in the global economy and shows that the old market rules were rooted in longstanding political and regional compromises. He describes the process of detailed and difficult intergovernmental collaboration required for the EU and now Canada and Australia to produce new market rules. The resulting reforms created new regimes that provide deeper and broader national economic integration in Canada and Australia than in the EU. The new rules entrench neo liberal values retaining some room for diversity and flexibility for equity goals. Built on a careful analysis of the differences and similarities in political economy, constitutional design, federal culture and history of intergovernmental relations in Canada and Australia, *Market Rules* provides fresh evidence that federal states can be strong and autonomous in the global society while underscoring the conditions for effective collaboration that make this sustainable. Rich in detail, broad in scope, *Market Rules* makes a significant contribution to knowledge about federalism and economic policy making in the era of globalization.

**Forthcoming Books** Rose Arny, 1997 Educational Outcomes for the Canadian Workplace Jane Stobo Gaskell, Kjell Rubenson, 2004-01-01 *Educational Outcomes for the Canadian Workplace* explores how educational programs are changing which skills matter in the economy and how policy has responded to the educational and economic pressures of the 1990s.

Cardiovascular Health Care Economics William S. Weintraub, 2003-06-25 An illuminating and timely synthesis of methodological and clinical studies showing how medical costs can be established, how the value of clinical outcomes can be assessed and how difficult choices can be rationally made. The methodological chapters review the conceptual and practical issues involved in estimating and interpreting health care costs, making health status and utility assessments and statistically analyzing cost effectiveness and clinical trials. The clinical chapters apply these methods to the major clinical areas of cardiology: primary prevention of coronary artery disease, acute coronary syndromes, angioplasty vs coronary bypass surgery, CABG vs medicine, congestive heart failure, arrhythmias and cardiac surgery. Additional chapters consider the use of economic studies for policy purposes and the future of Medicare under a balanced budget in an aging America. **Interest Groups**

**and Campaign Finance Reform in the United States and Canada** Robert G. Boatright, 2011-03-03 *Interest groups shape tactics in response to restrictions on campaign activities*. **Sociology for the Twenty-first Century** Janet L.

Abu-Lughod, 1999 These original essays by eminent sociologists probe issues of central importance to North American societies in the twenty first century. The chapters in part 1 revise theory and methods to comprehend the economic and political institutions that increasingly dominate the lives of individuals and groups, arguing that these giants must be made more democratically accountable. Part 2 explores the social effects that growing globalization, transnationalization and information technologies are having on politics, economics and the environment. The final chapters compare how new immigrants from increasingly diversified backgrounds are being absorbed in Canada and the United States, exploring the impact that immigrants are having on preexisting ethnic minorities and on the dominant political culture. While it is a major attempt to refocus the discipline of sociology, the book's clear nontechnical style and its attention to issues of central concern

to all citizens make it also highly accessible to nonspecialists Contributors are Janet L Abu Lughod Tomas Almaguer Giovanni Arrighi Gilles Bourque Randall Collins Jules Duchastel Joe Feagin Harriet Friedmann Pierre Hamel Moon Kie Jung Joel Levine Henri Lustiger Thaler Louis Maheu Joel Perlmann Saskia Sassen Gideon Sjoberg Dorothy Smith Roger Waldinger and Barry Wellman The Canadian Global Almanac ,1994 **Changing Values, Persisting Cultures** Thorleif Pettersson,Yilmaz Esmer,2008-03-15 In 1981 the European and World Values surveys started the empirical investigation of cultural values on a global scale This volume builds upon the findings of these surveys and analyzes value change in a number of key countries around the globe The authors track value change and stability in their respective countries during the last decade the last two decades where data are available of the 20th century All authors have been actively involved in value surveys and have a great deal of expertise in countries that they write on Thus the volume is a valuable complement to studies that deal with the topic from a global perspective without providing any detail about individual societies The countries covered are Argentina Austria Canada Denmark France Germany Mexico the Netherlands South Africa South Korea Spain Sweden Turkey and the United States *The Atlas of U.S. and Canadian Environmental History* Char Miller,2003-08-08 This visually dynamic historical atlas chronologically covers American environmental history through the use of four color maps photos and diagrams and in written entries from well known scholars Organized into seven categories each chapter covers agriculture wildlife and forestry land use and management technology and industry polluti *Bibliographic Guide to Maps and Atlases* ,1997 **Canadian Journal of Earth Sciences** ,2003 *Governing Higher Education: National Perspectives on Institutional Governance* Alberto Amaral,Glen A.
