Bitter Feast:

The Great Peace of Montreal of 1701 Gilles Havard, 2001 The last decades of the seventeenth century were marked by persistent bloody conflicts between the French and their Native allies on the one side and the Iroquois confederacy on the other In the summer of 1701 1 300 representatives of forty First Nations from the Maritimes to the Great Lakes and from James Bay to southern Illinois met with the French at Montreal Elaborate month long ceremonies culminated in the signing of The Great Peace of Montreal which effectively put an end to the Iroquois wars In The Great Peace of Montreal of 1701 Gilles Havard brings to life the European and Native players who brought about this major feat of international diplomacy He highlights the differing interests and strategies of the numerous First Nations involved while giving a dramatic account of the colourful conference The treaty Havard argues was the culmination of the French colonial strategy of Native alliances and adaptation to Native political customs It illustrates the extent of cultural interchange between the French and their Native allies and the crucial role the latter played in French conflicts with the Iroquois and the British As we approach the 300th anniversary of the treaty s signing in August 1701 Gilles Havard emphasizes its contemporary significance in signing a treaty with forty separate parties the French recognized the independent sovereignty of every First Nation This translation is significantly revised and updated from the original French publication of 1992 Ethnic Groups and Marital Choices

Madeline Kalbach, 2011-11-01 Since the late nineteenth century the rate of intermarriage between members of different European ethnic and cultural groups in Canada has increased and resulted in a gradual blending of these communities This book the first detailed comparative study of ethno religious intermarriage provides the background for understanding the dynamics of intermarriage in a culturally pluralistic society like Canada Using for the first time data from the 1871 Census of Canada in conjunction with data from the 1971 Census Madeline Richard delineates the general patterns of ethnic intermarriage in 1871 and 1971 and specifically considers the trends for the English Irish Scotch French and Germans Choosing a number of characteristics such as level of literacy nativity age and place of residence for the husbands the author determines the odds for their marrying outside their communities She also examines the socio demographic characteristics such as group size sex ratio per cent urban and level of literacy of each group to determine the marriage patterns of the husbands Richard s findings confirm that marital assimilation was occurring to some extent as early as 1871 and that the rate of intermarriage has doubled since then Of particular interest are the major shifts exhibited by Irish Scottish and German husbands who in 1871 overwhelmingly married within their community while in 1971 they typically found their mates outside This book is not only about marital patterns it is also about the ethnic groups themselves It gives detailed descriptions of the English Irish Scottish French German Italian Dutch Polish Scandinavian Ukrainian and other groups their immigration history settlement patterns and socio demographic characteristics as these all have some bearing on patterns of mate selection *PARADISE CRIME MYSTERIES COMPLETE BOX SET BOOKS 1-16* Toby Neal, If Eve Dallas and Harry
