Bedford Square An Architectural Study:

Bedford Square Andrew Byrne,1990 **Bedford Square** ,1965 *Architecture, City, Environment* Koen Steemers,Simos Yannas,2000 PLEA is a network of individuals sharing expertise in the arts sciences planning and design of the built environment It serves as an international interdisciplinary forum to promote discourse on environmental quality in architecture and planning This 17th PLEA international conference addresses sustainable design with respect to architecture city and environment at the turn of the millennium The central aim of the conference is to explore the interrelationships and integration of architecture city and environment The Proceedings will be of interest to all those involved in bioclimatic design and the application of natural and innovative techniques to architecture and planning The conference is organised by the Martin Centre for Architectural and Urban Studies University of Cambridge and the Cambridge Programme for Industry University of Cambridge **Drawing Architecture and the Urban** Sam Jacoby,2016-04-25 Drawing is an important means to analyse information and develop rigorous arguments both conceptually and visually Going beyond the how to drawing manual this book provides an instrumental approach to drawing especially computer generated drawings it outlines how drawings should be used to convey clear and analytical information in the process of design as well as the communication and discussion of a project In depth examples are provided how to communicate effectively The final section demonstrates how to transform case studies directly connecting an analytical approach with the design process **London** Paul Knox,2024-04-23 A lively new history of London told through twenty five buildings from iconic Georgian townhouses to the Shard A walk along any London street takes you past a wealth of seemingly ordinary buildings an Edwardian church modernist postwar council housing stuccoed Italianate terraces a Bauhaus inspired library But these buildings are not just functional They are evidence of London s rich and diverse history and have shaped people s experiences identities and relationships In this engaging study Paul L Knox traces the history of London from the Georgian era to the present day through twenty five surviving buildings Knox explores where people lived and worked from grand Regency squares to Victorian workshops and highlights the impact of migration gentrification and inequality We see famous buildings like Harrods and Abbey Road Studios and everyday places like Rochelle Street School and Thamesmead Each historical period has introduced new buildings and old ones have been repurposed As Knox shows it is the living history of these buildings that makes up the vibrant but exceptionally unequal city of today **The Town House in Georgian London** Rachel Stewart,2009 This title takes a fresh look at a familiar building type the town house in 18th century London and investigates the circumstances in which individuals made decisions about living in London and particularly about their West End house *The Garden Squares of Boston* Phebe S. Goodman,2003 Of the many types of historic landscapes that have become treasured open spaces in North America s dense urban fabric the garden or residential square largely has been overlooked Yet the garden square played an important role in the planning of Philadelphia Savannah Boston and New York several of

America's major early cities Boston's garden squares most closely resemble the squares of London in purpose and appearance. Intended as speculative real estate ventures, the London garden squares were distinguished by row houses and ornamental iron fences enclosing gardens planted with trees and grass. The gardens served as welcome patches of greenery for affluent residents who chose to live in relatively cramped quarters within the city. As such, gardens were the *raison d'être* for this early form of urban design. Although garden squares pre-date well-documented municipal parks, the historical significance of these squares is not fully understood. In this remarkable book, Goodman tells the story of Boston's garden squares and offers her readers a fascinating glimpse of early urban planning. Goodman traces Charles Bulfinch's connection with these historic landscapes and compares them to their London prototypes. While Bostonians and others are familiar with Boston's iconic Louisburg Square on Beacon Hill, few people know that Boston's South End neighborhood boasts a group of eight garden squares. After discussing London squares and their effect on urban planning in several eastern seaboard cities, Goodman turns to Boston's three privately developed garden squares, all of which were located close to the original center of the city. She pays special attention to Louisburg Square, the only one that has survived. Focusing on the characteristic landscape features that define the gardens, Goodman also showcases the five of the eight publicly developed garden squares of the South End: Blackstone Square, Franklin Square, Chester Square, Union Park, and Worcester Square. Concluding with a chapter on the evolution and preservation of the garden squares of the South End, Goodman discusses private versus public ownership and access, maintenance, and preservation treatments, issues that provide practical information helpful in the management of historical as well as contemporary landscapes. She urges a combined effort of neighborhood groups and the public sector to maintain these squares. Otherwise, she warns, the future of these historic garden squares will be in jeopardy.

