perlocutionary effects      **TLA Film and Video Guide, 1996-1997** TLA Publication Staff, Tla Publication, 1996      *The British Army in Battle and Its Image 1914-18* Stephen Badsey, 2011-10-20 In this collection of essays of incomparable scholarship Stephen Badsey explores in individual detail how the British Army fought in the First World War how politics and strategy affected its battles and the decisions of senior commanders such as Douglas Haig and how these issues were intimately intertwined with the mass media portrayal of the Army to itself and to the British people Informative provocative and often entertaining based on more than a quarter century of research these essays on the British Army in the First World War range through topics from a trench raid to modern television comedy As a contribution to progressive military history *The British Army in Battle and Its Image 1914 1918* proves that the way the British Army fought and its portrayal through the media cannot be separated It is one of a growing number of studies which show that far from being in opposition to each other cultural history and the history of battle must be combined for the First World War to be properly understood For more information visit Stephen Badsey s website [www.stephenbadsey.com](http://www.stephenbadsey.com)      **Debating in the World Schools Style** Simon Quinn, 2009 Offers students an overview of the world schools style of debating with expert advice for every stage of the process including preparation rebuttal style reply speeches and points of information      [Elephant Trails](#) Nigel Rothfels, 2021-11-30 Why have elephants and our preconceptions about them been central to so much of human thought From prehistoric cave drawings in Europe and ancient rock art in Africa and India to burning pyres of confiscated tusks our thoughts about elephants tell a story of human history In *Elephant Trails* Nigel Rothfels argues that over millennia we have made elephants into both monsters and miracles as ways to understand them but also as ways to understand ourselves Drawing on a broad range of sources including municipal documents zoo records museum collections and encounters with people who have lived with elephants Rothfels seeks out the origins of our contemporary ideas about an animal that has been central to so much of human thought He explains how notions that have been associated with elephants for centuries that they are exceptionally wise deeply emotional and have a special understanding of death that they never forget are beloved of the gods and suffer unusually in captivity and even that they are afraid of mice all tell part of the story of these amazing beings Exploring the history of a skull in a museum a photograph of an elephant walking through the American South in the early twentieth century the debate about the quality of life of a famous elephant in a zoo and the accounts of elephant hunters Rothfels demonstrates that elephants are not what we think they are and they never have been *Elephant Trails* is a compelling portrait of what the author terms our elephant      [The True History of the Blackadder](#) Jem Roberts, 2012 To mark the 30th anniversary of the first pilot episode of *The Black Adder* this is the complete history of the series with the co operation of writers Richard Curtis and Ben Elton producer John Lloyd cast and crew It includes hitherto unseen material including extracts from a previously unseen and unproduced Christmas special      **The British Sitcom Spinoff Film** Stephen Glynn, 2023-12-07 This book constitutes the first full volume dedicated to an academic analysis of theatrically

released spinoff films derived from British radio and television sitcoms Regularly maligned as the nadir of British film production and marginalised as a last resort for the financially bereft industry during the 1970s this study demonstrates that the sitcom spinoff film has instead been a persistent and important presence in British cinema from the 1940s to the present day and includes occasional works with distinct artistic merit Alongside an investigation of the economic imperative underpinning these productions i e the exploitation of proven product with a ready made audience it is argued that with a longevity stretching from Arthur Askey and his wartime Band Waggon 1940 to the crew of Kurupt FM and their recent People Just Do Nothing Big in Japan 2021 the British sitcom spinoff can be interpreted as following a full generic life cycle Starting with the formative stage where works from Hi Gang 1941 to I Only Arsked 1958 establish the genre s characteristics the spinoff genre moves to its classic stage where secure for form and content it enjoys considerable popular success with films like Till Death Us Do Part 1969 On the Buses 1971 The Likely Lads 1976 and Rising Damp 1980 the genre s revival since the late 1990s reveals a more parodic final stage with films like The League of Gentlemen s Apocalypse 2005 adopting a consciously self reflective mode It is also posited that the sitcom spinoff film is a viable source for social history with the often stereotypical re presentations of characters and events an often blatant ideological metonym for the concerns of wider British society notably in issues of class race gender and sexuality
