Live In Robert J. Norrell,2005-02-01 In *The House I Live In* award winning historian Robert J Norrell offers a truly masterful chronicle of American race relations over the last one hundred and fifty years This scrupulously fair and insightful narrative the most ambitious and wide ranging history of its kind sheds new light on the ideologies from white supremacy to black

nationalism that have shaped race relations since the Civil War Norrell argues that it is these ideologies more than politics or economics that have sculpted the landscape of race in America Beginning with Reconstruction he shows how the democratic values of liberty and equality were infused with new meaning by Abraham Lincoln only to become meaningless for generations of African Americans as the white supremacy movement took shape The heart of the book paints a vivid portrait of the long often dangerous struggle of the Civil Rights movement to overcome decades of accepted inequality Norrell offers fresh appraisals of key Civil Rights figures and dissects the ideas of racists He offers striking new insights into black white history observing for instance that the Civil Rights movement really began as early as the 1930s and that contrary to much recent writing the Cold War was a setback rather than a boost to the quest for racial justice He also breaks new ground on the role of popular culture and mass media in first promoting but later helping defeat notions of white supremacy Though the struggle for equality is far from over Norrell writes that today we are closer than ever to fulfilling the promise of our democratic values

The House I Live In gives readers the first full understanding of how far we have come **The Power of Negativity** Raya Dunayevskaya, 2001-11-13 Raya Dunayevskaya is hailed as the founder of Marxist Humanism in the United States In this new collection of her essays co editors Peter Hudis and Kevin B Anderson have crafted a work in which the true power and originality of Dunayevskaya's ideas are displayed This extensive collection of writings on Hegel Marx and dialectics captures Dunayevskaya's central dictum that contrary to the established views of Hegelians and Marxists Hegel was of signal importance to the theory and practice of Marxism The Power of Negativity sheds light not only on Marxist Humanism and the rooting of Dunayevskaya's Marxist Humanist theories in Hegel but also on the life of one of America's most penetrating and provocative critical thinkers **Roots of American Racism** Alden T. Vaughan, 1995 Equally

Smith Marilyn Frye Shane Phelan Leila J Rupp Hazel Carby and Adrienne Rich with lesser known writers and scholars this broad based anthology ranges widely from personal narratives to empirical research The book unpacks issues of race class gender ethnicity sexuality disability and age contributing a m lange of sharp lively perspectives to current debate In a postmodern era of feminism how do women come to identify organize and mobilize themselves within a complex global network of relationships Identity Politics in the Women s Movement offers critical examination of the inescapable role of identity in academic and activist feminism and the opportunities challenges and conflicts identity politics pose
