

BABY BIRTH TRADITIONS:

Philippines

Giving Birth

Some individuals believe that they can naturally induce birth by drinking coconut water.

The Placenta

Burying the placenta after birth signifies the conclusion of mother's labor pains. The father usually does this.

Postpartum Care

The new mother receives time to recover; meanwhile, her family often looks after her and assists with general chores.

Breastfeeding

Colostrum, which will come from the new mom's first lactation, is not believed to be healthy for the baby, hence, formula is given until the mother produces regular milk

The Baptism

During this process, crying from the baby actually signifies a prosperous future

Manzoor Bhat, Dr. Rashid Manzoor Bhat, This book explores culture as a dynamic process shaped by migration colonial encounters language religion and globalization It shows how traditions adapt resist and transform over time focusing on hybridity identity and belonging Through historical and contemporary case studies it reveals culture's resilience creativity and continuous reinvention across generations Memories of Jesus Halvor Moxnes, 2021-02-09 This is a different book about Jesus It does not study the Gospels as sources for the historical Jesus but reads them as memories about Jesus each Gospel with its characteristic picture of Jesus The book traces the transmission and growth of memories of Jesus in various contexts and in different historical periods It also introduces readers to the little known counterstories to Christian memories in Jewish sources as well as to the rival stories in the Quran A central perspective in the book is the troubling fact that for centuries the memories of Jesus contributed to hate speech against the Jews in Europe The passion narratives in the Gospels put the blame for the death of Jesus upon Jewish leaders and these stories were transmitted across the centuries as historical truth Memories of Jesus have served as identity markers not only for churches but also for societies and countries The last chapters focus on how the memories of Jesus have played an important role in supporting the identity of oppressed and marginalized groups in particular in the contemporary United States Near Birth Dr. Andrea Lilly Ford, 2025-03-11 This insightful study of contemporary birthing uses the work of doulas to explore the questions raised near birth What do we value and how do we navigate those values when they are tangled in conflict Pregnancy birthing and infant care offer a microcosm of cultural debates In this ethnography of childbearing in Northern California Andrea Ford examines how people's birthing decisions and experiences relate to and construct the American ideal of the individual through the values of progress experience autonomy equality authenticity immunity and redemption Both an anthropologist and a doula who has observed and participated in dozens of births Ford explores how parents practitioners activists laws technologies media and medical institutions shape the politics of care Near Birth shows that questions about the best way to have a baby concern much more than health procedures In the answers lie often unacknowledged claims about what kinds of personhood matter and what ways of living are valued and valuable *Mukti: Free to Be Born Again* Sachi G. in India The Cambridge History of the American Essay Christy Wampole, Jason Childs, 2023-12-14 From the country's beginning essayists in the United States have used their prose to articulate the many ways their individuality has been shaped by the politics social life and culture of this place The Cambridge History of the American Essay offers the fullest account to date of this diverse and complex history From Puritan writings to essays by Indigenous authors from Transcendentalist and Pragmatist texts to Harlem Renaissance essays from New Criticism to New Journalism The story of the American essay is told here beginning in the early eighteenth century and ending with the vibrant heterogeneous scene of contemporary essayistic writing The essay in the US has taken many forms nature writing travel writing the genteel tradition literary criticism hybrid genres such as the essay film and the photo essay Across genres and identities this volume offers a stirring account of American essayism into the twenty first century *No Alternative* Rosalynn A. Vega, 2018-11-14 Recent anthropological scholarship on new midwifery centers on how professional midwives in various countries are helping women reconnect with nature teaching them to trust in their bodies respecting women's choices and fighting for women's right to birth as naturally as possible In *No Alternative* Rosalynn A Vega uses ethnographic accounts of natural birth practices in Mexico to complicate these narratives about new midwifery and illuminate larger questions of female empowerment citizenship and the commodification of indigenous culture by showing how alternative birth actually reinscribes traditional racial and gender hierarchies Vega contrasts the vastly different birthing experiences of upper class and indigenous Mexican women Upper class women often travel to birthing centers to be delivered by professional midwives whose methods are adopted from and represented as indigenous culture while indigenous women from those same cultures are often forced by lack of resources to use government hospitals regardless of their preferred birthing method Vega demonstrates that women's empowerment having a choice is a privilege of those capable of paying for private medical services albeit a dubious privilege as it puts the burden of correctly producing future members of society on women's shoulders Vega's research thus also reveals the limits of citizenship in a neoliberal world as indigeneity becomes an object of consumption within a transnational racialized economy Sources of Tibetan Tradition Kurtis R.
