garden shrubberies orchards spinneys and meadow where birds are tempted to come by the planting of fruit bushes and strawberry beds in all directions by the numbers of elder trees and mountain ash set out by the encouragement of blackberries and dog roses wherever they can be allowed to grow and where birds are tempted to stay in winter by liberal scatterings of grain foods and table scraps Within this little estate there were one year forty nests of thrush and blackbird Now supposing these birds bred only once in the year which is very improbable and reared only three birds apiece which is equally so and that half were killed or died during the year there would then be left twice as many thrushes as in the year before Forty pairs would become eighty eighty a hundred and sixty a hundred and sixty three hundred and twenty and so on till five years later there would be over ten thousand pairs of thrushes allowing all along for the same excessive proportion of casualties breeding on thirty acres and if each pair hatched five birds there would be fifty thousand thrushes all together To be continue in this ebook Field & Stream, 1988-07 FIELD STREAM America's largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations Forest and Stream ,1897 *Life Histories of North American [birds].:* Cuckoos, goatsuckers, hummingbirds and their allies Arthur Cleveland Bent, 1940 Folk-lore from Adams county, Illinois H.
