Bizarre Winery Tragedy:

Bizarre Winery Tragedy Lyle Neff, 2005 *Bizarre Winery Tragedy* is a book of lyric poems about country folk city folk alcohol and urbanism These poems continue Neff's quest to explore the modern day juxtaposition of urban and rural landscapes and the lines of power between the countryside and the metropolis firewood dams and the WiFi enabled grid Deeper insights emerge in this the author's third published collection *Bizarre Winery Tragedy* is 21st century poetry that juggles death and technology and finds some nasty laughs in the process Think of it as a strange and tragic road trip through British Columbia's wine consuming regions with Neff at the wheel These poems pack a wallop They're full of outrage and bravado tempered by amazing insights and a highly developed musical sensibility They steam and churn with the energy of the city they burn with this young poet's hottest fire of sight Lorna Crozier Lyle Neff understands without the melodrama and hysterics of so many of his contemporaries the duality of his natural surroundings trees and skyscrapers mountains and public transit and never once portrays this with anything less than a lyric beauty full of imagination humour and optimism Evan Jones *New Canadian Poetry* Lyle Neff's as indiosyncratic and epigrammatic as off kilter and dead on as insolent and restless and thoughtfully skilled as a poet should be From here on in almost everybody else is playing catch up Michael

The Tragic Vision of Politics Richard Ned Lebow, 2003-10-30 Is it possible to preserve national security through ethical policies Richard Ned Lebow seeks to show that ethics are actually essential to the national interest Recapturing the wisdom of classical realism through a close reading of the texts of Thucydides Clausewitz and Hans Morgenthau Lebow argues that unlike many modern realists classic realists saw close links between domestic and international politics and between interests and ethics Lebow uses this analysis to offer a powerful critique of post Cold War American foreign policy He also develops an ontological foundation for ethics and makes the case for an alternate ontology for social science based on Greek tragedy s understanding of life and politics This is a topical and accessible book written by a leading scholar in the field
