Salvatore, 1996 To further PasTest s Essential MCQs range here is a book for medical students studying for their Obstetrics and Gynaecology exams It offers three practice papers with mixed questions and revision checklists that cover all topics [Prisons, Inmates and Governance in Latin America](#) Máximo Sozzo, 2022-04-29 This edited collection addresses the topic of prison governance which is crucial to our understanding of contemporary prisons in Latin America It presents social research from Nicaragua the Dominican Republic Venezuela Colombia Ecuador Brazil Peru Uruguay and Argentina to examine the practices of governance by the prisoners themselves in each unique setting in detail High levels of variation in the governance practices are found to exist not only between countries but also within the same country between prisons and within the same prison and between different areas The chapters make important contributions to the theoretical concepts and arguments that can be used to interpret the emergence dynamics and effects of these practices in the institutions of confinement of the region The book also addresses the complex task of explaining why these types of practices of governance happen in Latin American prisons as some of them appear to be a legacy of a remote past but others have arisen more recently It makes a vital contribution to the fundamental debate for prison policies in Latin America about the alternatives that can be promoted [The Birth of the Penitentiary in Latin America](#) Ricardo D. Salvatore, Carlos Aguirre, 2010-07-05 Opening a new area in Latin American studies *The Birth of the Penitentiary in Latin America* showcases the most recent historical outlooks on prison reform and criminology in the Latin American context The essays in this collection shed new light on the discourse and practice of prison reform the interpretive shifts induced by the spread of criminological science and the links between them and competing discourses about class race nation and gender The book shows how the seemingly clear redemptive purpose of the penitentiary project was eventually contradicted by conflicting views about imprisonment the pervasiveness of traditional forms of repression and control and resistance from the lower classes The essays are unified by their attempt to view the penitentiary as well as the variety of representations conveyed by the different reform movements favoring its adoption as an interpretive moment revealing of the ideology class fractures and contradictory nature of modernity in Latin America As such the book should be of interest not only to scholars concerned with criminal justice history but also to a wide range of readers interested in modernization social identities and the discursive articulation of social conflict The collection also offers an up to date sampling of new historical approaches to the study of criminal justice history illuminates crucial aspects of the Latin American modernization process and contrasts the Latin American cases with the better known European and North American experiences with prison reform

on prisons and imprisonment *Raising the Living Dead* Alberto Ortiz Díaz, 2023-03-08 An eye opening look at how incarcerated people health professionals and others behind and beyond bars came together to problem solve incarceration Raising the Living Dead is a history of Puerto Rico's carceral rehabilitation system that brings to life the interactions of incarcerated people their wider social networks and health care professionals Alberto Ortiz Díaz describes the ways that multiple communities of care came together both inside and outside of prisons to imagine and enact solution oriented cultures of rehabilitation from the 1930s to the 1960s Scientific and humanistic approaches to well being were deliberately fused to raise the living dead an expression that reemerged in the modern Caribbean to refer to prisoners These reform groups sought to raise incarcerated people physically mentally socially spiritually and civically The book is based on deep original archival research into the Oso Blanco White Bear penitentiary in Puerto Rico yet it situates its study within Puerto Rico's broader carceral archipelago and other Caribbean prisons The agents of this history include not only physical health professionals but also psychologists and psychiatrists social workers spiritual and religious practitioners and of course the prisoners and their families By following all these groups and emphasizing the interpersonal exercise of power Ortiz Díaz tells a story that goes beyond debates about structural and social control The book addresses key issues in the history of prisons and the histories of medicine and belief including how prisoners different racial class and cultural identities shaped their incarceration and how professionals living in a colonial society dealt with the challenge of rehabilitating prisoners for citizenship Raising the Living Dead is not just about convicts their immediate interlocutors and their contexts however but about how together these open a window into the history of social uplift projects within the neo colonial societies of the Caribbean There is no book like this in Caribbean historiography few examine these themes in the larger literature on the history of prisons **Prisons and Crime in Latin America** Marcelo Bergman, Gustavo Fondevila, 2021-03-11 This

