Becoming Orthodox A Journey To The Ancient Christian Faith:

Becoming Orthodox Peter E. Gillquist, 1992 This is the story of a handful of courageous men and their congregations who risked stable occupations security and the approval of life long friends to be obedient to God's call It is also the story of every believer who is searching for the Church Where Christ is Lord Where holiness human responsibility and the sovereignty of God are preached Where fellowship is more than a covered dish supper in the church basement And where fads and fashions take a backseat to apostolic worship and doctrine This is a book for Orthodox Christians looking for ways to bring new life to their own Churches It's also a book for those completely dissatisfied those on their own search And it's a book for Orthodox Christians looking for renewal Orthodox Christianity Carl S. Tyne, 2003 The Orthodox Church is one of the three major branches of Christianity There are over 300 million adherents throughout the world The Orthodox Church is a fellowship of independent churches which split from the Roman Church over the question of papal supremacy in 1054 The Orthodox adherents include people in Greece Georgia Russia and Serbia There are an estimated one million members in the United States This Advanced book explains the basic principles of Orthodox Christianity and describes in detail the holidays observed by the Orthodox Church In addition relevant book literature is presented in bibliographic form with easy access provided by title subject and author indexes **A History of Christian Conversion** David W. Kling, 2020 In this first in depth and wide ranging history of Christian conversion David Kling examines the dynamic of turning to the Christian faith by individuals families and people groups Global in reach and engaging recent methods and theories in conversion studies the narrative progresses from early Christian beginnings in the Roman world to Christianity's expansion into Europe the Americas China India and Africa Although conversion is often associated with a particular strand of modern Christianity evangelical and a particular type of experience sudden overwhelming when examined over two millennia it emerges as a phenomenon far more complex than any one dimensional profile would suggest **Vatican II** William Madges, 2011-09-22 Original essays explore the effects and influences of the Second Vatican Council particularly on its understanding of church engagement with the modern world and encounters with other religions Contributors include Philip A Franco St John's University New York Peter C Phan Georgetown University Christopher D Denny St John's University New York Harriet A Luckman College of Mount Saint Joseph Alice L Laffey College of the Holy Cross Francis Holland St John's University New York Jason King St Vincent College William French Loyola University Chicago Christine Firer Hinze Marquette University Victor Lee Austin Saint Thomas Church New York John Sniegocki Xavier University Elaine Catherine MacMillan University of San Diego Paul F Knitter Xavier University Reid B Locklin St Michael's College University of Toronto Elena G Procaro Foley Iona College Phillip Luke Sinitiere University of Houston Orthodox Christians and the Rights Revolution in America A. G. Roeber, 2024-01-02 A distinctive and unrivaled examination of North American Eastern Orthodox Christians and their encounter with the rights revolution in a pluralistic American society From the civil rights movement of the 1950s to the

culture wars of North America commentators have identified the partisans bent on pursuing different rights claims When religious identity surfaces as a key determinant in how the pursuit of rights occurs both the religious right and liberal believers remain the focus of how each contributes to making rights demands How Orthodox Christians in North America have navigated the rights revolution however remains largely unknown From the disagreements over the rights of the First Peoples of Alaska to arguments about the rights of transgender persons Orthodox Christians have engaged an Anglo American legal and constitutional rights tradition But they see rights claims through the lens of an inherited focus on the dignity of the human person In a pluralistic society and culture Orthodox Christians both converts and those with family roots in Orthodox countries share with non Orthodox fellow citizens the challenge of reconciling conflicting rights claims Those claims do pit religious liberty rights claims against perceived dangers from outside the Orthodox Church But internal disagreements about the rights of clergy and people within the Church accompany the Orthodox Christian engagement with debates over gender sex and marriage as well as expanding political legal and human rights claims Despite their small numbers North American Orthodox remain highly visible and their struggles influential among the more than 280 million Orthodox worldwide Orthodox Christians and the Rights Revolution in America offers an historical analysis of this unfolding story

