## **Black Community Diversity And Unity:**

**The Black Community** James Edward Blackwell,1975      Salt City and its Black Community S. David Stamps,Miriam Burney Stamps,2008-03-10 A robust black professional class has existed in many southern cities since the nineteenth century and in large northern cities such as Chicago New York and Washington D C since early in the twentieth century In contrast the black professional class in Syracuse New York a mid-sized northern industrial city developed relatively late and struggled in its early relationship with the white community Employing a conflict theory approach the authors analyze the effects of black migration north affirmative action school integration urban renewal deindustrialization political mobilization and suburbanization on the growth and development of the black community The authors demonstrate how competition for limited resources has fostered varying degrees of confrontation social dispute adjustment and eventual change in black white relations Drawing upon urban surveys and quantitative research combined with personal testimony this book offers a richly detailed and compelling portrait of a minority community providing indispensable insights into the dynamics of community development as a historical and sociological process      Building Health Coalitions in the Black Community ,      *The Politics of Black Empowerment* James Jennings,2000-01-08 The Politics of Black Empowerment uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics While traditional Black political activists seek access or political incorporation another group aims for power sharing The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks but the progressive constituency focuses on fundamentally changing the whole economic and political pie Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country The Politics of Black Empowerment describes the characteristics of Black empowerment activism in America

**African Americans and the Bible** Vincent L. Wimbush, 2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and tropes as African Americans From literature and the arts to popular culture and everyday life the Bible courses through black society and culture like blood through veins Despite the enormous recent interest in African American religion relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible African Americans and the Bible is the fruit of a four year collaborative research project directed by Vincent L Wimbush and funded by the Lilly Endowment It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography cultural history and biblical studies as well as art music film dance drama and literature The focus is on the interaction between the people known as African Americans and that complex of visions rhetorics and ideologies known as the Bible As such the book is less about the meanings of the Bible than about the Bible and meanings less about the worlds of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people constructs a text It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general Thus African Americans and the Bible provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed
