## **Birth Without Doctors Conversations With Traditional Midwives:**

Birth Without Doctors Jacqueline Vincent-Priya, 2013-11-05 Most women giving birth in rural communities throughout the Third World cannot enjoy the benefits of modern medical assistance They are usually too expensive and too far away This book is the result of journeys and conversations between the author traditional midwives and mothers which took place over several years in Malaysia and Indonesia It describes traditional birthing practices and the communities in which they have arisen For normal births the safety record is impressive but so too is the reassurance of ritual and the incorporation of birthing into family and society It is interesting to discover that many practices are based not only on religious understandings but also on sound herbal medical precautions The book's point is not merely to demonstrate the skill of the traditional midwives nor even to challenge what seems to be the medical view that pregnancy is an illness but to give an insight into worlds where barefoot midwifery is the norm Originally published in 1991 *Birth without doctors* Jacqueline Vincent Priva, 2013 Traditional Midwives Robbie Davis-Floyd, Betty-Anne Daviss, Inayat Ali, 2025-10-30 *Traditional Midwives Cross Cultural Perspectives* is a pioneering work that delves deeply into the worlds of traditional midwives shedding light on their practices roles and the immense cultural value they hold within their respective communities wherever they are still allowed to practice This book not only champions the significance of traditional midwifery but also critiques the often misguided global and national initiatives that seek to move all childbirths into biomedical facilities These facilities as clearly shown by the chapters in this book are frequently underequipped and under staffed often providing substandard care that can often be obstetrically violent and abusive The push to move all births into such facilities disregards the quality of care that traditional midwives provide and undermines the trust and rapport they have built within their respective communities This global push is particularly detrimental to rural women because biomedical facilities are often located far away from such communities This geographical distance makes access to maternity care difficult if not impossible especially for rural women Furthermore almost none of the biomedical practitioners are willing to live and practice in such remote areas thereby leaving thousands of especially rural women without any maternity care provision Other critical points that this book addresses are the failures of the governmental efforts to train traditional midwives in higher level skills As the chapters in this book also clearly demonstrate the essence of traditional midwifery lies in experiential learning where skills are passed down through observation practice and mentoring By bringing to light the multiple challenges that are currently being faced by traditional midwives and the shortcomings of biomedical facilities this book serves as a crucial reminder of the need for culturally safe and sensitive community based maternity care that traditional midwives are fully able to provide It is an essential read for policymakers healthcare professionals students and for anyone who is interested in traditional midwives and their practices Childbirth, Midwifery and Concepts of Time Christine McCourt, 2009 All cultures are concerned with the business of childbirth so much so that it can never be described as a purely physiological or even

psychological event This volume draws together work from a range of anthropologists and midwives who have found anthropological approaches useful in their work Using case studies from a variety of cultural settings the writers explore the centrality of the way time is conceptualized marked and measured to the ways of perceiving and managing childbirth how women midwives and other birth attendants are affected by issues of power and control but also actively attempt to change established forms of thinking and practice The stories are engaging as well as critical and invite the reader to think afresh about time and about reproduction

**National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 *Childbirth and Authoritative Knowledge* Robbie E. Davis-Floyd,Carolyn Fishel Sargent,2023-04-28 This benchmark collection of cross cultural essays on reproduction and childbirth extends and enriches the work of Brigitte Jordan who helped generate and define the field of the anthropology of birth The authors focus on authoritative knowledge the knowledge that counts on the basis of which decisions are made and actions taken highlights the vast differences between birthing systems that give authority of knowing to women and their communities and those that invest it in experts and machines Childbirth and Authoritative Knowledge offers first hand ethnographic research conducted by anthropologists in sixteen different societies and cultures and includes the interdisciplinary perspectives of a social psychologist a sociologist an epidemiologist a staff member of the World Health Organization and a community midwife Exciting directions for further research as well as pressing needs for policy guidance emerge from these illuminating explorations of authoritative knowledge about birth This book is certain to follow Jordan s *Birth in Four Cultures* as the definitive volume in a rapidly expanding field This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 This benchmark collection of cross cultural essays on reproduction and childbirth extends and enriches the work of Brigitte Jordan who helped generate and define the field of the anthropology of birth The authors focus on authoritative knowledge the kn

