**The Holocaust** David M. Crowe, 2021-12-30. Now in its second edition, this book takes a fresh probing look at one of the greatest human tragedies in modern history. Beginning with a detailed overview of the history of the Jews and their two millennia-old struggle with the anti-Judaic and anti-Semitic prejudice and discrimination that set the stage for the Holocaust, David M. Crowe discusses the evolution of Nazi racial policies beginning with the development of Adolf Hitler's anti-Semitic ideas, their importance to the Nazi movement in the 1920s and 1930s, and their expanding role in the evolution of German policies leading to the Final Solution in 1941, the mass murder of Jews throughout Nazi-occupied Europe. The German program involved the creation of death camps like Auschwitz and Treblinka and mass murder sites throughout Eastern Europe and the Soviet Union. While the Jews were the principal victims, other groups who were deemed racial or biological threats to Hitler's goal of creating an Aryan pure Europe were also targeted, including the Roma and the handicapped. This book discusses Nazi policies in each country in German-occupied Europe as well as the role of Europe's neutrals in the larger German scheme of things. It also takes an in-depth look at liberation, Displaced Persons, the founding of Israel, and efforts throughout the western world to bring Nazi war criminals and their collaborators to justice. This second edition includes a new chapter on the importance of memory and the Holocaust, the evolution of interpretative Holocaust scholarship, and media, recent controversies about national responsibility, and the work of Holocaust museums, archives, and libraries in Israel, Germany, Poland, and the United States to promote Holocaust education and memory. It concludes with the rise of Neo-Nazism, white nationalism, and other movements in Germany and the

United States and their relationship to questions about Holocaust memory and its lessons Comprehensive and offering a detailed historical perspective this is the perfect resource for those looking to gain a deep understanding of this tragedy

The Politics of Retribution in Europe István Deák, Jan T. Gross, Tony Judt, 2009-11-06 The presentation of Europe's immediate historical past has quite dramatically changed Conventional depictions of occupation and collaboration in World War II of wartime resistance and post war renewal provided the familiar backdrop against which the chronicle of post war Europe has mostly been told Within these often ritualistic presentations it was possible to conceal the fact that not only were the majority of people in Hitler's Europe not resistance fighters but millions actively co-operated with and many millions more rather easily accommodated to Nazi rule Moreover after the war those who judged former collaborators were sometimes themselves former collaborators Many people became innocent victims of retribution while others among them notorious war criminals escaped punishment Nonetheless the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent In inspiring essays a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war's aftermath how to punish the guilty how to decide who was guilty of what how to convert often unspeakable and conflicted war experiences and memories into serviceable even uplifting accounts of national history In short these scholars explore how the drama of the immediate past was and was not successfully overcome Through their comparative and transnational emphasis they also illuminate the division between eastern and western Europe locating its origins both in the war and in post war domestic and international affairs Here as in their discussion of collaborators trials the authors lay bare the roots of the many unresolved and painful memories clouding present day Europe Contributors are Brad Abrams Martin Conway Sarah Farmer Luc Huyse László Karsai Mark Mazower and Peter Romijn as well as the editors Taken separately their essays are significant contributions to the contemporary history of several European countries Taken together they represent an original and pathbreaking account of a formative moment in the shaping of Europe at the dawn of a new millennium
