time Volume II was published in 1991 and the research conducted after this date. The editors identified two broad themes as representing the myriad of verges that have emerged since Volumes I and II were published: 1. broadening the definition of reading and 2. broadening the reading research program. The particulars of these new themes and topics are addressed. *Encyclopedia of Language and Education* David Corson, 1997 Made up of eight volumes, the *Encyclopedia of Language and Education* is the first attempt at providing an overview of the subject.

Invitations to Play Anne Burke, 2019-03-06 Through their earliest years of play, children develop a substantial body of skills and knowledge. The goal of this book is to bring children's play and curriculum expectations together so that children are engaged in learning that honours their existing knowledge and to help build a strong literacy foundation. A perfect blend of theory and instruction, this timely book offers background, research ideas, and strategies to create an exciting array of possibilities for using children's play as an infinitely rewarding learning resource. It asks and answers fundamental questions about preparing young children for lifelong learning.

Teaching Primary English Eve Bearne, David Reedy, 2023-07-31 Now in its second edition, *Teaching Primary English* is a bestselling, comprehensive, evidence-informed guide designed to support and inspire teaching and learning in the primary school. Written in a clear and accessible way, it draws on the very latest research and theory to describe and exemplify a full and rich English curriculum. It offers those on teacher training courses as well as qualified teachers who are looking to develop their practice invaluable subject knowledge and guidance for effective, enjoyable classroom practice. Throughout, there is an emphasis on equity and inclusion. Advice and ideas are supported by explicit examples of good teaching linked to video clips filmed in real schools, reflective activities, observational tasks, and online resources. Each chapter includes suggestions for great children's literature, considers assessment throughout, and offers support in planning for inclusion and special educational needs. New and expanded areas for this edition include Multimodal texts, Increased coverage of Early Years Dialogic learning and oracy, Comprehensive companion website with revised and additional resources, A new section on digital literacies, Reading for pleasure, Teaching grammar in context, Critical literacy. With a focus on connecting all modes of English, the global and the local, and home and school experience, this detailed, uplifting book includes inspiring case studies throughout and will support you in developing a curious, critical approach to teaching and learning English. Additional content can be found on the fantastic supporting website. Sharing the Journey David Yellin, 2017-05-12 This wonderful resource from two authors with an infectious enthusiasm for children's literature will help readers select and share quality books for and with young children. Specifically focused on infants through the third grade, *Sharing the Journey* contains descriptive book annotations, instructive commentary, and creative teaching activities tailored for those important years. Extensive book lists throughout will help readers build a library of quality children's literature. Books representing other cultures are included to help celebrate diversity as well as cultural connection. Genre chapters include poetry, fantasy, and realistic and historical fiction. A chapter on informational books demonstrates how young children can be introduced to and learn to enjoy nonfiction. Threads of Reading Karen

Tankersley, 2003 A K-12 guide distills reading skills down to six fundamentals, helping to pinpoint reading problems and remedy them with the appropriate strategies and activities. **Engaging Young Readers** Linda Baker, Mariam Jean Dreher, John T. Guthrie, 2000-03-07 This volume demonstrates how promoting children's engagement with reading can greatly enhance reading achievement. From leading literacy researchers and educators, the book illuminates what a child needs to become an engaged reader and presents a set of instructional principles designed to facilitate this goal. Helping teachers offer a coordinated emphasis on competence and motivation in reading instruction, chapters blend research evidence with practical recommendations. Topics covered include ways to provide children with a good foundation at the word level, help if they are in trouble, ample time and materials for reading opportunities to share in a community of learners, instruction that is coherent, motivating, and responsive to each child's strengths and weaknesses, school-wide coordination of instruction, and continuities between home and school. *Other People's Words* Victoria Purcell-Gates, 1997-03-25 Literacy researchers have rarely studied families of urban Appalachian background, yet as Purcell-Gates demonstrates, their often severe literacy problems provide a unique perspective on literacy and the relationship between print and culture.
