A Glossary of Old Syrian Joaquin Sanmartín, 2024-06-05 A Glossary of Old Syrian is the first of two volumes aimed at the completion of a lexicographical index of the Old Syrian linguistical continuum This glossary gives a picture or map of the Old Syrian lexicon as it can be extracted and reconstructed from the available sources from the Old Akkadian Eblatic through the Old and Middle Babylonian corpora Old Syrian can be defined most appropriately as a diachronically conservative geographically pluricentric and pragmatically multilayered linguistic cluster Therefore the present work pays special attention to the distribution of lexical data along diatopic and diastratic criteria In view of the enormous amount of material and the dispersion of the data this glossary focuses on the most representative textual corpora of the Old Syrian linguistic landscape The bibliographical references are kept deliberately succinct and as a rule restricted to the classic works that may be easily found in every Assyriological or Semitic library public or private and that will redirect the users to their sources Since the Old Syrian lexicography remains uncertain the leading interpretative opinions are included alongside the most relevant comparative Semitic material A Glossary of Old Syrian offers a clear picture of the current state of this field and is intended to serve as a reference work in support of future study **Return of the Peregrine** Tom J. Alphabetic Tradition (2 vols) Gregorio del Olmo Lete, Joaquín Sanmartín, 2015-02-04 As any dictionary of a dead language the present aims to indicate the stage reached by the Ugaritic consonantal lexicography and to serve as a reference work This edition includes the whole of the new discovered materials Brenton's Septuagint, Restored Names Version, Volume 1 Clinton R Smith, 2014-04-11 The Septuagint is the only extant Greek translation from a Hebrew MSS that is currently lost to us The Greek Septuagint and its Autograph were extensively used before the Christian era as has been testified to by historians and many similarities manifest in the Dead Sea Scrolls During the age of the Messiah and the Apostles it appears they exclusively used either the Greek Septuagint or its Autograph as is demonstrated by the parallels found in their quotes from the Hebrew Scriptures O T The Septuagint persevered into the age of the early Church Fathers where after it inexplicably fell into disuse This is a fresh approach to Sir Brenton's translation in that this it restores the original Hebrew Names as found in the Masoretic Text While this approach may seem like a glaring paradox it may however be reasoned that a more satisfying though not perfect English translation has subsequently evolved Catalogue of the Books in the Library of the Indian Museum Indian Museum.