*Daughters of Hariti* Santi Rozario,Geoffrey Samuel,2003-09-02 Hariti is the ancient Indian goddess of childbirth and women healers known at one time throughout South and Southeast Asia from India to Nepal and Bali Daughters of Hariti looks at her daughters today female midwives and healers in many different cultures across the region It also traces the transformation of childbirth in these cultures under the impact of Western biomedical technology national and international health policies and the wider factors of social and economic change The authors ask what can be done to improve the high rates of maternal and infant deaths and illnesses still associated with childbirth in most societies in this area and whether the wholesale replacement of indigenous knowledge by Western biomedical technology is necessarily a good thing Midwifery and the Medicalization of Childbirth Edwin R. Van Teijlingen,2004 This book provides an introduction to the sociological

study of midwifery The readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalization of childbirth It highlights the major themes in both a historical and a current context as well as western and non western societies Two major themes underlie the organization of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalization of midwifery is crucial to an understanding of the historical current and future status of midwifery By medicalization of childbirth and midwifery the author mean the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one **Manifest Sacred**

**Birthing** Ishtara Blue,2013-11-26 Intuitive Birthing a term coined by Ishtara is not about right and wrong ways of birthing but to help you access your intuition easily in order to birth how it is right for you to birth By following the Manifest Sacred Birthing Programme you can birth connected and tuned in to follow your unique body signals and intuition so that your birth can be blissful and pain free If you are in a sacred place you hear your intuition easily so you can open your light womb up wide When you cannot hear the inner voice you act from a place of fear you are scared It is this fear which blocks the birth hormones from being released and prevents you from opening up your womb easily and without pain The key intuitive birthing techniques which are an integral part of the 40 day programme include visualisation mantra meditation ceremony and more and are designed for regular practise from around week twenty of the pregnancy but to familiarise yourself with from before that time then to use during the actual birth itself You can use the Intuitive Birthing techniques contained within this programme for many other birthing and pregnancy issues resolve conception difficulties release heal and forgive past birth trauma or use them to connect to your intuition as a parent Packed full of birthing visualisations this is the ultimate book in Spiritual Birth I followed the programme in 2011 and used it to deal with issues that arose during my meditations and unexpectedly healed old wounds as well as my relationship then went onto have an even more beautiful and wonderful birth than the one I imagined and asked for Thank you Ishtara for these tools to joyfully birth our beautiful baby girl Christa Rose therapist This is a beautiful and intuitive book exploring the spiritual approach to birth preparation Connection with your baby is the primary focus of this gentle programme by Ishtara Blue encouraging each mother to envision and create her ideal birth using visualisation and empowerment techniques drawing wisdom from a variety of traditional and New Age sources Claire Arnold doula Culture, Spirituality and Religious Literacy in Healthcare Daniel Enstedt,Lisen

Dellenborg,2023-10-19 Elaborating with the concepts of culture and religious literacy this volume examines theoretical methodological and empirical aspects of the practice and study of religion and non religion culture spirituality and worldviews within healthcare In modern multi cultural and multi religious societies a host of new issues have arisen concerning culture religion and spirituality within healthcare especially when people face serious and life limiting illness

Healthcare professionals are faced with challenges addressing and handling patients cultural expressions of religiosity spirituality and existential concerns The variety needs to be met without essentializing the concepts of culture and religion and with an ability to include the non religious as well as new types of spiritualities This collection reflects on the tension between cultural religious and spiritual dimensions of care in a secularized healthcare institution and describes implications of this tension for healthcare professionals and patients The book engages with an ongoing scholarly discussion about religious literacy in healthcare and contributes perspectives experiences and empirical examples from the Nordic countries especially Sweden It gives suggestions for practical application of research to healthcare practice highlighting challenges and ideas for how to integrate religious non religious and spiritual dimensions in care This is an important contribution to the literature on religious literacy and provides a vital reference for students scholars and healthcare professionals with an interest in the complex relationship between culture spirituality and religion in healthcare Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Knowledge and Learning in the Andes** Henry Stobart, Rosaleen Howard, 2003-05-01 The aim of this book is to explore the current research into the ways in which Andean peoples create transmit maintain and transform their knowledge in culturally significant ways and how processes of teaching and learning relate to these The contributions from eminent researchers in anthropology sociology cultural studies and linguistics include cross disciplinary approaches and cover a diverse geographic area from Ecuador to Peru Bolivia and Northern Chile The case studies reflect on the variously harmonious and conflictive relationships between knowledge power communicative media and cultural identities in Andean societies from within local national and global perspectives *Traditional Birthing Practices of Nyuh Kuning, Gianyar Regency, Bali, Indonesia* Gina M. Farber, 1998

