The Mass Media and the Dynamics of American Racial Attitudes Paul M. Kellstedt, 2003-08-04 Paul M Kellstedt explains the variation in Americans racial attitudes over the last half century particularly the relationship between media coverage of race and American public opinion on race The analyses reveal that racial policy preferences have evolved in an interesting and unpredicted if not unpredictable fashion over the past fifty years There have been sustained periods of liberalism where the public prefers an active government to bring about racial equality and these periods are invariably followed by eras of conservatism where the public wants the government to stay out of racial politics altogether These opinions respond to cues presented in the national media Kellstedt then examines the relationship between attitudes on the two major issues of the twentieth century race and the welfare state

Divided We Fail Sarah Garland, 2013-01-29 Examines why school desegregation despite its success in closing the achievement gap was never embraced wholeheartedly in the black community as a remedy for racial inequality In 2007 a court case originally filed in Louisville Kentucky was argued before the Supreme Court and officially ended the era of school desegregation both changing how schools across America handle race and undermining the most important civil rights cases of the last century Of course this wasn t the first federal lawsuit to challenge school desegregation But it was the first and only one brought by African Americans In *Divided We Fail* journalist Sarah Garland deftly and sensitively tells the stories of the families and individuals who fought for and against desegregation By reframing how we commonly understand race education and the history of desegregation this timely and deeply relevant book will be an important contribution to the continued struggle toward true racial equality

The Race Card Tali Mendelberg, 2017-10-09 Did George Bush s use of the Willie Horton story during the 1988 presidential campaign communicate most effectively when no one noticed its racial meaning Do politicians routinely evoke racial stereotypes fears and resentments without voters awareness This controversial rigorously researched book argues that they do Tali Mendelberg examines how and when politicians play the race card and then manage to plausibly deny doing so In the age of equality politicians cannot prime race with impunity due to a norm of racial equality that prohibits racist speech Yet incentives to appeal to white voters remain strong As a result politicians often resort to more subtle uses of race to win elections Mendelberg documents the development of this implicit communication across time and measures its impact on society Drawing on a wide variety of research including simulated television news experiments national surveys a

comprehensive content analysis of campaign coverage and historical inquiry she analyzes the causes dynamics and consequences of racially loaded political communication She also identifies similarities and differences among communication about race gender and sexual orientation in the United States and between communication about race in the United States and ethnicity in Europe thereby contributing to a more general theory of politics Mendelberg's conclusion is that politicians including many current state governors continue to play the race card using terms like welfare and crime to manipulate white voters sentiments without overtly violating egalitarian norms But she offers some good news implicitly racial messages lose their appeal even among their target audience when their content is exposed

White Supremacy and Racism in the Post-civil Rights Era Eduardo Bonilla-Silva, 2001 Is a racial structure still firmly in place in the United States White Supremacy and Racism answers that question with an unequivocal yes describing a contemporary system that operates in a covert subtle institutional and superficially nonracial fashion Assessing the major perspectives that social analysts have relied on to explain race and racial relations Bonilla Silva labels the post civil rights ideology as color blind racism a system of social arrangements that maintain white privilege at all levels His analysis of racial politics in the United States makes a compelling argument for a new civil rights movement rooted in the race class needs of minority masses multiracial in character and focused on attaining substantive rather than formal equality

Voting Hopes or Fears? Keith Reeves, 1997-10-23 When President Lyndon B Johnson signed the 1965 Voting Rights Act he explained that it flowed from a clear and simple wrong But a generation later whites still remain resistant to the election of blacks to public office That widespread resistance Keith Reeves illustrates can be explained in large part by election campaign appeals to whites racial fears and sentiments Based on empirical research examining white voters attitudes towards black candidates and racial framing of campaign news coverage *Voting Hopes or Fears* explosively documents that racial discrimination against black candidates is contemporary specific and identifiable Reeves concludes by outlining possible remedies such as modified at large voting systems and by defending the practice of race conscious legislative districting now under attack by the Supreme Court Marshaling startling evidence of voting discrimination against black candidates on account of race and featuring a Foreword by The Honorable A Leon Higginbotham Jr Chief Justice Emeritus of the US Court of Appeals *Voting Hopes or Fears* will be mandatory reading for political and social scientists scholars of racism and African American Studies civil rights litigators journalists black lawmakers and office seekers and general readers interested in the subject of race and politics in American society

ethnic campus communities This book analyzes the ideological and legal construction of colorblind legislation that has led to the de facto exclusion of people of color from institutions of higher education It addresses the role of the courts in affecting affirmative action in higher education as a workplace and place of study It documents the under representation of collegians of color and presents research on student opinion on race based policies at two and four year institutions It details the pervasiveness of the affirmative action debate across educational sectors and the status of race among myriad factors considered in college admissions Finally it considers affirmative action as a pipeline issue and in the light of educational policy

Black Pride and Black Prejudice Paul M. Sniderman, Thomas Piazza, 2021-02-09 Do black pride and black prejudice come hand in hand Does taking pride in being black encourage the rejection of a common bond with other Americans In this groundbreaking study two leading social scientists mount a challenge to those who would answer yes Paul Sniderman and Thomas Piazza probe these questions in the only way possible asking black Americans themselves to share their thoughts about each other America and other Americans Writing in a strikingly transparent style they open a new window on the ideas and values of real individuals who make up the black community in America today Contrary to the rhetoric of some black leaders Sniderman and Piazza show that African Americans overwhelmingly reject racial separatism and embrace a common framework culture and identity with other Americans Although the authors find that levels of anti-Semitism are notably higher among black Americans than among white Americans they demonstrate that taking pride in being black does not encourage blacks to be more suspicious or intolerant of others who are not black The higher levels of anti-Semitism are instead associated with a gallery of oversimplified and accusatory ideas including a popularized Afrocentrism and charges of vast conspiracies that have won substantial support in the black community Readers of this book will come away with an understanding of how African Americans while insistent on winning racial justice are deeply committed to the values of the American ethos and their identity as Americans