groundbreaking work examines Latin America's prison crisis and the failure of mass incarceration policies As crime rates rose over the past few decades policy makers adopted incarceration as the primary response to public outcry Yet as the number of inmates increased crime rates only continued to grow Presenting new cross national data based on extensive surveys of inmates throughout the region this book explains the transformation of prisons from instruments of incapacitation deterrence and rehabilitation to drivers of violence and criminality Bergman and Fondevila highlight the impacts of internal drug markets and the dramatic increase in the number of imprisoned women Furthermore they show how prisons are not isolated from society they are sites of active criminal networks with many inmates maintaining fluid criminal connections with the outside world Rather than reducing crime prisons have become an integral part of the crime problem in Latin America **La prisión y las instituciones punitivas en la investigación histórica** Pedro Oliver Olmo, Jesús Carlos Urda Lozano, 2014-09-23 La Historia Social de las Instituciones Punitivas est necesitada en España de encuentro y debate de confrontación y colaboración entre investigadores e investigadoras Solo así lograr hacerse visible e inteligible como tendencia

historiográfica y sobre todo como apuesta teórica metodológica porque de hecho ya es más que creíble como práctica historiográfica. Aquí en este libro junto a los logros también se perfilan las carencias y los retos más acuciantes. Lejos de buscar una autonomía extemporánea la Historia Social de las Instituciones Punitivas quiere buscar su propia viabilidad a base de intersecciones y buenas mezclas. Esos objetivos se planteaba el Grupo de Estudio sobre la Historia de la Prisión y las Instituciones Punitivas GEHPIP, un equipo interuniversitario y con sede en la Universidad de Castilla-La Mancha UCLM al organizar lo que de forma homónima decidí titular I Congreso Internacional sobre Historia de la Prisión y las Instituciones Punitivas celebrado en Ciudad Real entre el 10 y el 12 de abril de 2013. El libro electrónico que aquí se presenta es una buena muestra de lo que allí se comunicó y discutió. Social History of Punitive Institutions in Spain needs meetings and discussions, comparison and collaboration between researchers. Only then it will become visible and intelligible as a historiographical trend and above all as a theoretical methodological hope because in fact now it is more than conceivable as a historiographical practice. Here in this book are outlined along with the achievements, the shortcomings and the most pressing challenges. Far from seeking an extemporaneous autonomy, Social History of Punitive Institutions wants to try to find its own feasibility based on intersections and good mixings. Those objectives were considered by the Study Group about History of Prison and Punitive Institutions. Grupo de Estudio sobre la Historia de la Prisión y las Instituciones Punitivas GEHPIP, an interuniversity team and with central office at Universidad de Castilla-La Mancha UCLM when organising what it decided to name in an homonymous way 1st International Congress on History of Prison and Punitive Institutions. I Congreso Internacional sobre Historia de la Prisión y las Instituciones Punitivas held in Ciudad Real, Spain from 10 to 12 April 2013. The electronic book here presented is a good example of what it was told and discussed there.

Prisons in the Americas in the Twenty-First Century Marten W. Brien, Jonathan D. Rosen, 2015-04-09. This volume on penitentiary systems in the Americas offers a long overdue look at the prisons that exist at the forefront of the ongoing struggle against drugs and violence throughout North Central and South America and the Caribbean. From Haiti to Bolivia, the authors examine the conditions in these systems and allow several common themes to emerge, including the alarming prevalence of lengthy pre-trial detention and the often abysmal living conditions in these institutions. Taken together, this comprises the first comparative overview of the use and abuse of prisons in the Americas.

A Carceral Ecology Ryan C. Edwards, 2021-12-28. Closer to Antarctica than to Buenos Aires, the port town of Ushuaia, Argentina, is home to a national park as well as a museum housed in the world's southernmost prison. Ushuaia's radial panopticon operated as an experimental hybrid penal colony and penitentiary from 1902 to 1947, designed to revolutionize modern prisons globally. A Carceral Ecology offers the first comprehensive study of this notorious prison and its afterlife, documenting how the

Patagonian frontier and timber economy became central to ideas about labor rehabilitation and resource management Mining the records of penologists naturalists and inmates Ryan C Edwards shows how discipline was tied to forest management but also how inmates gained situated geographical knowledge and reframed debates on the regeneration of the land and the self Bringing a new imperative to global prison studies Edwards asks us to rethink the role of the environment in carceral practices as well as the impact of incarceration on the natural world

