The civilization of ancient Egypt has been a source of fascination for explorers and scholars for centuries and has occupied a special place in the imagination of the public ever since early travellers' descriptions and illustrations of the strange culture of temples, tombs, and hieroglyphs began to circulate around the world. The story of Egyptology, from a hobby for the educated and wealthy to a highly formalized academic discipline, provides the key to understanding how and why we know what we know about ancient Egypt. This biographical dictionary tells the stories of the most important contributors and will be an indispensable reference tool for scholars and enthusiasts alike. Who Was Who in Egyptology remains one of the most important reference works for understanding the characters that contributed to the field of Egyptology and Egyptian archaeology from the Napoleonic invasion of Egypt through to the present day. The fifth edition brings entries up to 2019 and is expected to be the last volume produced in print. Library of the World's Best Literature, Ancient and Modern: Biographical dictionary Charles Dudley Warner, 1898 *Library of the World's Best Literature, Ancient and Modern: Dictionary of authors* Charles Dudley Warner, Hamilton Wright Mabie, Lucia Isabella Gilbert Runkle, George Henry Warner, 1897 A Library of the World's Best Literature - Ancient and Modern - Vol. XLII (Forty-Five Volumes); Dictionary of Authors (A-J) Charles Dudley Warner, 2008-07-01. Popular American essayist, novelist, and journalist CHARLES DUDLEY WARNER (1829-1900) was renowned for the warmth and intimacy of his writing, which encompassed travelogue, biography, and autobiography, fiction, and more, and influenced entire generations of his fellow writers. Here, the prolific writer turned editor for his final grand work, a splendid survey of global literature, classic and modern, and it is not too much to suggest that if his friend and colleague Mark Twain, who stole Warner's quip about how everybody complains about the weather but nobody does anything about it, had assembled this set, it would still be hailed today as one of the great achievements of the book world. Volume 42 is Part One of a dictionary of authors from Alexis Aar to Juvenal that serves as a handy condensed reference to the authors quoted in the first 40 volumes, as well as a guide to thousands more authors whose works are notable but not featured in this set.