Study Abroad / Etudes À L'étranger / Estudios en El Extranjero, 1989-05-03 **London, a Social History** Roy Porter, 1998. An extraordinary city, London grew from a backwater in the Classical Age into an important medieval city and significant Renaissance urban center to a modern colossus full of a free people ever evolving. Roy Porter touches the pulse of his hometown and makes it our own, capturing London's fortunes, people, and imperial glory with vigor and wit. 58 photos.

Modernist Semis and Terraces in England Finn Jensen, 2012. Between the two World Wars, there was an unprecedented need for new houses in Britain, which resulted in a building boom. While only a small percentage of this building took the form of Modernism, there was still a significant number of semis and terraces built for the workers and middle-class families in the 1920s and 1930s, built in this style. This book examines these modest Modernist houses within the broader context of the Modern Movement in Europe as well as the inter-war building boom in suburban Britain. Illustrated with line drawings and photographs of more than 30 examples from around the country and based on little-known contemporary material such as catalogues, advertisements, radio broadcasts, and letters, it shows how these houses speak of a time of political, social, and artistic unrest and a world where the avant-garde architects sought to capture the spirit of modern technology in their

designs for the average home owner While the Modernist houses never became popular with the general public the fact that so many are still standing and now sought after by twenty first century families speak for their endurance and special appeal

The Spirit of Span Housing James Strike,2005 What is Architectural History? Andrew Leach,2013-05-03 What is Architectural History considers the questions and problems posed by architectural historians since the rise of the discipline in the late nineteenth century How do historians of architecture organise past time and relate it to the present How does historical evidence translate into historical narrative Should architectural history be useful for practicing architects If so how Leach treats the disciplinarity of architectural history as an open question moving between three key approaches to historical knowledge of architecture within art history as an historical specialisation and most prominently within architecture He suggests that the confusions around this question have been productive ensuring a rich variety of approaches to the project of exploring architecture historically Read alongside introductory surveys of western and global architectural history this book will open up questions of perspective frame and intent for students of architecture art history and history Graduate students and established architectural historians will find much in this book to fuel discussions over the current state of the field in which they work **Awards for Graduate Study and Research** Statistics Canada,1973 Building reputations Conor Lucey,2018-05-10 Taking a cue from revisionist scholarship on early modern vernacular architectures and their relationship to the classical canon this book rehabilitates the reputations of a representative if misunderstood building typology the eighteenth century brick terraced house and the artisan communities of bricklayers carpenters and plasterers responsible for its design and construction Opening with a cultural history of the building tradesman in terms of his reception within contemporary architectural discourse chapters consider the design decoration and marketing of the town house in the principal cities of the eighteenth and early nineteenth century British Atlantic world The book is essential reading for students and scholars of the history of architectural design and interior decoration specifically and of eighteenth century society and culture generally **Directory of British Architects, 1834-1914** Antonia Brodie,British Architectural Library,Royal Institute of British Architects,2001-12-20 A comprehensive biographical directory of some 11 000 British architects who worked between 1834 and 1914 **American Book Publishing Record** ,1990 *Experiments in Modern Living* Milton Cameron,2012-05-01 When a group of brilliant young scientists arrived in Australia s national capital after World War II to take up leading roles in the establishment of national research institutions they commissioned Australia s leading architects to design their private houses The houses that resulted from these unique collaborations rejected previous architectural styles and wholeheartedly embraced modernist ideologies and aesthetics The story of how these progressive clients contributed to the innovative design of their houses brings fresh insights to mid twentieth century Australian domestic architecture and to Canberra s rich cultural history Tall Buildings: From Engineering To Sustainability Y K Cheung,Kwong Wing Chau,2005-12-06 A collection of papers presented at the Sixth International Conference on Tall

Buildings ICTB this volume clearly explains the engineering and socio economic aspects of tall buildings in specific areas of sustainability The papers focus on Asian cities where tall buildings have become a major feature of the built environment A multi disciplinary book it also deals with the increasing complexity of inter related problems that require knowledge integration from different disciplines With interesting contributions from distinguished practitioners academics and policy makers the book addresses the development and application of knowledge in solving problems related to tall buildings

The Ethics of Kinship James D. Faubion, 2001 Collects eleven written primarily by anthropologists and graduate students at Rice University focusing on a variety of complex kinship arrangements involving entanglements of nation class ethnicity gender and desire Topics include reflections on relatives and relational dynamics in Trinidad the public politics of intimacy in the Bloomsbury Group and families of origin families of choice and class mobility Annotation copyrighted by Book News Inc Portland OR