**Emotions in Midwifery and Reproduction** Billie Hunter, Ruth Deery, 2008-10-28 With contributions from a range of leading international authors this stop and make you think book explores the many contemporary issues surrounding emotion work in reproductive healthcare The editors forerunners in their field have brought together both theoretical and clinical aspects to challenge readers to consider the significance of this important topic in their day to day work Using examples of maternity care and infertility settings from the UK and beyond and with an emphasis on personal reflection throughout the book explores the subjects of Emotional well being Client practitioner relationships Infertility Loss Breast feeding Motherhood Emotions in Midwifery and Reproduction underlines the importance of emotions and how they are managed experienced and negotiated in clinical settings addressing issues that are frequently overlooked in the drive for efficiency and effectiveness in the health service It is stimulating reading for all midwifery and nursing students and practitioners looking to understand their patients and their own emotional needs **Midwives Chronicle and Nursing Notes**, 1994 *Women and Environments*, 1991

**Whitaker's Book List**, 1991 Resurgence, 1991 African American Midwifery in the South Gertrude Jacinta

FRASER,2009-06-30 Starting at the turn of the century most African American midwives in the South were gradually excluded from reproductive health care Gertrude Fraser shows how physicians public health personnel and state legislators mounted a campaign ostensibly to improve maternal and infant health especially in rural areas They brought traditional midwives under the control of a supervisory body and eventually eliminated them In the writings and programs produced by these physicians and public health officials Fraser finds a universe of ideas about race gender the relationship of medicine to society and the status of the South in the national political and social economies Fraser also studies this experience through dialogues of memory She interviews members of a rural Virginia African American community that included not just retired midwives and their descendants but anyone who lived through this transformation in medical care especially the women who gave birth at home attended by a midwife She compares these narrations to those in contemporary medical journals and public health materials discovering contradictions and ambivalence was the midwife a figure of shame or pride How did one distance oneself from what was now considered superstitious or backward and at the same time acknowledge and show pride in the former unquestioned authority of these beliefs and practices In an important contribution to African American studies and anthropology African American Midwifery in the South brings new voices to the discourse on the hidden world of midwives and birthing

**The Rhetoric of Midwifery** Mary M. Lay,2000 What roles should midwives play within our healthcare system Must they have certified degrees and be under the jurisdiction of a professional board Do notions of gender create competition and erect barriers between the medical professions The Rhetoric of Midwifery offers new insights into understanding these questions within the context of our present day medical system As a point of departure Mary M Lay analyzes the public discussion over non academically trained or direct entry midwives within Minnesota From 1991 1995 that state held public hearings about the possible licensing of traditional midwives Lay focuses on these debates to examine the complex relationships of power knowledge and gender within the medical profession Lay examines the hearings and provides a framework for appreciating the significance of these debates She also details the history of midwifery highlighting ongoing concerns that have surfaced ever since the profession was created centuries ago In the remaining chapters she focuses on the key testimonies offered during the debates Capturing the actual testimony of midwives home birth parents nurses physicians and attorneys The Rhetoric of Midwifery reveals how the modern medical profession seeks to claim authority about birth Lay bolsters her argument by culling from such sources such as historical documents an internet discussion group and conversations with modern midwives As our medical healthcare system continues to undergo convulsive change The Rhetoric of Midwifery will continue to enlighten challenge and inform

**Messages from the Gods** Michael J. Balick,Rosita Arvigo,2015 The unrivaled and comprehensive guide to the healing and other useful plants of Belize containing over 900 species accounts 600 illustrations and detailed discussion of the medicinal and other traditional applications of local plants collected through a unique partnership with traditional healers and bushmasters
