Birth Bond Reunions Between Birthparents And Adoptees What Happens After:

Fathers and Forefathers Martin Robb ,2020-12-15 Research on fathers and fatherhood has blossomed in recent years focusing for the most part on present day fathering experiences but also beginning to uncover hidden narratives of past fatherhood This collection aims to add something new to this expanding field by exploring the dynamic relationship between present and past fatherhoods The popular understanding of fathers in past generations as being detached and uninvolved in the lives of their children can be said to play a significant part in the construction of modern fathering identities with ideas of new fatherhood being played off against notions of historical fathering practices However research has begun to show that these popular myths often misremember the past judging it by current standards and obscuring the diverse nature of fathering practices in the recent and distant past A genealogical approach is able to critically examine these intergenerational constructions of fatherhood and more positively illuminate the ways in which experiences of fathering and being fathered are passed on between generations The contributions to this collection use a genealogical approach broadly defined to fathering and fatherhood as a way of defamiliarizing accepted narratives and suggesting new ways of thinking about men and their relationships with their children *Jean Paton and the Struggle to Reform American Adoption* E. Wayne Carp,2014 Adoption activist Jean Paton 1908 2002 fought tirelessly to reform American adoption dedicating her life to overcoming American society's prejudices against adult adoptees and women who give birth out of wedlock From the 1950s until the time of her death Paton wrote widely and passionately about the adoption experience corresponded with policymakers as well as individual adoptees promoted the psychological well being of adoptees and facilitated reunions between adoptees and their birth parents She also led the struggle to re open adoption records creating a national movement that continues to this day While open adoption is often now the rule for adoptions within the United States for those in earlier eras adopted in secrecy the records remain sealed many adoptees live and die without vital information that should be a birthright and birth parents suffer a similar deprivation At this writing only seven of fifty states have open records Kansas and Alaska have never closed theirs E Wayne Carp's masterful biography of Jean Paton brings this neglected civil rights pioneer and her accomplishments into the light Paton's ceaseless activity created the preconditions for the explosive emergence of the adoption reform movement in the 1970s She founded the Life History Study Center and Orphan Voyage and was also instrumental in forming two of the movement's most vital organizations Concerned United Birthparents and the American Adoption Congress Her unflagging efforts over five decades helped reverse social workers harmful policy and practice concerning adoption and sealed adoption records and change lawmakers enactment of laws prejudicial to adult adoptees and birth mothers struggles that continue to this day Read more about Jean Paton at <http://jeanpaton.com>

Mothers of Adult Children Marguerite Guzman Bouvard, 2013-09-12 Mothers of Adult Children elucidates what happens when children come of age and leave home creating new lives in the realms of work and relationships Mothers from around the world learn that this is the point in which their relationships with their children must drastically change Mothers often come to terms with the changes by accepting differences and providing moral and emotional support when needed However the evolutionary nature of mothers roles

throughout the course of their children's lives is not only determined by the mother-child dynamic. The mothering of adult children is a transformative role, and the stories presented here show that the dynamics between mother and child are also influenced by cultural events. Accidents, disasters, war, and other hardships also intervene in these stories of multicultural motherhood. This book reveals the problems mothers of adult children face and celebrates the outstanding accomplishments of those who mother through hardship.