The Holiness-Pentecostal Tradition Vinson Synan, 1997-08-25 Called a pioneer contribution by Church History when it was first published in 1971 as *The Holiness Pentecostal Movement in the United States* this volume has now been revised and enlarged by Vinson Synan to account for the incredible changes that have occurred in the church world during the last quarter of the twentieth century Synan brings together the stories of the many movements usually listed as holiness pentecostal or charismatic and shows that there is an identifiable second blessing tradition in Christianity that began with the Catholic and Anglican mystics that was crystallized in the teaching of John Wesley and that was further perpetuated through the holiness and Keswick movements of the nineteenth and twentieth centuries to the appearance of modern Pentecostalism Synan then chronicles the story of the spread of Pentecostalism around the world after the heady days of the Azusa Street awakening with special attention given to the beginnings of the movement in those nations where Pentecostalism has become a major religious force He also examines the rise of various mainline church charismatic movements that have their roots in Pentecostalism Because of the explosive growth of the Pentecostal movement in the last half of the century Pentecostals and Charismatics now constitute the second largest family of Christians in the world after the Roman Catholic Church This could well be the major story of Christianity in the twentieth century writes Synan Pentecostalism has grown beyond a mere passing movement and can now be seen as a major Christian tradition alongside the Roman Catholic Orthodox and Reformation Protestant traditions *The Holiness Pentecostal Tradition* will continue to be an important handbook for shaping our understanding of this phenomenon

Word and Power Gareth W. D. Stewart, 2015-02-16 Historically the Reformed and Charismatic streams have seemed to be almost mutually exclusive In recent years this exclusivity has been being challenged by a new generation of Reformed thinkers This work aims at considering the contribution of John Wimber the late leader of the Vineyard Churches to contemporary theological reflection within the Reformed tradition Taking into account John Wimber's unique theology of the radical middle which is somewhere between Pentecostal and Evangelical this book asks whether Wimber may be a possible alternative source for the contemporary Reformed Churches as they approach ministry and mission in the twenty first century Written from a confessional Presbyterian context in Northern Ireland Word and Power places Wimber in his theological context and asks whether Wimber's view of power evangelism discipleship formation and ministry training might be a model that Reformed Churches and Presbyterians in particular could adopt for their ecclesiology today

Apostles of Reason Molly Worthen, 2016 In *Apostles of Reason* Molly Worthen offers a sweeping history of modern American evangelicalism arguing that the faith has been shaped not by shared beliefs but by battles over the relationship between faith and reason

The Scandal of Evangelism Elmer John Thiessen, 2018-04-26 In today's multi cultural and multi religious world evangelism is often viewed as scandalous not only by those who are opposed to anything religious but also by many Christians In this book Elmer Thiessen provides a response to those who find most or even all Christian evangelism objectionable He does this through a careful analysis of what the Bible says about the ethics of evangelism Based on this inductive study mainly of the New Testament Thiessen proposes thirty guidelines for ethical evangelism Part II examines some specific contexts that pose unique challenges for doing evangelism ethically evangelism of children evangelism within a professional context like the secular academy evangelism within the context of humanitarian aid and finally the problem of proselytism understood in the special and narrow sense of sheep stealing

Inaugurations Stanley E. Porter, 2017-09-25 The inaugural lecture is a tradition that has been practiced in western universities for centuries These lectures originated in the great universities of continental Europe spread to Great Britain and then to North America The tradition has now been appropriated further by universities around the world and

especially of late in majority world countries The inaugural lecture is a form of academic discourse in which the recipient of a suitable academic honor usually the bestowal of a form of professorial appointment offers a public lecture in recognition of the event McMaster Divinity College follows in this academic tradition by attaching public inaugural lectures to the appointment of scholars to professorial positions and in particular to those appointed to endowed and named professorial chairs within the institution McMaster Divinity College currently has six such endowed named chairs held by its faculty This volume contains the six lectures by those in these six chairs representing the fields of preaching theology pastoral studies Christian worldview ministry studies and Christian history Each of these inaugural lectures is a contribution to scholarship in the field and a token of the inaugural professorial lecture

The Crisis of Evangelical Christianity Keith C. Sewell, 2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orb'd understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century

Visual Arts in the Worshiping Church DeBoer, 2016 Although numerous studies have examined biblical and theological rationales for using the visual arts in worship this book by Lisa J DeBoer fills in a piece of the picture missing so far the social dimensions of both our churches and the various art worlds represented in our congregations The first part of the book looks at Orthodoxy Catholicism and Protestantism in turn including case studies of specific congregations showing how each tradition's use of the visual arts reveals an underlying ecclesiology DeBoer then focuses on six themes that emerge when Orthodox Catholic and Protestant uses of the visual arts are examined together the arts as expressions of the church's local and universal character the meanings attributed to particular styles of art for the church the role of the arts in enculturating the gospel and more DeBoer's Visual Arts in the Worshiping Church will focus and deepen the thinking of pastors worship leaders artists students and laypeople regarding what the arts might do in the midst of their congregations
