NATO Nuclear Strategy: Some Lessons from History John Slessor,1964 *U.S. Trotskyism 1928-1965. Part II: Endurance* Paul Le Blanc,Thomas Bias,Bryan D. Palmer,2018-11-26 U S Trotskyism 1928 1965 Part II Endurance The Coming American Revolution is the second of a documentary trilogy on a revolutionary socialist split off from the U S Communist Party reflecting Leon Trotsky s confrontation with Stalinism in the global Communist movement Spanning 1941 to 1956 this volume surveys the Second World War internationally and on the homefront the momentous post war strike wave ongoing efforts to comprehend and struggle against racism as well as the early years of the Cold War and anti Communist repression in the United States Also covered are internal debates and splits among Trotskyists themselves including a far reaching split in the international Trotskyist movement the Fourth International in the face of a persistent and expanding Stalinism Scholars and activists will find much of interest in these primary sources Transcultural Poetics Yifeng Sun,Dechao Li,2023-02-09 This book examines many facets of transcultural poetics in the English translation of Chinese literature from 12 different expert contributors Translating Chinese literature into English is a special challenge There is a pressing need to overcome a slew of obstacles to the understanding and appreciation of Chinese literary works by readers in the English speaking world Hitherto only intermittent attempts have been made to theorize and explore the exact role of the translator as a cultural and aesthetic mediator informed by cross cultural knowledge awareness and sensitivity Given the complexity of literary translation sophisticated poetics of translation in terms of literary value and aesthetic taste needs to be developed and elaborated more fully from a cross cultural perspective It is therefore necessary to examine attempts to reconcile the desire for authentic transmission of Chinese culture with the need for cultural mediation and appropriation in terms of the production and reception of texts subject to the multiplicity of constraints in order to shed new light on the longstanding conundrum of Chinese English literary translation by addressing Chinese literature in the multiple contexts of nationalism cross cultural hybridity literary untranslatability the reception of translation and also world literature The book will be of great interest to students and scholars of translation studies Chinese literature and East Asian studies Presentation Outlines and Reading List ,1962 *Hungary, Post Report* ,1984 *National Security Seminar* Industrial College of the Armed Forces (U.S.),1963 *Anti-American Myths* Arnold Beichman,2023-05-09 In his probing new introduction to Anti American Myths which was initially published twenty years ago as Nine Lies About America Arnold Beichman notes a powerful fact what makes the United States unique is not only its military power nor its huge economy nor even its great

technological innovations Rather what differentiates the nation from virtually all others is that there is no large scale territorial movement whose sponsors seek to secede from the country and to establish a new nation And yet anti Americanism has characterized a small portion of ideologists whom Beichman refers to as radical egalitarians These prophets of doom still abound Everywhere the glib accusations are leveled America is sick racist materialist aggressive decadent and only violent revolution can save it Even the collapse of the Soviet Union and of socialist regimes in Eastern Europe has not quelled the rhetoric of anti Americanism It is Beichman s aim to explain the roots of such persistent opposition to American society as presently constructed Tom Wolfe in his Foreword shrewdly observes This is not a book about America it is a book that uses the subject of the United States as a device with which to explore the modern intellectual s retrograde habits of mind Beichman finds nothing particularly amusing about what American intellectuals do to rationality and the English language let alone the common weal when they get on the subject of the United States But I for one find his demonstration of the hash these men have made of the mother tongue extremely entertaining When initially published Beichman s classic was termed powerful persuasive and credible a laser beam of fact and reason by the Los Angeles Times and a most valuable antidote to a lot of cliché thinking and cliché thinking and cliché writing by the New York Times Edwin McDowell in his review for the WaH Street Journal reminds the reader that Beichman is not a rightwinger bent on defining the status quo but unabashedly a man of the left an important figure in the international trade union movement Anti American Myths will be of interest to intellectual historians political scientists sociologists and all readers interested in contemporary social and political affairs