Afterlives of Confinement Susana Draper, 2015-08-15

During the age of dictatorships Latin American prisons became a symbol for the vanquishing of political opponents many of whom were never seen again In the postdictatorship era of the 1990s a number of these prisons were repurposed into shopping malls museums and memorials Susana Draper uses the phenomenon of the opening of prisons and detention centers to begin a dialog on conceptualizations of democracy and freedom in post dictatorship Latin America Focusing on the Southern Cone nations of Uruguay Chile and Argentina Draper examines key works in architecture film and literature to peel away the veiled continuity of dictatorial power structures in ensuing consumer cultures The afterlife of prisons became an important tool in the forgetting of past politics while also serving as a reminder to citizens of the liberties they now enjoyed In Draper s analysis these symbols led the populace to believe they had attained freedom although they had only witnessed the veneer of democracy in the ability to vote and consume In selected literary works by Roberto Bola o Eleuterio Fernandez Huidoboro and Diamela Eltit and films by Alejandro Agresti and Marco Bechis Draper finds further evidence of the emptiness and melancholy of underachieved goals in the afterlife of dictatorships The social changes that did not occur the inability to effectively mourn the losses of a now hidden past the homogenizing effects of market economies and a yearning for the promises of true freedom are thematic currents underlying much of these texts Draper s study of the manipulation of culture and consumerism under the guise of democracy will have powerful implications not only for Latin Americanists but also for those studying neoliberal transformations globally

On the Backs of Tortoises Elizabeth Hennessy, 2019-10-29 An insightful exploration of the iconic Gal pagos tortoises and how their fate is inextricably linked to our own in a rapidly changing world Finalist for the 2020 E O Wilson Literary Science Writing Award sponsored by PEN America Literary Awards

The Gal pagos archipelago is often viewed as a last foothold of pristine nature For sixty years conservationists have worked to restore this evolutionary Eden after centuries of exploitation at the hands of pirates whalers and island settlers This book tells the story of the islands namesakes the giant tortoises as coveted food sources objects of natural history and famous icons of conservation and tourism By doing so it brings into stark relief the paradoxical and impossible goal of conserving species by trying to restore a past state of prehistoric evolution The tortoises Elizabeth Hennessy demonstrates are not prehistoric but rather microcosms whose stories show how deeply human and nonhuman life are entangled In a world where

evolution is thoroughly shaped by global history Hennessy puts forward a vision for conservation based on reckoning with the past rather than trying to erase it Fresh insightful Hennessy s melding of human and natural history makes for thought provoking reading Booklist starred review Gripping well researched and thought provoking whether you re well versed in the intricacies of conservation or have only just begun to long for a look at the tortoises yourself On the Backs of Tortoises is a natural history that asks important questions and challenges us to think about how best to answer them Genevieve Valentine NPR Wonderfully interesting informative and engaging as well as scholarly Janet Browne author of Charles Darwin Voyaging and Charles Darwin The Power of Place **Bibliographic Guide to Latin American Studies 1996** G K HALL,G. K. Hall and Co. Staff,1997-07 **Gothic Sovereignty** Jon Horne Carter,2022-02-01 Gang related violence has forced thousands of Hondurans to flee their country leaving behind everything as refugees and undocumented migrants abroad To uncover how this happened Jon Carter looks back to the mid 2000s when neighborhood gangs were scrambling to survive state violence and mass incarceration locating there a critique of neoliberal globalization and state corruption that foreshadows Honduras s current crises Carter begins with the story of a thirteen year old gang member accused in the murder of an undercover DEA agent asking how the nation s seductive criminal underworld has transformed the lives of young people He then widens the lens to describe a history of imperialism and corruption that shaped this underworld from Cold War counterinsurgency to the War on Drugs to the near impunity of white collar crime as he follows local gangs who embrace new trades in the illicit economy Carter describes the gangs transformation from neighborhood groups to sprawling criminal societies even in the National Penitentiary where they have become political as much as criminal communities Gothic Sovereignty reveals not only how the revolutionary potential of gangs was lost when they merged with powerful cartels but also how close analysis of criminal communities enables profound reflection on the economic legal and existential discontents of globalization in late liberal nation states
