The Media, Animal Conservation and Environmental Education John Blewitt, 2013-10-31 Natural History filmmaking has a long history but the generic boundaries between it and environmental and conservation filmmaking are blurred Nature environment and animal imagery has been a mainstay of television campaigning organisations and conservation bodies from Greenpeace to the Sierra Club with vibrant images being used effectively on posters leaflets and postcards and in coffee table books media releases short films and viral emails to educate and inform the general public However critics suggest that wildlife film and photography frequently convey a false image of the state of the world s flora and fauna The environmental educator David Orr once remarked that all education is environmental education and it is possible to see all image based communication in the same way The Media Animal Conservation and Environmental Education has contributions from filmmakers photographers researchers and academics from across the globe It explores the various ways in which film television and video are and can be used by conservationists and educators to encourage both a greater awareness of environmental and conservation issues and practical action designed to help endangered species This book is based on a special issue of the journal Environmental Education Research [The Gift of Birding](#) Kevin R. Shackleton, 2024-04-15 It is never too late to become a birder The materials available for the beginning bird watcher birder are designed to make taking up the pastime easy Today s binoculars and spotting scopes are much improved on those available thirty years ago Websites like eBird can help keep track of bird sightings and let the novice know when and where to find more birds Applications like Merlin help with visual and sound identification Field guides are now fully illustrated with colour plates as opposed to a few pages in the oldest field guides If you have ever thought you would like to know more about birding this could be the introduction you have been seeking

Better Birding George L. Armistead, Brian L. Sullivan, 2016 Better Birding reveals the techniques expert birders use to identify a wide array of bird species in the field quickly and easily Featuring hundreds of stunning photos and composite plates throughout this book simplifies identification by organizing the

birds you see into groupings and offering strategies specifically tailored to each group Skill building focuses not just on traditional elements such as plumage but also on creating a context around each bird including habitat behavior and taxonomy parts so integral to every bird's identity but often glossed over by typical field guides Critical background information is provided for each group enabling you to approach bird identification with a wide angle view using your eyes brain and binoculars more strategically resulting in a more organized approach to learning birds Better Birding puts the thrill of expert bird identification within your reach Reveals the techniques used by expert birders for quick and easy identification Simplifies identification with strategies tailored to different groupings of birds Features hundreds of photos and composite plates that illustrate the different techniques Fosters a wide angle approach to field birding Provides a foundation for building stronger birding skills

For the Birds Elizabeth Cherry, 2019-09-13 2020 Award for Distinguished Book from the Animals Society Section of the American Sociological Association One in five people in the United States is a

birdwatcher yet the popular understanding of birders reduces them to comical stereotypes obsessives who only have eyes for their favorite rare species In real life however birders are paying equally close attention to the world around them observing the devastating effects of climate change and mass extinction while discovering small pockets of biodiversity in unexpected places For the Birds offers readers a glimpse behind the binoculars and reveals birders to be important allies in the larger environmental conservation movement With a wealth of data from in depth interviews and over three years of observing birders in the field environmental sociologist Elizabeth Cherry argues that birders learn to watch wildlife in ways that make an invaluable contribution to contemporary conservation efforts She investigates how birders develop a naturalist gaze that enables them to understand the shared ecosystem that intertwines humans and wild animals an appreciation that motivates them to participate in citizen science projects and wildlife conservation *Magazines for Libraries* William A.
